Re: Water District 47-C

Dear Jim:

I am delivering herewith, triplicate originals of the Watermaster's Report from Mr. Jack Eastman, the Watermaster of Water District 47-C. One triplicate original set is for the deliveries during the irrigation season of 1994 made in Twin Falls County, and the other set is for the distribution of water made by the Watermaster in Owyhee County.

I am also enclosing duplicate originals of the proposed budget for 1995 for this water district. One set of duplicate copies is for the deliveries which will be made in Twin Falls County, and the other set is for deliveries which will be made in Owyhee County.

As you know, these forms indicate at the top that they are to be forwarded to the Department of Water Resources in Boise for approval. I have been advised by personnel in your office in the past years to send these to your local office and that the local office will then approve them and send them on to Boise. I trust this is the procedure you prefer this year. If not, and if you want me to send them directly to Boise, please call me and I will pick up the documents.

We have had some problem in the past with the Department not getting the approved report filed with the County Auditor's Office in Owyhee County so that payment can be made. Please see that the necessary copies are sent to the respective county auditors.
