

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF A DECLARATION)
OF DROUGHT EMERGENCY FOR)
BEAR LAKE COUNTY)
_____)

ORDER DECLARING
DROUGHT EMERGENCY

WHEREAS, the Board of County Commissioners for Bear Lake County has requested that the Governor and the Director of the Idaho Department of Water Resources declare a drought emergency for Bear Lake County to allow administrative actions to lessen the impacts of drought conditions in the county; and

WHEREAS, Bear Lake County is included within and relies upon water supplies from the Bear River basin; and

WHEREAS, drainages in and around Bear Lake County are experiencing moderate drought conditions with the year's snow water and precipitation levels being well below normal. Specifically, stream flow volume for the Bear River below Stewart Dam from June through September is forecasted to be only 20 percent of normal. Additionally, snow water equivalent (SWE) levels in the Bear Lake County area were about normal as of May 1 but a dry spring caused snow packs to melt out several weeks early leaving June 1 SWE levels at only 80 percent of normal; and

WHEREAS, the United States Drought Monitor Index shows Bear Lake County included within that portion of Southeastern Idaho classified as moderate drought; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency for an area designated by the Director of the Department of Water Resources ("Director") and approved by the Governor, the Director is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights and temporary exchanges of water rights when the Director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

NOW, THEREFORE, IT IS HEREBY ORDERED that pursuant to the authority of the Director provided in section 42-222A, Idaho Code, a drought emergency for purposes of section 42-222A, Idaho Code, is hereby declared for Bear Lake County, Idaho.

IT IS FURTHER HEREBY ORDERED that pursuant to this declared drought emergency and the provisions of section 42-222A, Idaho Code, the following procedures and requirements shall apply to the filing, processing, and approval of any application for a temporary change to an

existing water right within Bear Lake County during the pendency of this declared drought emergency:

1. An application for a temporary change to an existing water right shall be made upon forms provided by the department and shall be accompanied by an application fee of fifty dollars (\$50.00) per application.
2. The Director is not required to publish notice of the proposed change pursuant to the provisions of section 42-211, 42-222(1) or 42-240, Idaho Code, and is not required to make findings as provided in said sections. A temporary change may be approved upon completion of the application form, payment of the filing fee, and a determination by the Director that the proposed change can be properly administered and there is no information that the change will injure any other water right. If the right to be changed is administered by a watermaster within a water district, the Director shall obtain and consider the recommendations of the watermaster before approving the temporary change application.
3. All temporary changes approved pursuant to the provisions of this order shall expire on the date shown in the approval which shall not be later than December 31, 2013, and thereafter, the water right shall revert to the point of diversion and place of use existing prior to the temporary change. Nothing herein shall be construed as approval to authorize construction of a new well as a new point of diversion or to alter a stream channel.
4. The recipient of an approved temporary change issued pursuant to this order shall assume all risk of curtailment or mitigation should the diversion and use of water under the temporary change cause injury to other water rights or result in an enlargement in use of the original right.
5. Temporary changes shall only be approved for the purpose of providing a replacement water supply to lands or other uses that normally have a full water supply, except for the drought condition. Temporary changes may not be approved to provide water for new development or to allow expansion of the use of water under existing water rights. If the right to use the water is represented by shares of stock in a corporation, or if the diversion works or delivery system for such right is owned or managed by an irrigation district, no change in point of diversion, place or nature of use of such water shall be made or allowed without the written consent of such corporation or irrigation district.
6. Any applicant for a temporary change who is aggrieved by a denial of the Director for a temporary change pursuant to this order and the provisions of section 42-222A, Idaho Code, may request a hearing pursuant to section 42-1701A(3), Idaho Code, and may seek judicial review of the final order of the Director pursuant to the provisions of section 42-1701A(4), Idaho Code.

IT IS FURTHER HEREBY ORDERED that this order is effective upon approval of the Governor and expires on December 31, 2012, unless extended or terminated by order of the Director.

DATED this 16th day of July, 2013.

GARY SPACKMAN
Director

APPROVED this 16th day of July, 2013.

C. L. "BUTCH" OTTER

OFFICE OF THE GOVERNOR

July 8, 2013

Stephen Goodson
Special Assistant For Energy and Natural Resources
Office of Governor C. L. "Butch" Otter
Idaho State Capitol
P.O. Box 83720
Boise, ID 83720

Dear Mr. Goodson:

The Board of Bear Lake County Commissioners respectfully request that Governor Otter declare Bear Lake County a disaster area due to the severely damaged crops in the County. The expeditious handling of this request will allow local farmers to be eligible for State and Federal assistance available to drought stricken areas.

Respectfully,

The Board of Bear Lake Commissioners

Vaughn N. Rasmussen, Chairman
