STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

NOTICE OF DIVERSION AS AN ALTERNATIVE TO INSTREAM STOCKWATER USE
(To provide notice of intent to divert surface water from a stream or riparian area to troughs or tanks as an alternative to instream use for the watering of livestock)

1. Name of right holder ________________________________ Phone _______________
   Mailing address ________________________________ Email _______________

2. Source of water supply _____________________ tributary to _____________________

3. Point of Diversion:
   a) Is this notice based on an existing recorded instream stockwater right? If yes, provide the water right number _______________________________________

   If no, describe the beginning and ending points for the instream stockwater use:
   Beginning point is in Gov’t. Lot _____, 1/4 1/4 1/4 1/4, Section _____, Township _____ Range _____, B.M., ________________ County.
   Ending point is in Gov’t. Lot _____, 1/4 1/4 1/4 1/4, Section _____, Township _____ Range _____, B.M., ________________ County.
   b) Alternate point of diversion is in Gov’t. Lot _____, 1/4 1/4 1/4 1/4, Section _____, Township _____ Range _____, B.M., ________________ County.

4. Description of diversion and delivery system:
   a) Describe the type of diversion __________________________________________

   b) Describe the delivery system __________________________________________

   c) Describe the number, type and total capacity of troughs or tanks ____________

   __________________________________________

   __________________________________________

   __________________________________________

   __________________________________________

   __________________________________________

   __________________________________________

   __________________________________________
d) Describe the automatic shutoff or flow control mechanism or means of returning unused water to the source ________________________________

________________________________________________________________

e) Describe how the system is designed to allow measurement of the rate of diversion ________________________________

________________________________________________________________

5. Describe the place of use by placing an X in the appropriate 40-acre tract(s) below:

6. Priority date claimed or established ______________________________

7. Rate of diversion _______ cfs

8. Season of use: from _________________________ to _________________________

9. a) Who owns the property at the point of diversion? _____________________________

b) Who owns the property at the place of use? _________________________________

10. When will construction occur? __________________________________________

11. Comments (include number and type of stock) ________________________________

______________________________________________________________________

______________________________________________________________________

______________________________________________________________________

12. Map of project required - Attach an 8½”x11” map clearly identifying the location of the instream stockwater use and the locations of the alternative point(s) of diversion and stock trough(s). A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.
I hereby assert the following:

a) Diversion is from a surface water source to which the livestock would otherwise have access. The land where the watering tanks or troughs will be located is land from which the livestock had access to the source of water from which diversion is being made.

b) The diversion of water out of the stream as described in this notice is for watering livestock and will not injure other water rights.

c) I will not alter the bed and banks of the source as the term is defined in section 42-3802, Idaho Code. I understand that I may place an inlet conduit into the source in a manner that does not require excavation or obstruction of the stream channel, unless the director of the department of water resources approves a stream channel alteration permit for additional work.

d) I understand that upon determination of interference with other water rights, the Director may order curtailment of diversion or use of water under this notice or may require the diversion and delivery system to be modified to prevent injury.

e) I will not divert more than 13,000 gallons per day for livestock watering from this diversion, and I will not use more than one point of diversion under this notice.

f) I am authorized to make the changes described in this notice and that if the notice involves a federal grazing allotment, the permittee consents to the changes described in this notice.

g) I understand that any willful misrepresentation on this notice will void any right to divert water for livestock under this notice.

Dated this __________ day of _____________________, 20______
