CECIL D. ANDRUS
GOVERNOR

R. KEITH HIGGINSON
DIRECTOR

April 7, 1994

Mr. Bryan R. Kenworthy
Hagerman National Fish Hatchery
3059 D National Fish Hatchery Road
Hagerman, Idaho 83332

Dear Bryan:

The Department of Water Resources is currently monitoring flow rates from selected springs in Water District 36A. As we have previously discussed, the National Fish Hatchery measures and records flow from several springs from which they divert water. These records would be valuable to the Department's efforts in establishing seasonal flow records and trends for this region. I am requesting copies of flow records for the last two years from the following sources:

- Bickel springs
- Riley lake
- Spring #15 (SE of Len Lewis)
- Main Spring (Co-mingling of Len Lewis, #12, #13, #14, and #15 springs)
- Spring #17

I would also like to have copies of Brailsford Ditch flow measurements made by Dave Langman on March 17, 1994. During our visit on the 17th, Dave agreed to make copies of his measurement notes later that day, but we failed to get them from him.

Thank you for your assistance. If you have any questions or problems with this request, please let me know. I can be reached by mail at the above address or by phone at (208) 327-7897.

Sincerely,

A handwritten signature in cursive script that reads "Scott King".
