Re: CM-DC-2011-002 (Jones Delivery Call for Water Right No. 36-07071)

Dear Mr. Spackman,

As a follow up to the Jones' August 19, 2011, letter to the Director requesting certain information, the Jones also requests the following:

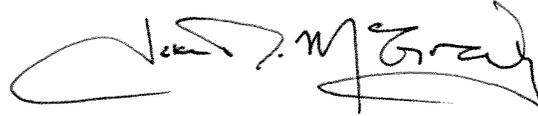

- All data, maps, computer files, and any other related documents or information used to develop Finding of Facts 58 through 62 in the Department's July 29, 2005, Order for the Jones delivery call.
- The Jones also request that the Department create an FTP site in order that the Department may post the requests from and information provided to the Jones', SeaPac's, and IGWA's experts. This is likely a more efficient and reliable method of providing information than having email and CDs moving between attorneys and experts.

We appreciate your attention to this matter, and please do not hesitate to call with any questions.
