Re: CM-DC-2011-004 Rangen Delivery Call for Water Right Nos. 36-2551 & 36-7694

Dear Mr. Spackman:

The following supplemental information is requested from the Department and Department staff on behalf of the Idaho Ground Water Appropriators, Inc. regarding the above-mentioned matter. IGWA is requesting that copies of this information be made available or that the information be made available for inspection at the Department as soon as practical.

- The entire water right back file for parent right number 36-134, plus the splits 36-134A and 36-134B, 36-134D and 36-134E.
- The entire water right back file for water right number 36-102.
- The entire water right back file for parent right number 36-135, plus the splits 36-135A, 36-135B, 36-135D and 36-135E.
- The entire back file for water right parent right number 36-10141, plus the splits 36-10141A and 36-10141B.
- The entire water right back file for right number 36-15501.
- The entire water right back file for right number 36-2551.

- The entire water right back file for right number 36-7694.
- 1995 Report titled “Summary of Ground Water Conditions at the Curren Tunnel near Hagerman” authored by Shane Bendixsen in or around the year 1995.
- Model files for the unconfined version of ESPAM 1.1, as referenced in 2010 Johnson, Contor, and Vankirk presentation titled “Errors Resulting from Assuming Unconfined Aquifers are Constant Thickness”, online at [http://www.idwr.idaho.gov/Browse/WaterInfo/ESPAM/meetings/2010\\_ESHMC/11-22nd%20&%2023rd\\_2010/Confined%20vs%20Unconfined.pdf](http://www.idwr.idaho.gov/Browse/WaterInfo/ESPAM/meetings/2010_ESHMC/11-22nd%20&%2023rd_2010/Confined%20vs%20Unconfined.pdf).
- Key to relate the wells used in ESPAM 2 calibration (identified with “WellID” in the spreadsheet “ESPAMSummary.xlsx”) to the wells in the IDWR All Permitted Wells database (<http://www.idwr.idaho.gov/GeographicInfo/GISdata/wells.htm>), or, if that database is not applicable, a key relating the ESPAM 2 calibration wells to some other descriptor that would allow recovery of such well details as depth, owner, etc.
- Electronic format of the most recent trim lines used by IDWR in generating model results, for example, those used to generate results in ReRunRangenScopingCalculations.xlsx.

We appreciate your prompt attention to this matter and please let us know if you have any questions.

Very Truly Yours,

  
Candice McHugh
