Subject: RE: CORRECTION: Joint Application - John Stickley - Red River

Sarah,

After reviewing the applications it is the IDL's position that the application looks good as long as all policies and procedures outlined within the IDWR Special Supplement Application and Idaho statutes pertaining to dredging are followed.

Ian Bridges

Subject: CORRECTION: Joint Application - John Stickley - Red River
Importance: High

All,

On May 31, 2017, you received an email requesting comments for John Stickley's dredging activity on the South Fork Clearwater River. It recently came to our attention that **the location listed in that email was incorrect. Mr. Stickley's actual location is the Red River. In light of this error, we are resending a request for comments.**

Attached is Mr. Stickley's Joint Application for Permits (IDWR #S82-20067) and supporting documents **proposing suction dredge activity on the Red River.**

Please review the application and supporting documents and **provide any comments by July 26, 2017.** Comments may be emailed directly to me or mailed to my attention at the PO Box below. If I do not hear from you by the deadline, I will assume you have no comments for this application.

For any questions regarding this application, please contact Aaron Golart, IDWR Stream Channel Protection Coordinator, at 208-287-4941 or aaron.golart@idwr.idaho.gov.

*Best Regards,
Sarah Shaul*
