

# Final Report

*ENHANCED SNAKE PLAIN  
AQUIFER MODEL  
FINAL REPORT*

July, 2006

By  
D. M. Conroy, H. A. Contor,  
G. S. Johnson  
Idaho Water Resources Research Institute,  
University of Idaho

for the  
Idaho Department of Water Resources

with guidance from the  
Eastern Snake Hydrologic Modeling Committee

Idaho Water Resources Research Institute  
Technical Report 06-002

Idaho  
Legislature  
Eastern Snake Plain Aquifer Model Enhancement Project  
Scientific Document Number 0104-019

**Bryce Contor**

**IWRRI**

**ESHMC Meeting January 2011**

# Basic Principles

- Use ESPAM1.1 report as a framework
- *Only change what needs to be changed*
- IWRRI will write the draft (mostly)
- ESHMC and IDWR will review
  - circulated as “track changes” \*.doc
- IDWR will be the author of the report
  - final product will be “track changes” and “changes accepted” versions

# ENHANCED SNAKE PLAIN AQUIFER MODEL

VERSION 2.0

FINAL REPORT

July, 2006/March, 2011

By D. M. Coogrove, B. A. Cantor, G. S. Johnson - Idaho Water Resources Research Institute, University of Idaho

for the Idaho Department of Water Resources

with guidance from the Eastern Snake Hydrologic Modeling Committee

Idaho Water Resources Research Institute Technical Report  
06-003

Idaho  
Legislature

Eastern  
Snake Plain Aquifer Model Enhancement  
Project Scenario Document Number DDM-019

Abstract	1	Introduction	1
1. Background and Study Objectives	1	1. Project	1
2. The Role of the Eastern Snake Hydrologic Modeling Committee	2	2. IHPAM Version	2
3. Study Area Description	3	3. Model	3

# The report is BIG

- We chopped it into pieces
- Allan will do the calibration section
- We haven't started on the figures and tables

- Many of the other pieces have already been distributed for review
  - Allan W. and John K. have returned comments
  - Unless we get overwhelmed:
    - Individual e-mail response to each comment
    - e-mails posted on IDWR website for the curious
