

**BEFORE THE DEPARTMENT OF WATER RESOURCES  
OF THE STATE OF IDAHO**

IN THE MATTER OF A DECLARATION )  
OF DROUGHT EMERGENCY FOR )  
LINCOLN COUNTY )  
\_\_\_\_\_ )

**ORDER DECLARING  
DROUGHT EMERGENCY**

WHEREAS, the Lincoln County Commissioners requested that the Director of the Idaho Department of Water Resources and the Governor declare a drought emergency for Lincoln County to allow administrative actions to lessen the severe impacts of the drought conditions in the county; and

WHEREAS, Lincoln County water users depend on the Big Wood River, Little Wood River, Magic Reservoir, and ground water for their water supplies; and

WHEREAS, the precipitation until mid-January was nearly normal, however the last five months have declined causing less than normal spring flows in the Big and Little Wood Rivers and their tributaries and the Magic Reservoir; and

WHEREAS, the snowpack melted off about two weeks earlier than normal in the Big Wood Basin and a month earlier than normal in the Little Wood Basin which will result in reduced runoff during peak irrigation demands; and

WHEREAS, as of June 1 NRCS estimates a 50 percent probability that the June through September surface water supply for the Big Wood Basin will be reduced by 53,000 acre-feet and the Little Wood Basin will be reduced by 10,000 acre-feet below an adequate water supply necessary for irrigation; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency for an area designated by the Director of the Department of Water Resources ("Director") and approved by the Governor, the Director is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights and temporary exchanges of water rights when the Director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

WHEREAS, the existing Amended Moratorium Order of the Director of the Department of Water Resources, dated April 30, 1993, applicable to the Eastern Snake River Plain Area, including Lincoln County, does not prohibit the processing or approval of applications for transfer of existing water rights;

NOW, THEREFORE, IT IS HEREBY ORDERED that pursuant to the authority of the Director provided in section 42-222A, Idaho Code, a drought emergency for purposes of section 42-222A, Idaho Code, is hereby declared for Lincoln County, Idaho.

IT IS FURTHER HEREBY ORDERED that pursuant to this declared drought emergency and the provisions of section 42-222A, Idaho Code, the following procedures and requirements shall apply to the filing, processing, and approval of any application for a temporary change to an existing water right within Lincoln County during the pendency of this declared drought emergency:

1. An application for a temporary change to an existing water right shall be made upon forms provided by the department and shall be accompanied by an application fee of fifty dollars (\$50.00) per application.
2. The Director is not required to publish notice of the proposed change pursuant to the provisions of section 42-211, 42-222(1), or 42-240, Idaho Code, and is not required to make findings as provided in said sections. A temporary change may be approved upon completion of the application form, payment of the filing fee, and a determination by the Director that the proposed change can be properly administered and there is no information that the change will injure any other water right. If the right to be changed is administered by a watermaster within a water district, the Director shall obtain and consider the recommendations of the watermaster before approving the temporary change application.
3. All temporary changes approved pursuant to the provisions of this order shall expire on the date shown in the approval which shall not be later than December 31, 2007, and thereafter, the water right shall revert to the point of diversion and place of use existing prior to the temporary change. Nothing herein shall be construed as approval to authorize construction of a new well as a new point of diversion or to alter a stream channel.
4. The recipient of an approved temporary change issued pursuant to this order shall assume all risk of curtailment or mitigation should the diversion and use of water under the temporary change cause injury to other water rights or result in an enlargement in use of the original right.
5. Temporary changes shall only be approved for the purpose of providing a replacement water supply to lands or other uses that normally have a full water supply, except for the drought condition. Temporary changes may not be approved to provide water for new development or to allow expansion of the use of water under existing water rights. If the right to use the water is represented by shares of stock in a corporation, or if the diversion works or delivery system for such right is owned or managed by an irrigation district, no change in point of diversion, place or nature of use of such water shall be made or allowed without the written consent of such corporation or irrigation district.

6. Any applicant for a temporary change who is aggrieved by a denial of the Director for a temporary change pursuant to this order and the provisions of section 42-222A, Idaho Code, may request a hearing pursuant to section 42-1701A(3), Idaho Code, and may seek judicial review of the final order of the Director pursuant to the provisions of section 42-1701A(4), Idaho Code.

IT IS FURTHER HEREBY ORDERED that this order is effective upon approval of the Governor and expires on December 31, 2007, unless extended or terminated by order of the Director.

DATED this 27<sup>th</sup> day of June 2007.

  
for DAVID R. TUTHILL, JR.  
Director

APPROVED this 27<sup>th</sup> day of June 2007.

  
C.L. "BUTCH" OTTER  
Governor
