

Checklist of Items Recommended for Each Deferred *De Minimis* Stockwater Use Claim in the Snake River Basin Adjudication (SRBA) if Claiming Water Right on Federal Land

- ___ A completed [Motion for Determination of Deferred *De Minimis* Domestic or Stock Water Use](#).
- ___ A completed [Notice of Claim to a Water Right](#) form (get the claim number from the Idaho Department of Water Resources (IDWR)).
- ___ Identify and submit the current base property information. The base property is the land that you own and identified on your application for a grazing permit.
- ___ Evidence of the date of the first grazing permit issued on the federal grazing allotment, pursuant to federal grazing authorizations, including but not limited to the Taylor Grazing Act (June 28, 1934). In most cases, evidence will be a copy of the first, or earliest grazing permit issued on the federal grazing allotment.
 - If the stockwater use on federal land predates the Taylor Grazing Act (June 28, 1934)¹, you must submit evidence of grazing on federal land in support of the claimed priority date.
 - If the stockwater use on federal land first occurred after the Taylor Grazing Act, you must submit evidence of authority to graze stock on federal land—either a copy of the original grazing permit issued on the federal grazing allotment, or, if a copy of the original grazing permit cannot be located, the earliest grazing permit available.
- ___ A copy of the current grazing permit associated with the base property for the place of use claimed.
- ___ A map of the grazing allotment.
- ___ List any other water rights used for the same purposes that might overlap your claimed rights.

Note: One check (maximum \$100.00) made out to IDWR for all of the *de minimis* stockwater-only claims filed by a claimant must be sent with a motion and notice of claim to the SRBA Court. See Idaho Code § 42-1414.

¹ In most cases, the federal grazing authorization will be associated with the Taylor Grazing Act (June 28, 1934).
