

This workbook was prepared by Nick Miller of IDWR using a May 30, 2006 query of the IDWR water rights database. It represents a snapshot of active water rights as of that date and may not reflect recent water rights transfers, permits, or changes in ownership. Note that many of the water rights in Basin 34 have specific conditions regarding how to administer the right. These conditions may be reviewed using the IDWR water rights search tool on the internet at: <http://www.idwr.state.id.us/apps/ExtSearch/SearchWRAJ.asp>

This workbook contains six worksheets:

Readme: This worksheet that contains explanatory information.

All SW Rights: A list of all the active water rights, permits and adjudication recommendations from surface water sources within the boundaries of Water District 34. In addition to describing the water right, this list indicates whether a water right is an exchange right and whether it is diverted from sources listed on and/or included on Attachments A and B of the General Provisions for the Basin 34 SRBA Partial Decree.

Instream Stockwater: A listing of the instream stockwater rights in Water District 34, sorted by priority date.

Att A Rights: A listing of all surface water rights (except instream stockwater) from sources listed in Attachment A of the General Provisions, with an indication of whether each right was actually listed on Attachment A.

Above Reservoir: A listing of all rights (except instream stockwater) from sources above Mackay Reservoir. This list is sorted by diversion name, then Priority Date. The list also indicates whether the right is diverted from a source listed on Attachment B of the General Provisions, and whether the right is listed on Attachment B. Note that Recharge rights are in boldface type.

Below Reservoir: A listing of all rights (except instream stockwater) from sources below Mackay Reservoir. This list is sorted by diversion name, then Priority Date. The list also indicates whether the right is diverted from a source listed on Attachment B of the General Provisions, and whether the right is listed on Attachment B. Note that Recharge rights are in boldface type.
