Re: Idaho Ground Water Appropriators' (IGWA) Motion for Summary Judgment and Motion in Support in the Matter of the Request for Administration in Water District 120 and the Request for Delivery of Water to Senior Surface Water Rights by A&B Irrigation District, American Falls Reservoir District #2, Burley Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Canal Company (*Motion for Summary Judgment*)

Dear Director Dreher:

We have reviewed the subject motion and attached affidavits submitted to the Department on March 23, 2005 in response to the request for water right administration and delivery of surface water filed on January 14, 2005, by various holders of surface water rights in the American Falls Reach of the Snake River (the "Surface Water Coalition"). Earlier this week, Idaho Power Company and the Surface Water Coalition responded that the summary judgment motion is neither authorized nor appropriate in an informal proceeding under IDAPA 37.01.01.100 and, as a consequence, they argued that the motion and affidavits should be stricken. Reclamation¹ agrees with this position given no action has been taken to establish a formal proceeding and we believe that the *Motion for Summary Judgment* was filed to preempt you from acting pursuant to Conjunctive Management Rules 37.03.11.040 -042.

¹ Reclamation's Petition to Intervene has yet to be granted, and we are writing as interested parties under IDAPA 37.01.01.158.

In any event, to the extent you wish to entertain the *Motion for Summary Judgment*, it is not appropriate for you to act on the motion without first granting Reclamation's *Petition to Intervene* and affording Reclamation an opportunity to respond to IGWA's motion at that time.

Please do not hesitate to call me, if you have any questions.

Sincerely,

Kathleen Marion Carr
