To whom it may concern:

On 14 Jan 2014 I attended a public meeting at the Teton Co Tola, courthouse in the Co Comm Room. The meeting was chaired by James Sufflow of FSWR office. It was a very well run and interesting meeting. I am a farmer and large property owner in Teton Co, Idaho. The subject was a Petition proposing a Teton Creek Flood Control District. We do not have a flooding problem on Teton Creek. We have a group of home owners in Creek Side Sub division who want FSWR to create a Flood Control Dist so they can get flood insurance on their homes which they built in the 100yr flood plane.

I do not want to pay ~~to~~ more taxes to support people who built in a potential flood way. These home owners and FTR (Friends of Teton River) seem to want to take over FSWR's job. I do not feel FSWR should abdicate any of its authority in managing Idaho Water Dist. #1 to third parties, and I do not want to pay to support stupid people. They built it, it is their problem.

I do not want my property taxed to support a flood control Dist. Now & forever.
