**RE:** Water Permit No. 35-8359

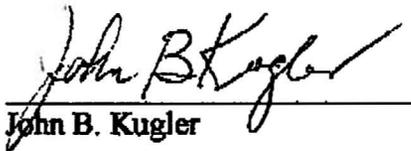

Ms. Gibson:

Attached hereto is my Request for Reconsideration and Hearing that I discussed with you last week after receiving the Order of the Department. Hopefully it meets the requirements of the department's regulations. If it insufficient in some manner please let me know so that I might amend the request with what other might be required.

It would be most appreciated if you might give me a call prior to the time the department might be scheduling the matter for hearing so that it can be determined that no conflict for me might exist.

Thank you for the telephone explanation regarding the notice that was included with the order of the department.

Sincerely,

  
John B. Kugler
