September 8, 2014

Re: Order Granting Petition for Clarification of Final Order Requiring Measuring Devices and Controlling Works for Diversions in Water District No. 63, Boise River and Tributaries

Dear Water User,

The Idaho Department of Water Resources ("Department") has issued the enclosed order clarifying the Department's *Final Order Requiring Measuring Devices and Controlling Works for Diversions in Water District No. 63, Boise River and Tributaries* ("Final Order"), signed by the Department Director on August 15, 2014. The enclosed order was issued in response to the August 29, 2014, *Petition for Reconsideration and/or Petition for Clarification of Final Order* ("Petition") filed with the Department by two water rights owners in Water District No. 63. A copy of the Petition may be found at:

<http://www.idwr.idaho.gov/WaterManagement/WaterDistricts/BoiseRiver/default.htm>.

The Final Order established a schedule for installation of measuring devices and controlling works for several drainage areas above Lucky Peak Dam that were added to Water District No. 63 in 2013 (*Final Order* at 1, 4). For example, prior to the diversion of water for the 2018 irrigation season, acceptable measuring devices shall be installed for all qualifying water right diversions in the Mores Creek drainage (*Id.* at 3-4).

The Petition sought clarification that the Final Order is "limited only to the establishment of a schedule for review and installation of measurement devices, and cannot be used as a means to preclude priority administration of surface water rights in the Mores Creek drainage" (*Petition* at 6). The enclosed order confirms that the Final Order was not intended to preclude priority administration of surface water rights in the Mores Creek drainage or any other drainage included in the Final Order.

Although priority administration of surface water rights in any drainage of Water District No. 63 can occur at any time, such regulation by the water district watermaster may be difficult until measuring devices and controlling works are installed as required by the Final Order. Additionally, priority administration of water rights in any Boise River tributary drainages located either above or below Lucky Peak Dam will likely require watermaster assessments in accordance with water district resolutions adopted at the annual meeting of water district water users. Further, priority administration of water rights in tributary drainages may result in curtailment of those rights which are junior in priority to water rights on the Boise River below Lucky Peak Dam.

Questions concerning the enclosed order may be addressed to the Department's State office (208-287-4800) or Western Regional office (208-334-2190), or Rex Barrie, Water District 63 Watermaster, at 208-908-5480.

Respectfully,

A handwritten signature in black ink, appearing to read "Tim Luke". The signature is fluid and cursive, with the first name "Tim" and last name "Luke" clearly distinguishable.

Tim Luke
Chief, Water Compliance Bureau

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF REQUIRING
MEASURING DEVICES AND
CONTROLLING WORKS FOR
DIVERSIONS IN WATER DISTRICT NO.
63, BOISE RIVER AND TRIBUTARIES

**ORDER GRANTING PETITION FOR
CLARIFICATION; DENYING
PETITION FOR RECONSIDERATION**

BACKGROUND

On October 21, 2013, the Idaho Department of Water Resources (“Department”) issued a *Preliminary Order* (“Preliminary Order”) in the above captioned matter expanding Water District No. 63 to include all surface water rights from the Boise River, its forks and tributary creeks upstream of Lucky Peak Dam, except rights used for in-stream watering of livestock as defined by Idaho Code § 42-113 and rights included in Water District No. 63-S. *Preliminary Order* at 8. The Preliminary Order explained the Department would issue a separate order requiring installation of measuring devices and controlling works for water right diversions within the expansion area of Water District No. 63. *Id.* at 9.

On August 20, 2014, the Director of the Department (“Director”) issued a *Final Order* (“Final Order”)¹ in the above captioned matter setting forth a schedule for installation of measuring devices as follows:

2. Prior to the diversion of water for the 2016 irrigation season, acceptable measuring devices shall be installed for all diversions from the South Fork Boise River and tributaries, except those water rights described in Paragraph 1.a of this Order. Water right holders in the South Fork Boise River drainage shall submit measurement plans to the watermaster for each point of diversion by September 1, 2015.

3. Prior to the diversion of water for the 2017 irrigation season, acceptable measuring devices shall be installed for all diversions from the Middle and North Fork Boise River and tributaries, except those water rights described in Paragraph 1.a of this Order. Water right holders in the Middle and North Fork Boise River drainage shall submit measurement plans to the watermaster for each point of diversion by September 1, 2016.

4. Prior to the diversion of water for the 2018 irrigation season, acceptable measuring devices shall be installed for all diversions from Mores Creek and tributaries (Mores Creek drainage), except those water rights described in Paragraph 1.a

¹ While the Final Order was signed by the Director on August 15, 2014, it was served on August 20, 2014.

of this Order. **Water right holders in the Mores Creek drainages shall submit measurement plans to the watermaster for each point of diversion by September 1, 2017.**

Final Order at 4 (emphasis in original).

On September 2, 2014, Richard Stull and Steven Cummings (“Stull and Cummings”), who own surface water rights within the Mores Creek drainage decreed through the Snake River Basin Adjudication,² filed with the Department a *Petition for Reconsideration and/or Petition for Clarification of Final Order* (“Petition”). The Petition can be found at: <http://www.idwr.idaho.gov/WaterManagement/WaterDistricts/BoiseRiver/default.htm>.

ANALYSIS

Stull and Cummings assert that, while they view the schedule for installation of measuring devices set forth in the Final Order “simply as a means for [the Department] to stage its resources to efficiently evaluate measurement device plans, their concern is the Final Order could be interpreted to delay or somehow preclude them from seeking priority administration in the Mores Creek drainage.” *Petition* at 5. Stull and Cummings “request that the Director reconsider and/or clarify that the schedule set forth in the Final order for installation of measuring devices not affect their ability to seek priority administration of surface water rights in the Mores Creek drainage.” *Id.* at 1.

The Director grants Stull and Cummings’ request for clarification. The Director clarifies that the Final Order was not intended to preclude priority administration of surface water rights in the Mores Creek drainage or any other drainage included in the Final Order.³

ORDER

Based upon and consistent with the foregoing, IT IS HEREBY ORDERED that Stull and Cummings’ petition for clarification is GRANTED. The Final Order was not intended to preclude priority administration of surface water rights in the Mores Creek drainage or any other drainage included in the Final Order. IT IS FURTHER ORDERED that Stull and Cummins’ petition for reconsideration is DENIED because no change to the Final Order is necessary.

Dated this 8th day of September 2014.

GARY SPACKMAN
Director

² Richard Stull is an owner of water right no. 63-317B. Steven Cummings owns water right nos. 63-30310 and 63-15101.

³ The Director notes that priority administration of surface water rights may be more difficult until measuring devices are installed as required by the Final Order and may necessitate acceleration of the time period for assessing water rights in drainages included in the Final Order.

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that on this 8th day of September 2014, the above and foregoing document was served on each individual or entity on the service list for this matter on file at the Idaho Department of Water Resources, 322 East Front Street, Boise, Idaho, and posted on the Department's website: <http://www.idwr.idaho.gov/WaterManagement/WaterDistricts/BoiseRiver/default.htm>. Each individual or entity on the service list was served by placing a copy of the above and foregoing document in the United States mail, postage prepaid and properly addressed.

Kimi White, Paralegal

Idaho Department of Water Resources

EXPLANATORY INFORMATION TO ACCOMPANY AN ORDER DENYING PETITION FOR RECONSIDERATION

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 740.02)

The accompanying order is an **Order Denying Petition for Reconsideration** of the "final order" or "amended final order" issued previously in this proceeding by the Idaho Department of Water Resources ("department") pursuant to section 67-5246, Idaho Code.

REQUEST FOR HEARING

Unless the right to a hearing before the director or the water resource board is otherwise provided by statute, any person who is aggrieved by the action of the director, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the director to contest the action. The person shall file with the director, within fifteen (15) days after receipt of written notice of the action issued by the director, or receipt of actual notice, a written petition stating the grounds for contesting the action by the director and requesting a hearing. See section 42-1701A(3), Idaho Code. **Note: The request must be received by the Department within this fifteen (15) day period.**

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, any party aggrieved by a final order or orders previously issued in a matter before the department may appeal the final order and all previously issued orders in the matter to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of: a) the service date of the final order, b) the service date of an order denying petition for reconsideration, or c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration, whichever is later. See section 67-5273, Idaho Code. The filing of an appeal to district court does not in itself stay the effectiveness or enforcement of the order under appeal.
