Subject: RE: Rangen's Request for Documents from IDWR

Robyn,

This email responds to your request for documents regarding the Tucker Springs Water Rights received on May 6, 2014 and May 8, 2014. The Department has placed the responsive documents on its FTP server at: <ftp://ftp1.idaho.gov>, in a folder titled Tucker Springs 2014 PIR. The public login user name is **idwrngen** and the password is **Rg7d952O** (capital O, not the number 0).

Fritz previously called me asking to set up a conference call with IDWR employees who have participated in discussions involving Tucker Springs. As you and Fritz are aware, the Governor's office invited the parties to the Rangen proceeding and certain members of the Idaho legislature to participate in discussions about solutions to the Rangen delivery call and the broader water supply issues in the Hagerman area. IDWR staff were asked to provide information in support of that effort, including information about Tucker Springs and were asked to facilitate a field trip to the Hagerman area. The IDWR employees that participated in those efforts are Mat Weaver, Tim Luke, and Brian Patton. I will work with Fritz to set up a time so that the parties can talk with these individuals. Please contact me if you have any questions.

Garrick

Subject: Rangen's Request for Documents from IDWR

Dear Garrick,

Attached please find a request for documents from Rangen to IDWR regarding IGWA's Second Mitigation Plan. Thank you for your assistance.

Robyn
