RE: Preliminary Order Suspending Rotation Credit In Water District #34

Mr. Spackman:

Please be advised that we do not agree with the findings of fact which were presented in the above referenced Order. If the rotation credit is withdrawn from use our farm will be substantially monetarily affected. As you know, our water situation is bare, and this order would continue to decrease our water for our crops.

We have been operating under a plan of operation that was approved by the SRBA Court. We were never advised that there was a problem prior to the Preliminary Order as referenced above.

Your reconsidering this action and having a hearing to improve the communication and accounting would be greatly appreciated.

Very truly yours,

Moj and Debbie Broadie

Certified return requested.
