DEPARTMENT OF  
WATER RESOURCES

Dear Mr. Miller:

1.10.11

The year 2010 has passed and we were able to install the water weir, which you left with us in September 2010. We greatly appreciate it and found no problem with the putting together, and the installation into the ditch. Following your advice on location and installation it appeared to fit perfectly in the designated spot.

We greatly appreciate the unit, along with your advice and counsel on the installation. It looks great, and we will see how effectively it works when the water is turned into the ditch in April 2011. We will notify you on the success.

I have enclosed several pictures on and after the installation.

Sincerely yours,

*Merrill G. Shupe*
