

March 12,2004

Water District 130
1341 Fillmore St STE 200
Twin Falls, Id. 83301-3380

To Whom It May Concern:

This letter is in protest of my water rights being shut down on April 1, 2004. I have a one-acre water right to pump water for an extended lawn, which is less, then one acre total. I understand that I'm able to irrigate up to one half acre and no more.

We also have water rights from the Minidoka Irrigation District for 20 acres, these acres are flood irrigated which is putting more water back into the aquifer then I am using for my one acre of lawn.
