Attention Bob Foster:

In conjunction with Brian Hamilton from the U.S. Bureau of Reclamation, our family has installed an appropriate flume/weir on our Germania Creek diversion on the East Fork of the Salmon River. Additionally, we feel we have an adequate control structure as defined in your letter of January 23, 2009. Both devices were in place by June 15, 2009 and we will begin diverting water after July 3, 2009.

Our property is at 23300 East Fork Road in Basin 72. Our original water right is #72-233, and our new water right # is 72-16775.

**We believe we are now in compliance with your new requirements.
Please let us know if you have any questions. Thanks.**
