To whom it may concern, in the matter of the Re: Joint Application for Permit No. S82-20066 for Gay Richardson and Permit No. S82-20067 John Stickley. We have one interrogatory at this time. Can anybody in the IDWR or the Water Board tell us if the regulations you have and the ones you adopted from the Forest Service been tested for legality in reference to federal mining law and Forest Service regulations they are suppose to follow?
