Subject: Comments on Teton Creek FCD

Director
Idaho Department of Water Resources

RE TETON CREEK FLOOD CONTROL DISTRICT

Honorable Director-

I am writing to register my comments regarding the proposed Teton Creek Flood Control District (FCD). I farm lands west of HWY 33 near Teton Creek and have water rights that benefit from the Buffalo Springs Diversion on Teton Creek which is located within the boundary of the Proposed FCD. I conditionally support the proposed FCD if I can be assured that our diversion is protected and exempt from FCD bureaucracy. We are concerned about being held hostage by a new board or governing body as a result of this FCD that could dictate how we maintain and deliver of our legal water rights. Having said that we understand that the FCD will generate funds intended to offset routine maintenance costs associated with past, current and future stream restoration projects and that we may directly or indirectly benefit from these funds.

Thank you for the opportunity to comment.

Sincerely,

Jeffrey Klausmann
