Re: Water call and request for administration

Dear Mr. Spackman,

Please consider this letter to be my formal notice of making a water call and requesting the Idaho Dept. of Water Resources to do whatever is necessary to deliver water to the point(s) of diversion (source known as Spring Creek), for the following water right numbers:

- 36-00124A, 0.04 cfs for domestic use, priority date 04/01/1886
- 36-07315, 3.71 cfs for fish propagation/3 ponds, priority date 03/20/1973

Today, our facility using these water rights is receiving less than 50% of the water entitled by these rights from the spring source. Any water that can be returned to our point(s) of diversion will be put to beneficial use under the terms and conditions of our decrees.

Demand is hereby given that you direct the Water Master to administer water rights required by Idaho Code 8 42-607 in order to supply these prior rights.

Sincerely yours,

Dan Lee

Dadhri Lee
