Dear Mr. Beck:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Mountain Home News, all in proof of beneficial use under the above numbered permits.

Before final action can be taken in the matter the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will try to contact you at the time he makes the examination, so that you may arrange to show him over ground.
