ADMINISTRATOR'S MEMORANDUM

TO: Regional Offices  
FROM: Norm Young *N.Y.*  
RE: Signatures on Applications for Water Right Permit

The signature on an application must be the signature of the applicant. There is no longer a reason to require that the signature be identical to line one of the application as long as the signature is that of the applicant.

A person may sign by making only a mark or "X". In which case, the person's name must be printed or typed nearby and the mark must have been witnessed and the application signed by the witness.
