

Upper Snake River Basin for Minidoka Dam, American Falls Reservoir, Jackson Lake and Palisades Reservoir. These water rights and claims are: 01-211A, 01-214A, 01-217, 01-218, 01-219, 01-2016, 01-4024, 01-4025, 01-2040, 01-284, 01-2064, 01-2068, 01-4052, 01-4055, 01-4056, 01-4057, 01-10042, 01-10043, 01-10044, 01-10045, and 01-10053.

Reclamation can show a direct and substantial interest in the subject matter of this proceeding since part, or all, of its foregoing water rights may still be materially injured under IDAPA 37.03.11.10.14 and 37.03.11.42, if the Department accepts an inadequate or defective mitigation plan contrary Conjunctive Management Rule 37.03.11.43.

It is Reclamation's belief that the submitted Mitigation Plan is wholly inadequate and does not comply with the facial and substantive requirements of the Conjunctive Management Rule 37.03.11.43. The Mitigation Plan provides no certainty of what water will be provided, when, and by what means, but if all else fails, the Applicants assert that they will curtail use for a specified minimum amount of days. There is no information to show that curtailment will deliver water to mitigate part or all of the material injury that Reclamation is incurring by the continued pumping of Applicant's junior ground water pumpers.

Relief Requested

1. Reclamation requests that its protest be granted.
2. Reclamation requests that the mitigation plan be dismissed.
3. Reclamation requests that because of the extensive involvement of the Director in formulating the hydrologic model that the Applicants are relying upon, and because the Director may need to be called as a witness for this proceeding, Reclamation requests that an Independent Hearing Officer be appointed.

Notice of Service

Reclamation hereby requests, pursuant to IDAPA 37.01.01.200, that its duly authorized representative and attorney, Kathleen Marion Carr, and its Manager of Water Rights and Acquisitions, E. Gail McGarry be copied on all subcase orders or pleadings at the following addresses:
