RE: OFFICE VISIT BY BOB BLACKADAR (75-00003 & 75-00009)
DATE: MARCH 9, 1994

Mr. Blackadar met with me on February 25, 1994, to request that IDWR evaluate the above referenced rights claimed by Mr. Myrthus Austin and take action to prevent delivery of the rights by the Water District 75A watermaster. Mr. Blackadar contends that the rights are not owned by Mr. Austin, have been lost, and should not be delivered. He left copies of several deeds, contracts and other documents intended to demonstrate that ownership of the rights is not with the claimaint.

The ownership trail looks complicated enough that it likely will require consideration in the SRBA. However, in the meantime we need to make a deliberate decision whether to continue delivery to Mr. Austin. Please have appropriate staff review the documents and lets discuss an appropriate course of action.

Mr. Blackadar requested that copies of the documents be included in the SRBA claim files.
