Subject: Fw: email for Sylte

To the Department of Water Resources,

My husband Adam and I just found out that the state has reappointed Gordon Sylte as a flood control commissioner. We are disappointed, as his leadership has been ineffective in preventing flooding, which has damaged property on the lake and in other parts of Rathdrum. These pictures of our property and our neighbor's were sent to Gordon Sylte on March 20, 2017 letting him know of the issues. The lake was reading at 11'5" at the dam. The problem in responding to this properly is the dam tender does not have email and Gordon Sylte was out of the country in Mexico and another commissioner Gordon Stephenson was wintering in Arizona. Managing flood control long distance seems to be negligence on the part of the person who is the Chairman. It's time for a change in the management of the flood control district. I was informed that the Director of the Idaho Department of water resources can hold a hearing and can reconsider this poorly advised appointment. My husband and I want to request that hearing option. On another note we are also intervenors in the Sylte Petition and find that to also be a conflict of interest for him to personally litigate against the very entity (FCD17)Gordon Sylte Chairs. Please let us know when this matter will be addressed. We want to make sure the hearing is brought out to Twin Lakes so as many of us as possible can participate.

Sincerely,
Amy & Adam Kremin
