

**A. Summary of Individual Replacement Water Plan**

Long View diverts approximately 285 acre-feet (“af”) of ground water each year under the water right number 36-16185 (the “Curtailed Water Right”). Long View is entitled to divert approximately 311 af of surface water each year from the North Side Canal Company (the “Mitigating Water Right”). As mitigation for continued use of the Curtailed Water Right in 2007, Long View will voluntarily curtail its use of the Mitigating Water Right for the remainder of 2007.

**B. Curtailed Water Right**

This Plan is only for water right number 36-16185. Water right number 36-16185 entitles Long View to 2.03 cfs of ground water for irrigation of 131 acres. As shown in the North Snake Ground Water District 2006 Water Measurement Annual Report, attached hereto as Exhibit A, Long View pumped 284.96 af of ground water under this water right in 2006. The place of use for this water right is shown on Exhibit B attached hereto.

**C. Mitigating Water Right**

The Mitigating Water Right is owned by North Side Canal Company (“North Side”). Long View owns 69 shares in North Side and uses the water to irrigate 70 acres of pasture on which Long View grazes livestock. Each North Side share entitles Long View to 4.5 af of surface water each year. Accordingly, Long View’s 69 shares entitle it to 310.5 af of surface water from North Side each year.

Long View uses the Mitigating Water Right every year, including this year. The Mitigating Water Right is the only water right used to irrigate the appurtenant 70 acres of pasture. Long View’s voluntary curtailment of the Mitigating Water Right will cause Long View to idle this pasture and find alternative means to feed its livestock. The irrigated acres

idled by Long View by voluntarily curtailing use of the Mitigating Water Right are shown on the map attached hereto as Exhibit B.

The Mitigating Water Right's place of use is located approximately 1 mile away from the location of the Curtailed Water Right. See Exhibit B.

To the best of Long View's knowledge and belief, the Mitigating Water Right is deliverable in priority and is not proposed to be curtailed by IDWR curtailment orders; and

To the best of Long View's knowledge and belief, the Mitigating Water Right is not part of any other current, ongoing mitigation plan, enrolled in CREP, or enrolled in the State Water Supply Bank.

DATED this 29th day of June 2007.

Respectfully submitted,

GIVENS PURSLEY LLP
