RE: Water Rights Report for Late Claims
Coeur D'Alene-Spokane River Basin Adjudication (CSRBA)

Water Right Claimant(s):

Please find enclosed, the Idaho Department of Water Resources ("IDWR") recommendations for Late Claims filed after the initial director's report in the CSRBA. This report includes recommendations for late claims within the CSRBA. We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended water right claims in your area.

You have 60 days in which to review the recommendations for your water rights or those of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at IDWR's website: <https://idwr.idaho.gov/>, at any IDWR office (see addresses in the same enclosure), or at the county courthouses listed in the enclosed Notice of Director's Report. The Notice provides deadlines for objections or responses and the procedures for filing those documents.

If the CSRBA Court does not receive an objection from you or another party to our recommendation, your water right will likely be decreed as recommended within one year. The CSRBA court will issue and send the decree to you. As required by law, please notify IDWR of any changes to the ownership or contact information associated with this recommendation to ensure timely receipt of the decree.

Completion of the CSRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process. Questions may be directed to the adjudication staff at 1-800-451-4129.

Respectfully,

A handwritten signature in blue ink, appearing to be 'M. Weaver', is written over a horizontal line.

Mathew Weaver
Director
