Department of Water Resources  
Southern Region

RE: 1998 Annual Meeting

The Billingsley Creek Water District Annual Meeting was held on March 2, 1998 in Hagerman. Attendance was very light. There were no controversial issues to discuss.

Current officers were re-elected: John LeMoyne as Chairman, Frank Irwin as Watermaster, Deloris Jones as Secretary/Treasurer. The title of treasurer was officially added to Mrs. Jones' position this year per instructions from IDWR. She has been acting treasurer for several years now.

The accepted budget and balance sheet are attached. Deloris reported that all assessments have been received except one.

Frank Irwin reported he was only called about three times last year. Water users in this area continue to report individually (or by ditch company) to IDWR under the water measurement program.
