In the Mitigation Agreement, SWID agrees to undertake "aquifer mitigation actions during the years 2018-2026" including groundwater recharge, conversions, and voluntary curtailment "to meet the groundwater level benchmarks and the groundwater level goal set forth" in paragraph seven of the agreement. SWID also agrees that landowners within SWID will not irrigate with any ground water prior to April 1 or after October 31 within a given irrigation season. In exchange, the Surface Water Coalition "agrees that junior priority ground water rights held by SWID members... shall not be subject to curtailment in response to" the Surface Water Coalition delivery call during the term of the agreement. The Mitigation Agreement "is a perpetual agreement." SWID and the Surface Water Coalition ask that the Director "approve the Mitigation Agreement" and "recognize that [SWID's] members' junior priority ground water rights are not subject to curtailment or any further mitigation requirements in response to" the Surface Water Coalition delivery call "during the term of the Mitigation Agreement.

The Department will process the Motion and Mitigation Agreement pursuant to the Department's Conjunctive Management Rules (IDAPA 37.03.11). A complete copy of the Motion is available for review at either the Department's State Office in Boise, the Department's Regional Office in Twin Falls, or at the following website link:
