ADMINISTRATOR'S MEMORANDUM

TO: Regional Offices and Water Allocation Section
FROM: Norman C. Young *NCY* Application Processing No. 32
DATE: November 8, 1984
RE: Applications for Permit for Power Purposes - Number of Projects
Per Application

In the past the Department has accepted multiple hydropower project proposals on one Application for Permit if the projects were to use a common water supply. Please be advised that the Director is considering a change in that policy to require a separate application for each project. Henceforth, allow only one project per application unless an exception is approved by the Director.
