FROM: Jim Stanton

SUBJECT: Interpreting Watermaster Reports in District 47-C

Watermaster's salary includes gasoline allowance, & is a set fee not related to number of days worked. Total deliveries for Twin Falls Co. includes water stored in Cedar Creek Reservoir; is charged the same as direct-flow deliveries, and should be included in the first column on P. 3 of form. The entry for other expenses is only for secretary/treasurer part of budget. Around 91% of the costs are paid by Twin Falls County users. County auditors have been acting as treasurers for this district, but this will stop beginning in 1999; district will have to find its own treasurer then.
