RE: Porter Creek Water District 65B- Account

Dear Ms. Reed:

The past several years the flows in Porter Creek have been adequate, and the Watermaster has not been called to make deliveries. Thus, there has been little District activity for a number of irrigation seasons.

From the water district records it appears the account was last reconciled with the County in 1992. As it has been a number of years since, the Department/District would like to request a summary of the account activity starting with 1993 to present balance. This will enable the District Secretary to correctly reconcile individual wateruser's assessments to date.

We appreciate your continued cooperation in assisting the District.  
Please contact me, if you have any questions at our Western Regional Office, phone 334-2190.

Sincerely,

A handwritten signature in cursive script that reads "John Westra".
