Number of Employees in Southern Region

IDWR Southern Region

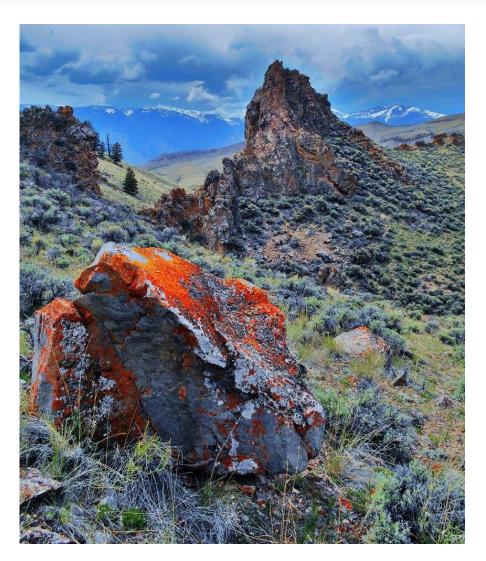

Southern portion of Region is subject to Moratoriums, CGWAs, GWMAs, etc.

With the southern, more populated, portion of the region subjected to water development restrictions, Southern Region typically processes three times more water right transfer applications than new water right filings.

 Often new water right filings are quite complex (mitigation plans, numerous complicated conditions, etc.)

Bradshaw Gulch, Custer County

Memorandum

To: Idaho Water Resource Board

From: Kala Golden

Date: September 12, 2022

Re: Aging Infrastructure Projects- New Loan Requests

REQUESTED ACTIONS: Approve loan requests for Aging Infrastructure Projects

Background |

On June 7, 2022, The Idaho Water Resource Board (Board) approved criteria for a new Aging Infrastructure Grant (AIG) program. The first application period for the AIG program closed on August 5, 2022, with a number of applicants also requesting a Water Project Loan (WPL) from the Board to support project costs. A brief presentation of each loan request will be given by staff at the Board's upcoming meeting on September 15, 2022. The following table provides an overview of Aging Infrastructure project funding requests; a summary of each WPL request is attached.

Analisant	Dunin st	Total Project AIG Fun		AIG Funds	WPL Funds	
Applicant	Project	Costs	Requested	Recommended	Requested	
Falls Irrigation District	Pump station rehabilitation	\$9,095,000.00	\$3,031,600.00	\$200,588.00	\$9,095,000.00	
Enterprize Canal Company	Rehabilitation of conveyance systems	\$8,291,597.00	\$2,736,227.00	\$2,736,227.00	\$6,325,083.00	
Barber Pool Hydro (Ada County)	Barber Dam bypass rehabilitation project	\$1,651,000.00	\$550,330.00	\$0.00	\$851,000.00	
Bannock Feeder Canal	Bannock Feeder diversion replacement	\$885,110.00	\$250,000.00	\$250,000.00	\$585,000.00	
Southeast Idaho Canal Company (FMID)	Headgate modernization and automation	\$232,874.00	\$58,200.00	\$58,200.00	\$58,073.25	
Cloverdale Ridge Water Corporation	Repair/replacement of delivery system components	\$35,335.00	\$11,661.00	\$0.00	\$36,000.00	
Chester Canal & Irrigation Company	Replacement of headgate structure	\$129,238.00	\$29,725.00	\$29,725.00	\$34,894.26	
Boise Warms Springs Water District	Repair and replacement of geothermal system	\$3,097,000.00	\$1,032,000.00	\$0.00	\$2,810,000.00	
King Hill Irrigation District	Replacement of canal system infrastructure	\$6,154,187.00	\$1,980,259.00	\$1,980,259.00	\$1,500,000.00	
Boise Project Board of Control	Lining of New York Canal (Phase 10)	\$7,330,000.00	\$2,418,900.00	\$2,418,900.00	\$0.00	
Big Lost River Irrigation District	Mackay Dam Repairs	\$9,082,856.00	\$2,000,000.00	\$2,000,000.00	\$0.00	
Nampa-Meridian Irrigation District	Ridenbaugh Canal modernization/automation	\$9,637,000.00	\$3,180,000.00	\$1,820,048.00	\$0.00	
North Side Pumping Company #2	Pump plant elimination & canal abandonment	\$4,138,388.00	\$951,800.00	\$951,800.00	\$0.00	
Water District 63	Automation of flow monitoring	\$133,883.00	\$30,793.00	\$30,793.00	\$0.00	
Dalton Gardens Irrigation District	System improvement study	\$69,000.00	\$23,460.00	\$23,460.00	\$0.00

BEFORE THE IDAHO WATER RESOURCE BOARD

IN THE MATTER OF THE FALLS IRRIGATION RESOLUTION TO AUTHORIZE LOAN FUNDING FOR REPLACEMENT OF CANAL SYSTEM DISTRICT LOAN REQUEST **INFRASTRUCTURE** WHEREAS, Falls Irrigation District (District) submitted a loan application to the Idaho Water Resource Board (IWRB) in the amount of \$9,095,000 to cover costs for the installation of new pipelines and replacement of canal system infrastructure (Project); and WHEREAS, the District delivers water for approximately 12,621 acres of irrigated lands in Power County, Idaho; and WHEREAS, the Districts system is currently operating on pumps that have passed their service life and are in need of replacement; and WHEREAS, the District requested Aging Infrastructure Grant (AIG) funds from the IWRB in the amount of \$3,061,300, and was ultimately awarded \$200,588; and WHEREAS, the District would like to utilize the AIG grant award towards its project, and reduce the total loan amount requested to \$8,894,500 WHEREAS, the District is a qualified applicant, and the proposed Project is eligible for a loan from the IWRB's Revolving Development Account; and WHEREAS, the proposed Project is in the public interest and is in compliance with the State Water Plan. NOW THEREFORE BE IT RESOLVED that the IWRB approves a loan not to exceed \$8,894,500 from the Revolving Development Account at 3.33% interest with a 20-year repayment term. NOW THEREFORE BE IT FURTHER RESOLVED that the IWRB authorizes its chairman or designee to enter into contracts with the District, to effectuate the loan. NOW THEREFORE BE IT FURTHER RESOLVED that this resolution and the approval of the loan are subject to the following condition:

Prior to the disbursement of any funds, the District shall provide the IWRB with acceptable

documentation demonstrating compliance with all applicable statutory requirements for the

incurrence of debt.

IN THE MATTER OF THE ENTERPRIZE CANAL COMPANY LOAN REQUEST

Resolution No. _____

RESOLUTION TO AUTHORIZE LOAN FUNDING FOR COSTS RELATED TO REHABILITATION OF CONVEYANCE SYSTEMS

Page 1

1	WHEREAS, Enterprise Canal Company (Company) submitted a loan application to the Idaho
2	Water Resource Board (IWRB) in the amount of \$6,325,083 to cover costs for a project to improve aged
3	infrastructure and construct an independent canal system (Project); and
5	WHEREAS, the Company was established in 1910 and delivers water for approximately 5,436
6 7	acres of irrigated lands in both Jefferson and Bonneville County, Idaho; and
8	WHEREAS, the Company's delivery system was washed out in the 1930's, forcing the Company
9	to rely on a neighboring canal company to deliver water; and
10	
11 12	WHEREAS, to Company's agreement for wheeling water is set to expire in 2024; and
13	WHEREAS, the total estimated cost for the Project is approximately \$8,291,600; and
14 15	WHEREAS, the Company requested and has been awarded Aging Infrastructure Grant (AIG)
16	funds from the IWRB in the amount of \$2,736,227; and
17	
18	WHEREAS, the Company would like to utilize the AIG grant award towards its project, and
19	reduce the total loan amount requested to \$3,588,856; and
20	
21 22	WHEREAS, the Company is a qualified applicant, and the proposed Project is eligible for a loan from the IWRB's Revolving Development Account; and
23	
24	WHEREAS, the proposed Project is in the public interest and is in compliance with the State
25	Water Plan.
26	
27	NOW THEREFORE BE IT RESOLVED that the IWRB approves a loan not to exceed \$3,588,856
28	from the Revolving Development Account at 3.33% interest with a 20-year repayment term.
29	
30	NOW THEREFORE BE IT FURTHER RESOLVED that the IWRB provides authority to the Chairman
31 32	of the IWRB, or his designee, to enter into contracts, to effectuate the loan, on behalf of the IWRB.
33	NOW THEREFORE BE IT FURTHER RESOLVED that this resolution and the approval of the loan are
34	subject to the following conditions:
35	
36 37	 The Company shall comply with all applicable rules and regulations that apply to the proposed Project.

RESOLUTION TO AUTHORIZE LOAN FUNDING FOR COSTS RELATED TO HEADGATE MODERNIZATION PROJECT

1	WH	IEREAS, Southeast Idaho Canal Company (Company) submitted a loan application to the
2	Idaho Wate	er Resource Board (IWRB) in the amount of \$58,074 to cover costs for a project to modernize
3	headgates a	and install automation equipment (Project); and
4		
5	WH	IEREAS, the Company is member to Fremont-Madison Irrigation District located in County,
6		is requesting loan funds for its portion of the total project costs; and
7		
8	WH	IEREAS, the total estimated cost for the Project is approximately \$232,874; and
9		
10	WH	IEREAS, FMID requested and has been awarded Aging Infrastructure Grant (AIG) funds from
11	the IWRB ir	the amount of \$58,200 to provide funding towards costs for the Project; and
12		
13	WH	IEREAS, the Company is a qualified applicant, and the proposed Project is eligible for a loan
14	from the IW	VRB's Revolving Development Account; and
15		
16	WH	IEREAS, the proposed Project is in the public interest and is in compliance with the State
17	Water Plan	
18		
19	NO	W THEREFORE BE IT RESOLVED that the IWRB approves a loan not to exceed \$58,074 from
20	the Revolvi	ng Development Account at 3.33% interest with a 20-year repayment term.
21		
22	NO	W THEREFORE BE IT FURTHER RESOLVED that the IWRB provides authority to the Chairman
23	of the IWR	3, or his designee, to enter into contracts, to effectuate the loan, on behalf of the IWRB.
24		
25	NO	W THEREFORE BE IT FURTHER RESOLVED that this resolution and the approval of the loan are
26	subject to t	he following conditions:
27		
28	1)	The Company shall comply with all applicable rules and regulations that apply to the
29		proposed Project.
30	2)	Prior to the disbursement of any funds, the Company will provide acceptable security for the
31		loan to the IWRB, including but not limited to its water rights, shareholder assessment
32		income, and the Project infrastructure.
33	3)	The Company shall maintain a reserve fund equal to one annual loan payment until the loan
34	•	has been satisfied.

DATED this 16 th day of September 2022.

BEFORE THE IDAHO WATER RESOURCE BOARD

IN THE MATTER OF THE CLOVERDALE RIDGE WATER CORPORATION LOAN REQUEST

RESOLUTION TO AUTHORIZE INCREASE OF LOAN FUNDING

1	WHEREAS, Cloverdale Ridge Water Corporation (Corporation) submitted a loan application to
2	the Idaho Water Resource Board (IWRB) in the amount of \$56,615.00 to cover costs for a project to
3	reconfigure its irrigation water supply system (Project); and
4	
5	WHEREAS, the Corporation delivers water for approximately 320 acres of irrigated lands in Ada
6	County near Kuna, Idaho; and
7	
8	WHEREAS, the Corporation's delivery system was originally constructed in the 1970's, and
9	involves pumping ground water from a well into a holding pond for storage and then into convenience
10	lines for irrigation; and
11	
12	WHEREAS, to improve the efficiency of the system and reduce operational costs, the
13	Corporation will eliminate the diversion of water from a storage pond and pump directly from its well
14	into a fully pressurized system, making the necessary upgrades to its pipelines to accommodate the new
15	system; and
16	
17	WHEREAS, the total estimated cost for the Project were originally estimated to be
18	approximately \$57,615; and
19	
20	WHEREAS the Corporation will provide project funding in the amount of \$1000 and has been
21	approved for a \$13,000 energy savings incentive from Idaho Power Company: and
22	
23	WHEREAS improvements to the new system design were determined necessary, increasing the
24	total project costs to approximately \$92,615; and
25	
26	WHEREAS the Corporation is requesting an increase of \$36,000 to its existing loan with the
27	IWRB, for a new total loan amount of \$92,615.
28	
29	NOW THEREFORE BE IT RESOLVED that the IWRB approves a loan not to exceed \$92,615 from
30	the Revolving Development Account at 2.8% interest with a 15-year repayment term.
31	
32	NOW THEREFORE BE IT FURTHER RESOLVED that the IWRB provides authority to the Chairman
33	of the IWRB, or his designee, to enter into contracts, to effectuate the loan, on behalf of the IWRB.
34	
35	NOW THEREFORE BE IT FURTHER RESOLVED that this resolution and the approval of the loan are
36	subject to the following conditions:

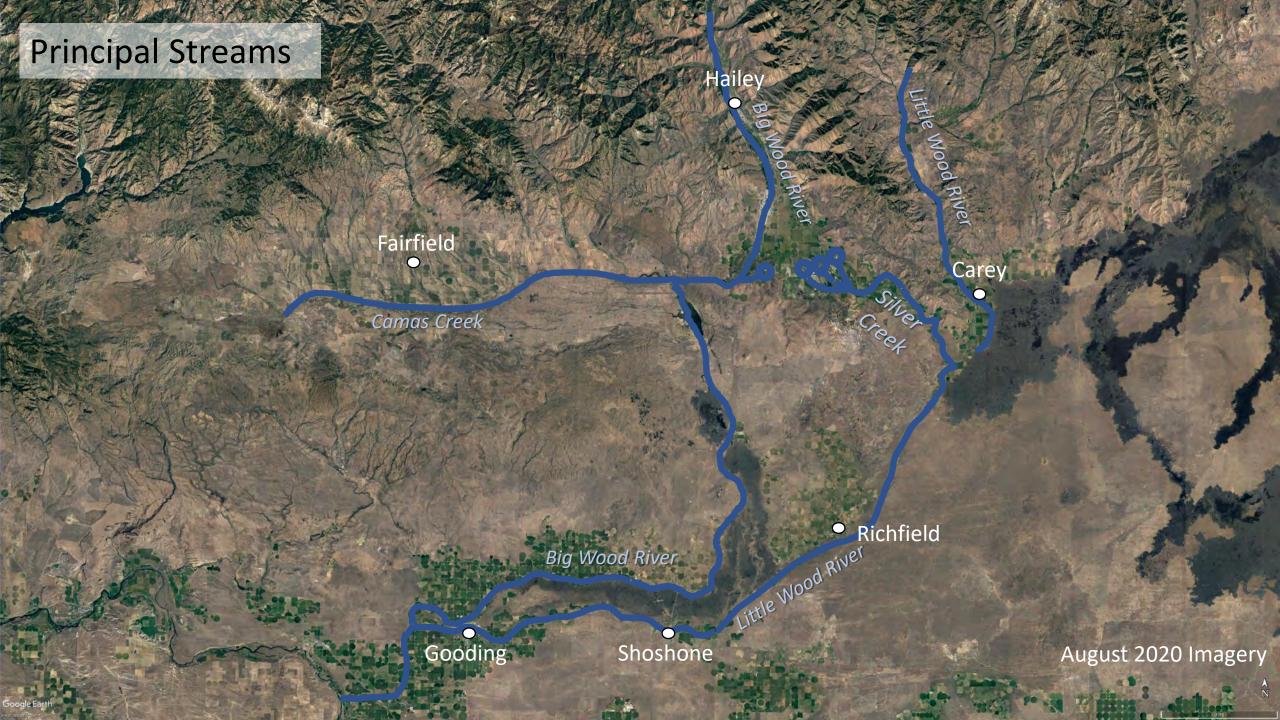

37

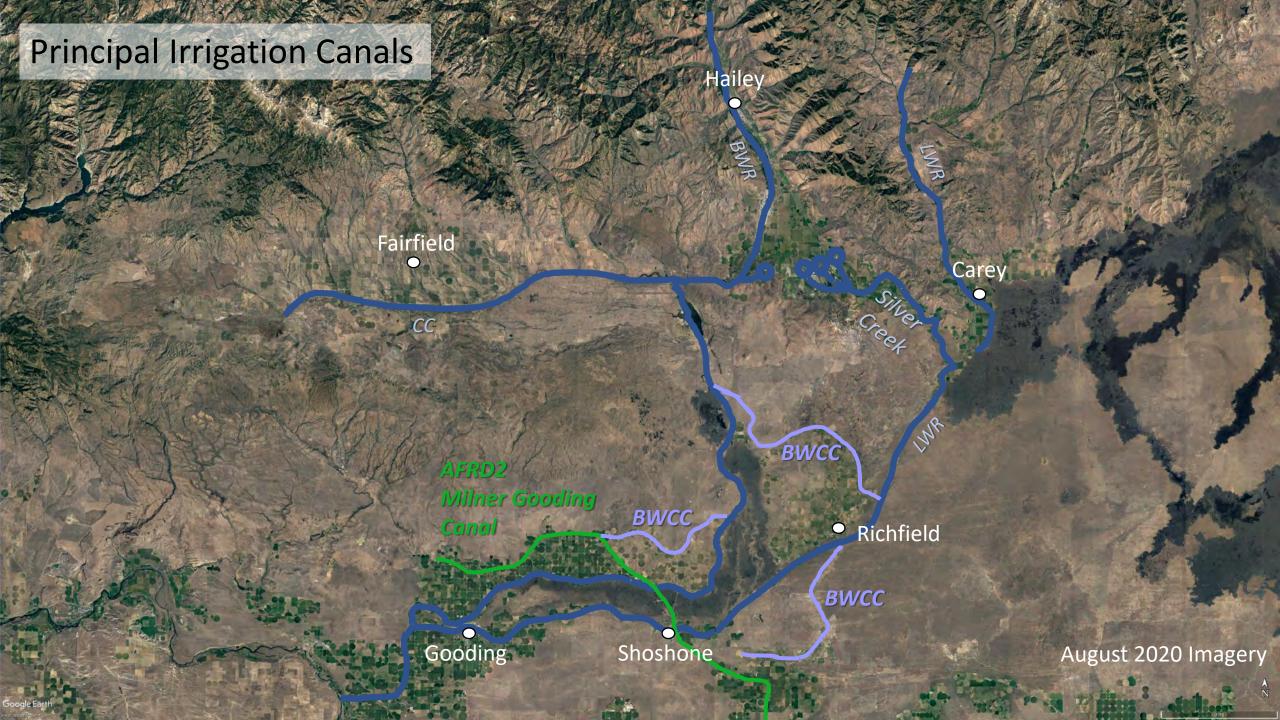

39		proposed Project.		
10	2)	Prior to the disbursement of any funds, the Corporation will provide acceptable security for		
11		the loan to the IWRB, including but not limit	ed to its water rights, shareholder assessment	
12		income, and the Project infrastructure.	<u>-</u>	
13	3)

BWRGWMA MANAGEMENT PLAN - OVERVIEW

Idaho Water Resource Board Meeting Hailey, Idaho September 15, 2022

Tim Luke, IDWR

Management Plan Goal

Manage the effects of ground water withdrawals on the aquifer from which withdrawals are made and on any other hydraulically connected sources of water.

Idaho Code § 42-233b

Plan includes management actions to achieve this goal

Draft Management Plan Structure

Three-year term, starting 2022

- 1. Baseline Mitigation Actions* (annual activities)
- 2. Additional Mitigation Actions (Dry Years)
- 3. Adaptive Management Measures
- 4. Other Actions*
- 5. Safe Harbor
- * IWRB Support/Involvement

DAHO Department of Water Resources

1. Baseline Actions (annual activities)

- A. Fallow Irrigated Acres (GWDs)
 - SVGWD: 1,500 acres/yr.; GGWD: 200 acres yr. 1/500 acres yr. 3
- B. Irrigation Season Limits
 - May 1 Sept 15; some exceptions
- C. Conservation, Infrastructure & Efficiency Fund (CIEF)
 - Contributions from Cities, non-irrigators & WD37B GWA
 - Matching State Funds (through IWRB)
- D. Snake River Storage Delivery
 - To BWLWWUA senior users on Little Wood & Big Wood Rivers
- E. Stream Flow Target
 - 32 cfs on Little Wood River near Richfield (Station 10)
- F. Cloud Seeding
 - Cities/SVC/SVWSD contribute \$3.60/AF of avg. withdrawals

1. Baseline Actions Details

Conservation, Infrastructure & Efficiency Fund (CIEF)

Source of Funds:

- Approx. \$100K/yr. from Cities & non-irrigators
 - Based on \$10/AF of average withdrawals
- \$10,000/yr. from WD37B GWA (Camas groundwater users)
- State match 1:1, or approx. \$100K/yr. through IWRB

(Fund Total: approx. \$200K)

1. Baseline Actions Details

Snake River Storage

Little Wood River

- 1,500 AF/yr. delivery (1,755 AF/yr. total w/17% conveyance loss)
 - Acquired and paid by Galena GWD
 - Delivered to L. Wood River senior right holders from BWLWWUA

Big Wood River:

- 913 AF/yr. delivery (1,100 AF/yr. total w/17% conveyance loss)
 - Acquired by GGWD, paid by CIEF
 - Delivered to B. Wood River senior right holders from BWLWWUA

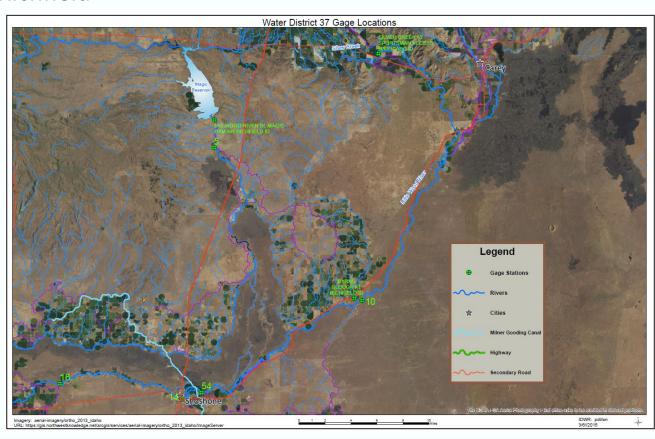

1. Baseline Actions Details

<u>Stream Flow Target – Little Wood River</u>

32 cfs at Station 10 near Richfield

- May 1 Sept. 30
- Four-day moving average

2. Dry Year Mitigation Actions

Dry Year determination based on April-September forecast flow volume for Big Wood River at Hailey (use NRCS and NWRFC April 1 & June 1 forecasts)

	Avg. of	Recommended	Mandatory
	Apr-Sep	Additional GWCU	Additional Storage
	Volume	Reduction (AF)	Water Delivery (AF)
Irrigation Season	Forecasts	Based on April 1	Based on June 1
Water Supply	(KAF)	Forecast	Forecast
Adequate	> 210	-	-
Dry	155 – 210	1,275	650
Very Dry	100 – 155	11,260	1,300
Extremely Dry	< 100	17,016	1,300

4. Other Actions

Parties Agree to:

- ✓ Petition IWRB to contribute matching funds to CIEF (complete)
- ✓ Petition IWRB to support funding for Camas Prairie aquifer study (complete)
- ✓ Petition IDWR to issue updated BWRGWMA moratorium order
 - Issued May 17, 2022
- ✓ Support IDWR to initiate computerized water right accounting program.
- ✓ Support IDWR to update WRV Groundwater Model by 12/2024.
 - IDWR initiated TAC meeting March 2022

5. Safe Harbor

- <u>Safe harbor from curtailment to groundwater users who are parties/participants in Management Plan and who implement respective obligations</u>
- Water right holders participating in the approved Management Plan shall not be subject to administration on a time priority basis so long as they are in compliance with the groundwater management plan. *Idaho Code § 42-233b.*

AGENDA

IDAHO WATER RESOURCE BOARD

AMENDED

Board Meeting No. 10-22 Friday, September 16, 2022 Executive Session 8:00 a.m. (MT) Open Session 9:00 a.m. (MT)

Community Campus
Minnie Moore Meeting Room
1050 Fox Acres Rd
Hailey, ID

Board Members & the Public may participate via Zoom

Click here to join our Zoom Meeting
Dial in Option: 1(253) 215-8782

Meeting ID: 872 8664 5911 Passcode: 073451

- 1. Roll Call
- 2. Executive Session: Board will meet pursuant to Idaho Code § 74-206(1) subsection (f) to communicate with legal counsel regarding legal ramifications of and legal options for pending litigation or controversies not yet being litigated but imminently likely to be litigated <u>Topics: Lemhi River Basin Settlement and Priest Lake Outlet Dam.</u> Closed to the public; no actions taken during executive.
- 3. Priest Lake Outlet Dam*
- 4. Public Comment
- 5. Lemhi River Basin Settlement*
- 6. Financial Report
- 7. Anderson Ranch Dam Raise Project*
- 8. MHAFB Water Resilience Project*
- 9. ESPA Recharge Infrastructure Funding*
- 10. Aging Infrastructure Grant Funding Award*
- 11. Aging Infrastructure Loan Applications*
- 12. Director's Report
- 13. Non-Action Items for Discussion
- 14. Next Meeting & Adjourn

Americans with Disabilities: If you require special accommodations to attend, participate in, or understand the meeting, please make advance arrangements by contacting Department staff by email megan.jenkins@idwr.idaho.gov or by phone at (208) 287-4800.

^{*} Action Item: A vote regarding this item may be made this meeting. Identifying an item as an action item on the agenda does not require a vote to be taken on the item.

BEFORE THE IDAHO WATER RESOURCE BOARD

IN THE MATTER OF PRIEST LAKE CONSTRUCTION LITIGATION

RESOLUTION TO APPROVE CONTRACT FOR OUTSIDE COUNSEL

1 2 3	WHEREAS, on August 20, 2020, the Idaho Water Resource Board (IWRB) and Strider Construction Co., Inc. (Strider) entered a construction contract for improvements to the Priest Lake Outlet Dam; and
5	WHEREAS, on July 27, 2022, Strider terminated the contract; and
6 7	WHEREAS, on July 29, 2022, Strider filed a lawsuit against the IWRB related to the contract; and
8 9	WHEREAS, the IWRB has filed a counterclaim against Strider; and
10 11 12 13 14	WHEREAS, the Office of the Attorney General (OAG) has determined that it is necessary and appropriate to retain a private law firm to assist the OAG in the representation of the IWRB's interest in the defense of litigation with Strider; and
15 16	WHEREAS, the OAG has selected Stephen B. Andersen of the firm Kirton McConkie (Counsel) to assist in legal representation of the IWRB in the Strider litigation; and
17 18 19 20	WHEREAS, to facilitate Counsel's representation of the IWRB, the OAG has prepared a contract between the OAG, IWRB, and Counsel; and
21	WHEREAS, the Contract requires the IWRB to pay Counsel directly; and
22 23 24	NOW THEREFORE BE IT RESOLVED, that the IWRB approves of contracting with Counsel to represent the IWRB in the Strider litigation.
25 26 27	NOW THEREFORE BE IT FURTHER RESOLVED that that the IWRB authorizes the Chairman, or his designee, to execute the contract prepared by the OAG facilitating Counsel's representation.
	DATED this 16th day of September 2022.

Re: Lemhi Basin Comprehensive Settlement Implementation

REQUIRED ACTION: No action required

The attached Lemhi Basin Comprehensive Settlement Progress Report summaries the status of the various actions required under the Agreement.

Clive Strong will provide an update on activities associated with the implementation of the Settlement at the September 16, 2022 IWRB meeting.

ATTACHMENT(S)

Lemhi Basin Comprehensive Settlement Implementation Progress Report, September 12, 2022.

Idaho Water Resource Board Lemhi Basin Comprehensive Settlement Implementation Progress Report September 12, 2022

Settlement Actions	Major Milestones Completed	Recent Progress & Upcoming Work	Action Schedule
Resolve State and Private Protests to Pending Applications 74-16185, 74-16186, 74-16187, 74-16188, 74-16189, 74-16190, 74-16191, 74-16192, 7416193, 74-16194, 74-16204, 74-16205 (Settlement Agreement Sections II and XI.2)	 Application 74-16195 withdrawn. IDWR mailed draft permits to applicants and protestants on July 20, 2022. Settlement Conference held on August 11, 2022, in Leadore, Idaho. IDFG, LID, LSWD, and private protests to 74-16186, 74-16188, 74-16189, 74-16190, 74-16191, 74-16192, 74-16193, 74-16194, 74-16196, 74-16204, 74-16205 were resolved at Settlement Conference. 	 IWRB participated in Aug 11 settlement conference. IWRB will consider motion to withdraw its protests to applications at Sept 16 IWRB meeting. State and Bird to submit Stipulation and Joint Motion to Dismiss and Remand for Issuance of Permit 74-16187. Big Eightmile Creek priority distribution stipulation signed and submitted to IDWR. Work with applicants on priority distribution stipulation for Big Timber and Little Timber. 	 Issuance of permits for applications 74-16186, 74-16188, 74-16189, 74-16190, 74-16191, 74-16192, 74-16196, 74-16204, 74-16205 anticipated in Fall 2022. Priority date agreement to be completed prior to issuance of permits for Big Timber and Little Timber.
Lemhi Basin Stream Flow Maintenance Water Right Applications (Settlement Agreement Sections II. and III.)		 Notice requirements to be implemented by IDWR: Notice of opportunity to file applications was noticed in the Salmon Herald Recorder on July 28, Aug 18, and Sept 8, 2022. Notification letters mailed to irrigation water right holders on Aug 23, 2022. Notice of opportunity to file applications posted in the Lemhi County Courthouse on Aug 12, 2022. Notice of opportunity to file applications will be provided to the Lemhi County Treasurer in Oct 2023. Treasurer to send notice with tax statements in Dec 2023 mailing. 	 IDWR holding Application Filing Workshops in Salmon on Sept 14 & 15, 2022, and in Leadore on Sept 15, 2022, to assist users in filing applications. Application filing deadline is July 1, 2024.

Settlement Actions	Major Milestones Completed	Recent Progress & Upcoming Work	Action Schedule
McFarland Campground Minimum Stream Flow Application 74-16265	 Application filed on July 1, 2022. 	 Hearing scheduled for Sept 20, 2022. Notice of hearing published on Aug 18, 2022. Protocol for exercise of water right 74-16265 is being developed. 	 Action on application will be completed by December 31, 2022. Permit if granted will be submitted for review by 2023 Legislature. IWRB to adopt a protocol for exercise of water right 74-16265 prior to 2013 irrigation season.
Minimum Stream Flow Applications 84-16261 (Bohannan Creek), 74-16262 (Big Timber Creek), 74- 16263 (Hayden Creek) and 74-16264 (Canyon Creek) (Settlement Agreement Section IV.)	• Applications filed on July 1, 2022.	 Hearing scheduled for Sept 20, 2022. Notice of hearing published on Aug 18, 2022. 	 Action on application will be completed by December 31, 2022. Permit if granted will be submitted for review by 2023 Legislature.
Lemhi Basin Water Supply Program (Settlement Agreement Section V.)	 RECHARGE FEASIBILITY STUDY: Preliminary site/field investigation to be scheduled in Oct 2022. IDWR staff will schedule field visits with local stakeholders to locate potential site to help scope the feasibility study. CLOUD SEEDING FEASIBILITY STUDY: IDWR will hold a meeting with Lemhi Settlement Working Group on Cloud Seeding basics and the Lemhi Basin Feasibility Investigation. Tentatively scheduled for October 13 or 14, 2022 (based on availability of NCAR representatives). WATER STORAGE FEASIBILITY STUDY: Preliminary site/field investigation to be scheduled in Oct 2022. IDWR staff will schedule field visits with local stakeholders to locate potential sites to help scope a feasibility study. 		Program options will be considered based on feasibility study results.
Miscellaneous Provisions (Settlement Agreement Section VI.)	IWRB has implemented enhanced process for notice of water transactions.	 No further action required to implement Settlement Agreement Section V1. 	No further action required to implement Settlement Agreement Section V1.

Settlement Actions	Major Milestones Completed	Recent Progress & Upcoming Work	Action Schedule
Lemhi Settlement Agreement Steering Committee (Settlement Agreement Section VII.) The Steering Committee will oversee implementation of the Agreement and shall consist of two reps of the Lemhi Irr Dist, two reps of the Upper Lemhi Basin Water Users, one rep of IDFG, one rep of OSC, and one rep of the IWRB. The Basin 74 water master or an IDWR employee shall serve as an ex officio member. Water User reps shall be parties to the Agreement.		 Fall 2022 – Representatives from IDFG, OSC, and IWRB will be identified. Fall 2022 – Schedule a Settlement Working Group meeting to provide updates on the implementation of the Agreement and to discuss procedures for the Steering Committee. Procedures should reflect roles and responsibilities and address the Agreement's policy objectives. 	Steering Committee will be formed prior to the 2023 irrigation season.
Administration (Settlement Agreement Section VIII.)		 IDWR to facilitate meeting with the watermaster for the local water districts before the 2023 irrigation season to familiarize them with the terms of the Settlement Agreement. Computerized Accounting will be implemented as needed. Watermaster instructions will be issued as needed upon implementation of the settlement. 	

Memorandum

To: Idaho Water Resource Board

From: Neeley Miller, Planning & Projects Bureau

Date: September 12, 2022

Re: Financial Status Report

As of **August 31, 2022**, the IWRB's available and committed balances are as follows:

Secondary Aquifer Fund:

Committed/earmarked but not disbursed	\$23,386,711
Uncommitted Balance	\$8,524,836

Revolving Development Account:

Committed/earmarked but not disbursed	\$19,821,833
Loan principal outstanding	\$17,508,607
Uncommitted Balance	\$15,984,952
Anticipated loanable funds available next 1 year	\$19,484,952

Water Management Account

Obligated	\$71,298,511
Unobligated Balance	\$76,144,937

Total committed/earmarked but not disbursed	\$189,675,241
Total loan principal outstanding	\$17,508,607
Total uncommitted balance	\$25,486,539

ARPA

Committed per HB 769	\$100,000,000
Unobligated	\$100,000,000

- The obligated balance in the Water Management Account includes the \$20M legislative appropriation per HB 285 (FY 2019) for the Anderson Reservoir Enlargement and/or Mountain Home Air Force Base Water Supply Project. The obligated balance also includes \$50M for large infrastructure projects per Senate Bill 1121 (FY 2021) for the Anderson Ranch enlargement, Mountain Air Force Base Water Supply Project, ESPA Managed Aquifer Recharge Program, other projects identified by the IWRB.
- The Water Management Account unobligated balance includes \$75M per HB 769 (FY 2022) to be used for expenditures, loans, or grants for water projects, including studies, to address water sustainability, rehabilitate or improve aging water infrastructure or support flood management. The legislature provided that no more than one-third of these moneys shall be used for grants.

Memorandum

To: Idaho Water Resource Board

From: Remington Buyer, Cynthia Bridge Clark

Date: September 16, 2022

Re: Anderson Ranch Dam Raise

REQUIRED ACTION: The Board will consider approval of a resolution to authorize expenditure of funds from the ARPA State Fiscal Recovery Fund for this project.

Project Background

The Idaho Water Resource Board (IWRB) partnered with the U.S. Bureau of Reclamation (Reclamation) to complete a feasibility study of new surface water storage options on the Boise River. Reclamation issued the Final Feasibility Study and Draft Environmental Impact Statement (DEIS) in 2020 which recommended a 6-foot raise of the Anderson Ranch Dam (project) and approximately 29,000 acre-feet of new storage space. The recommended plan was deemed feasible by the Secretary of Interior in December 2020 which met a required deadline for authorization under the Water Infrastructure Improvements for the Nation Act (WIIN Act). Fiscal Year 2021 Appropriations legislation secured \$12.88 Million in WIIN Act funding as the federal cost share for completion of the Feasibility Study, environmental compliance, and construction.

The WIIN Act also required an agreement between Reclamation and a partner capable of funding the Non-Federal share of the project costs through initiation of construction or final design activities prior to December 16, 2021. On November 19, 2021, the IWRB passed a resolution authorizing execution of a cost-share agreement (contract) between Reclamation and the IWRB to continue development of the Anderson Ranch Dam Raise through construction. The Feasibility Study estimate for total design and construction cost of the project is \$83.3 Million, not including applicable interest during construction. In accordance with the contract, the Non-Federal share of the total project construction costs is 88.95%, or approximately \$74.1 Million, and will be the responsibility of the IWRB. The Federal share of the total construction costs is 11.05% and will be paid by Reclamation appropriations. The contract was executed on November 19, 2021 and Reclamation initiated dam raise design activities. The Anderson Ranch Dam Raise project met the December 16, 2021 WIIN Act construction initiation deadline.

ARPA Funding Expenditure Authorization

The American Rescue Plan Act (ARPA), Pub. L. 117-2 subtitle M (2021), appropriated \$219,800,000,000 to the Coronavirus State and Local Fiscal Recovery Fund (SLFRF) for making payments to the States to mitigate the fiscal effects stemming from the public health emergency with response to the Coronavirus disease. The SLFRF funds may be used to, among other things, make necessary investments in water, sewer, or broadband infrastructure. Pub L. 117-2 sec. 602(c)(1)(D), 42 U.S.C. § 802(c)(D). Funds under the SLFRF may be also used for the purposes of satisfying any Non-Federal matching requirement for an authorized Bureau of Reclamation project, 42 U.S.C. § 802(c)(4)

In 2022 the Idaho Legislature passed House Bill 769 in which it expressed its intent to set aside approximately \$250,000,000 of ARPA funding to support projects managed by the IWRB, including the enlargement of Anderson Ranch Reservoir. In addition, House Bill 769 appropriated \$100,000,000 from the ARPA State Fiscal Recovery Fund for Fiscal Year 2023 to support projects managed by the IWRB. The IWRB has already advanced \$1,223,944 to Reclamation to partially fund the Non-Federal cost share for final design and construction activities associated with the project. The attached draft resolution authorizing expenditure of the remainder

of the current Non-Federal cost obligation, approximately \$72.9 Million, is provided for IWRB consideration.

Other Ongoing Project Activities

- IWRB staff continues to coordinate with Reclamation and provide support where appropriate. This includes use of the Boise River water right accounting model as it may pertain to Reclamation's hydrologic analysis and the IWRB's water right application 63-34753. IWRB staff will provide support for the Rim projects by coordinating with stakeholders as needed. Staff is also tracking post-feasibility study design work in anticipation of an update to the spillway design, potential reservoir elevation restriction and mitigation during construction, and updated project costs in fall 2022;
- Reclamation is also preparing to complete dam spillway overlay feasibility design work in the coming weeks.

Reclamation will provide an update on project activities at the September 16, 2022 IWRB meeting. A briefing letter from Reclamation and copy of its preliminary project development schedule are attached.

ATTACHMENTS

- Boise River Basin Feasibility Study / Anderson Ranch Dam Raise Status Update Letter from USBOR to IWRB (dated September 8, 2022);
- A draft resolution to authorize expenditure of ARPA funding to satisfy the current estimated Non-Federal costs for the Anderson Ranch Dam Raise project.

United States Department of the Interior

BUREAU OF RECLAMATION Snake River Area Office 230 Collins Road Boise, ID 83702-4520

VIA ELECTRONIC MAIL ONLY

Mr. Jeff Raybould Chairman Idaho Water Resource Board 322 East Front Street Boise, ID 83702

Ms. Melanie Paquin Area Manager Snake River Area Office 230 Collins Road Boise, ID 83702

Subject: Boise River Basin Feasibility Study / Anderson Ranch Dam Raise Status Update,

Boise Project, Idaho

Dear Mr. Raybould and Ms. Paquin:

This status update is being sent in preparation for the Idaho Water Resource Board (IWRB) meeting on September 15 & 16, 2022.

The IWRB and the Bureau of Reclamation partnered to complete a feasibility study of new surface water storage opportunities in the Boise River Basin (Study). Authorized under Water Infrastructure Improvements for the Nation (WIIN) Act of 2016, the Study focused on a 6-feet raise of Anderson Ranch Dam in Idaho, to achieve approximately 29,000 acre-feet of new water storage.

Current Status

Recent project activities include:

- Reclamation's risk neutrality and construction risk analysis technical report of findings and decision document is currently undergoing Dam Safety Advisory Team (DSAT) review, with the DSAT meeting and concurrence to be complete in late September.
- Reclamation's Geology, Drill Crew, and testing lab are continuing field explorations and analysis of collected soil samples.

- Reclamation invoiced IWRB for the remaining project funding.
- Reservoir Rim Projects' survey work is approximately 40% complete.
- Reservoir Rim Projects' compliance and permitting for geotechnical field investigations are in progress.

Ongoing project activities include:

- Reservoir Rim Projects' preliminary design activities.
- Reclamation proposed detour route design analysis and stakeholder coordination.
- Reclamation and IWRB staff coordinating post-feasibility study activities for both the dam raise and reservoir rim projects.
- Standing monthly oversight team meetings between Reclamation and IWRB staff.

Completed Key Milestones

Nov. 2017 – Jan. 2019	Reclamation completed initial screening of the three potential dam raise alternatives and developed a project management plan.
July 27, 2018	IWRB passed a resolution supporting the narrowed focus of the Study to a raise at Anderson Ranch Dam.
August 28, 2018	Reclamation and IWRB hosted a Legislative Infrastructure Tour to discuss large water infrastructure projects in Idaho with representatives from Idaho's Congressional delegation.
November 8, 2018	Reclamation and IWRB hosted an informational public open house on the Study in Boise, Idaho.
December 3-7, 2018	Reclamation conducted a Value Planning Study with a final Accountability Report received in February 2019.
December 25, 2018	Reclamation awarded an Indefinite Delivery / Indefinite Quality contract for architect and engineering services to Sundance-EA Joint Venture (Consultant) to complete the Study and environmental compliance activities.
April 30, 2019	Consultant submitted land, structure, infrastructure, and real estate impact assessment (Rim Analysis) for Anderson Ranch Reservoir.
June 7, 2019	IWRB filed a water right permit application for the potential additional storage (Water Right No. 63-34753).
June 19, 2019	Reclamation's TSC completed feasibility-level design and cost estimates completed for Anderson Ranch Dam raise.
August 9, 2019	Reclamation published the Notice of Intent for an environmental impact statement (EIS) in the Federal Register.

August 27-29, 2019 Reclamation conducted Public Scoping Open Houses in Pine, Boise, and Mountain Home, Idaho. February 3-7, 2020 Reclamation completed the Design, Estimate, and Construction review of the feasibility-level designs. Reclamation completed the Peer Review of the Water Operations April 6-10, 2020 Technical Memorandum. Reclamation released the Draft EIS and Draft Feasibility Report. July 31, 2020 October 30, 2020 Reclamation initiated formal Endangered Species Act consultation with National Oceanic and Atmospheric Administration National Marine Fisheries Service and submitted its biological assessment. December 2020 The Secretary of the Interior determined the Study's recommended plan to be feasible in accordance with the WIIN Act. December 2020 Reclamation transmitted the Final Feasibility Report to Congress. December 2020 Fiscal Year 2021 Appropriations legislation secured \$12.88 million in WIIN Act funding for completing the Study, environmental compliance, and construction. May 2021 Initiated pause in environmental compliance process pending further development of final design. July / August 2021 Reclamation's Columbia-Pacific Northwest Region requested delegation of authority and received approval from the Commissioner to negotiate, execute, and administer a cost-share agreement pursuant to section 4007 of the WIIN Act with the IWRB. Sept. / Oct. 2021 Reclamation and IWRB completed cost-share contract negotiation sessions: Sept. 22, Oct. 5, Oct. 19, and Oct. 28. November 2021 IWRB and Reclamation signed and executed cost-share contract. IWRB provided first interval payment of advanced funds. TSC initiated final design activities. June 2022 Reclamation's Technical Service Center completed dam spillway overlay feasibility design and conducted risk neutrality and construction risk workshop.

Key Critical Path Milestones

Summer 2022 Complete risk neutrality and construction risk analysis process

Spring 2023 Complete dam raise 30% Design and Cost Estimate

Winter 2023/2024 Complete environmental compliance

Summer 2024 Complete final design

Thank you for this opportunity to provide an update on the Boise River Basin Feasibility Study /
Anderson Ranch Dam Raise Project. If you have any questions, please contact me at (208) 378-
5360 or via email at ckeith@usbr.gov.

Sincerely,

Chris Keith Project Manager

WHEREAS, Anderson Ranch Dam provides for the storage of water from the South Fork of the

WHEREAS, the United States constructed Anderson Ranch Dam as part of the Boise Project; and

WHEREAS, the population of the Treasure Valley is growing and it is acknowledged that an increased supply of Boise River water will benefit Treasure Valley water users; and

WHEREAS, the United States Bureau of Reclamation's (Reclamation's) 2006 Boise/Payette River Basins Water Assessment Study identified raising Anderson Ranch Dam as an area on opportunity for additional water storage in the Treasure Valley; and

WHEREAS, House Joint Memorial No. 8 passed by the 2008 Idaho Legislature encouraged the Idaho Water Resource Board (IWRB), in coordination with other public and private entities, to initiate and complete the study of additional water storage projects in the State of Idaho; and

WHEREAS, House Bill 428, also passed by the 2008 Idaho Legislature, directed the IWRB to evaluate additional surface water storage opportunities, leading the IWRB to initiate the Lower Boise River Interim Feasibility Study in partnership with the United States Army Corps of Engineers to assess water storage potential in the Boise River drainage; and

WHEREAS, pursuant to Public Law 111-11, Section 9001, passed in 2009 by the 111th Congress of the United States, Reclamation was authorized to complete feasibility studies on the Boise and Payette River projects, as identified in Reclamation's 2006 Water Assessment Study; and

WHEREAS, on October 27, 2017, the IWRB passed a resolution to partner with Reclamation and agreed to provide the 50% Non-Federal cost share to complete the Boise River Basin Feasibility Study (Feasibility Study). The Feasibility Study evaluated increasing water storage opportunities within the Boise River basin to meet existing and future water supply demands, primarily through the expansion of Anderson Ranch Reservoir; and

WHEREAS, the Feasibility Study was further authorized under section 4007(b) of the Water Infrastructure Improvements for the Nation Act (WIIN Act) the, P.L. 114-322 (WIIN Act), which provides study and construction authority and Federal funding proportionate to the Federal benefits deemed feasible as of January 2021. The WIIN Act further requires Reclamation's project partner(s) to pay the Non-Federal share of the project capital costs; and

Resolution No.

WHEREAS, in December 2020, the Secretary of the Interior determined the feasibility study's recommended plan to raise Anderson Ranch Dam 6 feet, approximately 29,000 acre-feet of new storage space, to be feasible in accordance with the WIIN Act, and Fiscal Year 2021 Appropriations legislation secured \$12.88 Million in WIIN Act funding as the Federal cost share for completing the Feasibility Study, environmental compliance, and construction; and

WHEREAS, on November 19, 2021, the IWRB and Reclamation negotiated and executed *Contract for the Raise of Anderson Ranch Dam, Contract No. 21WN102130*, a contract for Non-Contract Post-Authorization activities, final design, and construction of the Anderson Ranch Dam Raise Project (Contract); and

WHEREAS, the feasibility study estimate for total design and construction cost of the project is \$83.3 Million, not including applicable interest during construction. In accordance with the Contract, the Non-Federal share of the total project construction costs is 88.95%, or approximately \$74.1 Million, and will be the responsibility of the IWRB. The Federal share of the total construction costs is 11.05% and will be paid by Reclamation appropriations; and

WHEREAS, as of the date of this resolution, the IWRB contributed approximately \$1.2 Million of the estimated \$74.1 Million Non-Federal cost commitment. The remaining estimated Non-Federal cost obligation is approximately \$72.9 Million; and

WHEREAS, in 2019, the IWRB applied for water right permit 63-34753, to store 29,000 acre-feet of water from the South Fork of the Boise River behind Anderson Ranch Dam, once it is raised by six feet; and

 WHEREAS, the IWRB is a constitutional agency of the State of Idaho, organized, existing, and operating pursuant to Article XV, Section 7 of the Idaho Constitution and Idaho Code § 42-1732 through § 42-1780, which has authority to construct and operate water projects and to acquire, purchase, lease, or exchange land, rights, water rights, or other property related to water projects; and

WHEREAS, the American Rescue Plan Act (ARPA), Pub. L. 117-2 subtitle M (2021), appropriated \$219,800,000,000 to the Coronavirus State and Local Fiscal Recovery Fund (SLFRF) for making payments to the States to mitigate the fiscal effects stemming from the public health emergency with response to the Coronavirus disease; and

WHEREAS, the SLFRF funds may be used to, among other things, make necessary investments in water, sewer, or broadband infrastructure. Pub L. 117-2 sec. 602(c)(1)(D), 42 U.S.C. § 802(c)(D); and

WHEREAS, funds under the SLFRF may be used for the purposes of satisfying any Non-Federal matching requirement for an authorized Bureau of Reclamation project, 42 U.S.C. § 802(c)(4); and

WHEREAS, in 2022 the Idaho Legislature passed House Bill 769 in which it expressed its intent to set aside approximately \$250,000,000 of ARPA funding to support projects managed by the IWRB, including the enlargement of Anderson Ranch Reservoir; and

Memorandum

To: Idaho Water Resource Board

From: Mike Morrison

Date: September 12, 2022

Re: Mountain Home Air Force Base Water Resilience Project

REQUIRED ACTION: The Board will consider approval of a resolution to authorize execution of a Memorandum of Agreement (MOA) between the IWRB and the Air Force and a resolution to authorize expenditure of funds from the ARPA State Fiscal Recovery Fund for this project.

Project Update

<u>Timeline</u>: At July's Board meeting, Staff reported that the project was 6 months behind schedule. The Board's decision to allow Staff to begin procuring an Owner's Advisor in July prevented further delays, and Staff was able to expedite initiation of the procurement process. At present, the project is about three and a half months behind schedule. Staff continues work to assure that the project is completed by the February 1, 2026 beneficial use deadline.

<u>Owner's Advisor:</u> Staff began the process of procuring an Owner's Advisor on August 24, 2022. On September 6th, Staff held an informational session that was well attended by prospective OAs. Staff anticipates completing a contract with an Owner's Advisor in early December.

Memorandum of Agreement: Staff and the Air Force have drafted a MOA that outlines project responsibilities and design parameters, clarifies issues surrounding water rights, and ensures that both parties perform a continuing legal review of the project and mechanism for transferring the water transmission system to the Air Force. Staff will be prepared to discuss the draft MOA at September's Board Meeting. A copy of the draft MOA, as of the date of this memorandum, has been provided to the Governor's office and is attached for reference (Attachment 1).,

ARPA Funding Expenditure Authorization: The American Rescue Plan Act (ARPA), Pub. L. 117-2 subtitle M (2021), appropriated \$219,800,000,000 to the Coronavirus State and Local Fiscal Recovery Fund (SLFRF) for making payments to the States to mitigate the fiscal effects stemming from the public health emergency with response to the Coronavirus disease. The SLFRF funds may be used to, among other things, make necessary investments in water, sewer, or broadband infrastructure. Pub L. 117-2 sec. 602(c)(1)(D), 42 U.S.C. § 802(c)(D). Eligible uses of the SLFRF include projects that would be eligible to receive financial assistance through the Drinking Water State Revolving Fund (DWSRF), 40 CFR 35.3520, and the DWSRF may be used for the rehabilitation of wells or development of eligible sources to replace contaminated water sources, 40 CFR 3520(b)(2)(iii). The SLFRF funds may also be used for projects that meet the requirements of the DWSRF and also support drinking water needs for a reasonable amount of increased population growth, 31 CFR § 35.6(e)(1)(v).

In 2022 the Idaho Legislature passed House Bill 769 in which it expressed its intent to set aside approximately \$250,000,000 of ARPA funding to support projects managed by the IWRB, including construction of a water delivery pipeline project, which includes a pipeline, pumpstation, and other

appurtenances, for MHAFB. In addition, House Bill 769 appropriated \$100,000,000 from the ARPA State Fiscal Recovery Fund for Fiscal Year 2023 to support projects managed by the IWRB.

Resolution to Authorize \$5 Million for this project: The current project cost estimate is approximately \$61 Million. Project costs will be refined as the design progresses. In order to continue project development activities, Staff requests spending authorization for up to \$5 Million at this time. Staff will seek additional funding as additional project information becomes available. The attached draft resolution authorizing expenditure \$5 Million from the ARPA State Recovery Fund is provided for the IWRB's consideration (Attachment 3).

Attachment 2: Draft Resolution to approve the MOA

Attachment 3: Draft Resolution to authorize expenditure of ARPA funds

MEMORANDUM OF AGREEMENT

BETWEEN

THE UNITED STATES OF AMERICA

AND

THE IDAHO WATER RESOURCE BOARD

FOR

POTENTIAL WATER RESILIENCE PROJECT IN THE MOUNTAIN HOME PLATEAU REGION

INSERT INSTRUMENT NO

This is a Memorandum of Agreement ("MOA") between the United States of America, acting by and through the Secretary of the Air Force ("Government") and the Idaho Water Resource Board ("Board"), each a "Party" and collectively referred to as the "Parties."

BACKGROUND

- A. Mountain Home Air Force Base ("MHAFB") is an active-duty Air Force Base, located in Elmore County, Idaho.
- B. The Board is a constitutional agency of the State of Idaho, organized, existing, and operating pursuant to Article XV, Section 7 of the Idaho Constitution and Idaho Code § 42-1732 through § 42-1780. Among its powers and duties, the Board has authority to purchase and hold water rights; construct and operate water projects; and acquire, purchase, lease, or exchange land, rights, water rights or other property related to water projects.
- C. Ground water supplies within Elmore County are limited and are presently inadequate to meet the long-term needs of water users in the county, including MHAFB.
- D. MHAFB is in the Mountain Home Ground Water Management Area ("GWMA"). The 437,000-acre GWMA was designated in response to declining ground water levels in areas of the Mountain Home Plateau.
- E. In 2010, AECOM, a private infrastructure consulting firm, completed a study of the sustainability of the existing MHAFB water supply to determine future available well production. The AECOM study found that the regional aquifer is not sustainable. Water conservation at MHAFB alone will not make up the water budget deficit.
- F. In 2014, the Board purchased senior Snake River water rights from J.R. Simplot

- Company through a Water Right Purchase and Sale Agreement ("Simplot Water Rights Purchase Agreement") to help address MHAFB's declining water supply.
- G. Pursuant to the Department of Defense's Energy Resilience and Conservation Investment Program ("ERCIP") the Treatment Plant, as defined in Section 1.3, was authorized by Congress in the National Defense Authorization Act for Fiscal Year 2022 and signed into law (Public Law 117-81) by the President on Dec. 27, 2021. Funding for the Treatment Plant was appropriated by Congress in the "Consolidated Appropriations Act, 2022" and signed into law (Public Law 117-103) by the President on Mar. 15, 2022.

PURPOSE AND SCOPE

- A. On May 14, 2021, the Board; the Idaho Office of the Governor; the Office of the Acting Assistant Secretary of the Air Force for Energy, Installations, and Environment; and MHAFB entered into a Memorandum of Understanding for Potential Water Resilience Project in the Mountain Home Plateau Region, F1AF2E-21133-001 ("MOU"). The MOU outlined how the Parties would cooperate to build a pump station and pipeline from the Snake River to MHAFB and a water treatment facility on MHAFB.
- B. This MOA further defines roles, responsibilities, and processes set forth in the MOU as the Project, as defined below, moves from concept to design and construction.

AGREEMENT

The Parties agree as follows:

1. Definitions

- 1.1 *Project* means the design and construction of a pumping station, pipeline and water treatment plant to deliver treated Snake River water to MHAFB.
- 1.2 *Transmission System* means the pumping station and pipeline from the Snake River to the MHAFB boundary, designed and constructed by the Board.
- 1.3 *Treatment Plant* means the water treatment plant that will be designed and constructed by the U.S. Army Corps of Engineers for MHAFB within the MHAFB installation boundaries.
- 1.4 *Water System* means the completed Transmission System and Treatment Plant working together as one system.

2. <u>Transmission System</u>

- 2.1 The Government has provided the Board with preliminary design parameters relevant to the design of the Transmission System and its interconnection with the Treatment Plant; however, both Parties recognize that during design and construction, it may be necessary to refine or change some of the design parameters. As of the date of this MOA, the design parameters are:
 - 2.1.1 The Transmission System will meet the anti-terrorism requirements as set forth in Attachment 1 to the MOA.

- 2.1.2 The Transmission System will have a communications land line to serve as a link between the Treatment Plant and the pump station.
- 2.1.3 The Transmission System will have an electrical supervisory control and data acquisition ("SCADA") system that is both compatible and interoperable with the Treatment Plant.
- 2.2 The point of delivery for the Transmission System will be approximately 1/4 mile east of the MHAFB main gate, with the exact point of delivery determined by both Parties' design and construction contractors. If necessary, MHAFB's Civil Engineering Squadron will work with the Board's contractors to temporarily relocate the fence line in the area of the point of delivery so that the Board's construction contractors can access the site.
- 2.3 The Board will construct the Transmission System to accommodate the full extent of the water rights purchased by the Board, or MHAFB's reasonable projected need, whichever is greater.
- 2.4 For testing purposes, the Government will be responsible for constructing the facilities needed to transport water from the point of delivery to a disposal, storage or other area for use provided by the Government.
- 2.5 The Board will convey in fee, as a gift further described in Section 3.2, all rights, title, and interests in and to the Transmission System, to include any associated real property interests, to the Government at no cost to the Government once the Transmission System is constructed and is (i) complete and usable; (ii) fully functional, and ready for operation; and (iii) meets all applicable Federal, State, and local requirements relating to health, safety, fire, and the environment.

3. Cooperation Requirements

- 3.1 The Parties agree to meet bi-weekly, or as needed, to coordinate design and construction activities. The Parties have specifically identified a need to ensure the Transmission System and Treatment Plant are compatible and interoperable to include a SCADA system.
- 3.2 The Government's acceptance of the Transmission System is governed under 10 U.S.C § 2601. Therefore, in order to accept the Transmission System, the Parties will need to comply with all the requirements of 10 U.S.C. § 2601 and all other applicable Federal laws, regulations and policies. Specifically, the Parties will need to meet the requirements of Air Force Instruction 51-506, Gifts to the Department of the Air Force from Domestic and Foreign Sources, which the Government has provided to the Board.
- 3.3 The following cooperation requirements are based on the Parties' desire to avoid the obstacles encountered in previous iterations of this Project, which caused delays and outlays for unrealized benefits.
 - 3.3.1 The Parties are committed to identifying potential legal, funding, and logistic impediments to the Project. As such, both Parties will ensure that legal counsel will review the Project as it progresses. Additionally, both Parties will maintain

- regular contact with each other's points of contacts to ensure the Project's success and viability.
- 3.3.2 A list of the points of contact for each major component of the Project moving forward is set forth in Attachment 2 of the MOA.
- 3.4 Future obligations and expenses of each Party shall be through separate, future agreements and contracts and not through this MOA. The Parties acknowledge the Government shall at no time be obligated for payment of fees, tariffs, capital recovery charges, etc. associated with construction of the Transmission System; and the Board shall at no time be obligated with charges associated with construction for the Treatment Plant.

4. Water Rights

- 4.1 The Board will continue to own the water rights acquired for the Water System and MHAFB will have use of them through a separate water rights lease or other agreement.
- 4.2 The Government will preserve and exercise the existing groundwater rights at MHAFB and the existing capability to draw from onsite wells.
- 4.3 Under the Simplot Water Rights Purchase Agreement, Simplot had the right to repurchase the water rights if the water rights were not beneficially used on the land owned by the United States of America and reserved for the MHAFB by February 1, 2021, subject to extension. In 2020, after the initial effort to complete the Project was paused due to legal concerns, the Board extended the beneficial use deadline to February 1, 2026.
 - 4.3.1 The water rights are a critical component of the Project and Simplot's repurchase right poses a significant risk to the Government and the Board.
 - 4.3.2 If it appears Project construction timelines will hinder MHAFB's beneficial use of the water rights by February 1, 2026, the Board will work with the Government to ensure the water rights are protected from repurchase. This effort may include but is not limited to providing alternate transport of the water, developing means of beneficial use outside of the Water System, or renegotiating the Simplot Water Rights Purchase Agreement with Simplot.

5. Water Rights Lease or other Agreement

- 5.1 The water rights lease or other agreement will outline the relationship between the Board and the Government once the Transmission System is connected to the Treatment System and contain the following:
 - 5.1.1 Terms for the Board's operation and maintenance of the Transmission System during the period between connecting the Transmission and Treatment Systems and the Board gifting, by conveyance, the Transmission System to MHAFB.
 - 5.1.2 Terms for MHAFB's use of the water rights, including a minimum term of five (5) years with options to renew.

5.1.3 Associated payment terms.

6. Term

This MOA shall take effect when both Parties have signed it. The date of this MOA will be the date the MOA is signed by the last party to sign it and shall continue in effect until July 1, 2026. The MOA may be extended if agreed to by both Parties.

7. General Provisions

- 7.1 In no event shall any official, officer, employee, or agent of the Board, the State of Idaho, or the Government be personally liable for any representation, statement, covenant, warranty, or obligation contained in, or made in connection with, the MOA, express or implied.
- 7.2 This MOA may only be modified by the written agreement of the Parties, duly signed by their authorized representatives. This MOA will be reviewed no less often than at the mid-point of its term and around the anniversary of its effective date in its entirety.
- 7.3 All correspondence to be sent and notices to be given pursuant to this MOA will be addressed.
 - 7.3.1 if to Government, to 2530 Crystal Drive, 8th Floor, Arlington, VA 22202
 - 7.3.2 if to MHAFB, to 366CES/CD, 1030 Liberator St. Mountain Home AFB ID 83648
 - 7.3.3 if to IWRB, to PO Box 83720, Boise, ID 83720-0098
- 7.4 This MOA neither documents nor provides for the exchange of funds or manpower between the Parties, nor does it make any commitment of funds or resources. No provision in this MOA will be interpreted to require obligation or payment of funds.
- 7.5 Any disputes relating to this MOA will, subject to any applicable law, Executive order, directive, or instruction, be resolved by consultation between the Parties.
- 7.6 The Parties acknowledge and agree that each Party will have the right to terminate the negotiation of an agreement for any reason or no reason and that no Party owes a duty to negotiate an agreement. The MOA may be terminated by either Party by giving at least 180 days written notice to the other Party.
- 7.7 This MOA is not transferable except with the written consent of the Parties.
- 7.8 It is expressly understood and agreed that this MOA embodies the entire understanding between the Parties regarding the MOA's subject matter.
- 7.9 Nothing in this MOA provides the Parties with any preference, advantage or otherwise in furtherance or pursuit of any engagement outside the scope of this MOA, nor in any respect limits the options of any Party with respect to the subject matter of this MOA or any other project or undertaking. In order to avoid any appearance of a conflict of interest, the Parties may set limits on the level of assistance or cooperation any Party provides the other.

8. Counterparts

This Agreement may be executed with electronic signatures and in multiple counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same document.

The Parties have executed this MOA on the date following their respective signature.

ATTACHMENT # 1 SECURITY AND ANTI-TERRORISM REQUIREMENTS

- 1. Facilities will be designed and constructed in accordance with MILSTD 3007, Unified Facilities Criteria.
- 2. The Design Basis threat is assumed to be a 15,000 lb vehicle, at 35 mph, carrying 55 pounds of explosive. If this assumption changes, the Transmission System designers will coordinate with MHAFB.
- 3. The areas around intakes, pumps and other facilities will require security fencing and barriers meeting the requirements of UFC 4-022-02.
- 4. The underground portion of the pipeline and other underground facilities will not require additional security; however, exposed pipes, manhole covers, and other access points will require locks and access for recurring checks and surveillance.
- 5. It is assumed that pumping facilities will be enclosed in Concrete Masonry Unit (CMU) enclosures. If this assumption changes, the Transmission System designers will coordinate this with MHAFB.

Negotiate Contract	November 4 - December 2

The MOA (Memorandum of Agreement)

Board staff and the U.S. Air Force have negotiated a MOA that:

- Ensures that both parties conduct a legal review.
- Broadly outlines responsibilities and design parameters that the Board needs in order to contract engineering, design, and construction firms.
- Clarifies issues surrounding water rights.

MOA highlights: Air Force legal review

- We originally asked the Air Force to perform a legal review of the project and mechanism for transferring ownership.
- This request was a substantial obstacle to negotiating an MOA.

MOA highlights: Legal review (Section 3.3.1)

"The parties are committed to identifying potential legal, funding and logistic impediments to the Project. As such, both Parties will ensure that legal counsel will review the Project as it progresses. Additionally, both parties will maintain regular contact with each other's points of contact to ensure the Project's success and viability."

MOA highlights: Responsibilities

 Air Force and Board engineering and construction firms will work together to ensure that the systems are compatible and interoperable.

 Air Force will provide a place to dispose of water generated during pipeline and water treatment plant testing and commissioning.

08/13/2018 14:52

MOA Highlights: Design parameters

- The Air Force has provided the Board:
 - Peak and monthly delivery requirements*.
 - Security and Anti-Terrorism (AT) requirements.
 - Communication and control requirements.
 - The Point of Delivery (POD).

^{*} Under the agreement, the Board will construct the pipeline to be able to deliver either the water rights obtained by the Board, or the Base's peak projected need, whichever is greater (see MOA Section 2.3).

MOA highlights: Water rights

- The agreement clarifies some issues regarding water rights:
 - The Board will retain the water rights after transferring the system to the Air Force.
 - That the water rights must be beneficially used for MHAFB by January 31, 2026.
 - That the Government intends to preserve and exercise its existing ground water rights.
 - Board will maintain the Transmission system between the time that it is connected and the time that it is transferred to the Air Force.

Proposed resolution to sign the MOA

- Staff proposes that the Board authorize its Chairman or other designee to sign the MOA.
- Are there any questions about the MOA or resolution?

08/13/2018 15:52

Funding request

- At July's Board meeting, I presented a cost estimate of \$61.7
 Million.
 - Estimate includes reasonably foreseeable risk.
 - Estimate includes an 8.5% annual inflation adjustment.
 - Estimate is very tentative, and we'll update the Board when we obtain better information.
- Request that the Board authorize \$5 Million in order to get the project started.

Memorandum

To: Idaho Water Resource Board

From: Wesley Hipke

Date: September 16, 2022

Re: ESPA Recharge Infrastructure Funding

REQUIRED ACTION: The Board will consider approval of resolutions to authorize expenditure of funds from the ARPA State Fiscal Recovery Fund for this project.

The overall goal of the ESPA Managed Recharge Program (Program) is to assist in stabilizing and potentially enhancing aquifer levels, increasing reach gains in some river reaches, increase water supply certainty for all users, and decrease the demand for litigation and administrative remedies. The ESPA CAMP established managed recharge as a major tool in accomplishing those goals. Specific to the ESPA Managed Recharge Program the State of Idaho further defined the goal of the program through Senate Concurrent Resolution No. 136 passed in 2016. This resolution established the following points:

- The State recognizes the need for managed recharge of the ESPA and resolves that the State establish a managed recharge goal of 250,000 af/year on average across the ESPA.
- Develop managed recharge capacity to achieve 250,000 af/year on average on or before Dec. 31, 2024.
- Increase the 100,000 af/year average ESPA CAMP Phase I target for state funded managed recharge to 250,000 af/year average recharge across the ESPA.

To meet the goals established in the ESPA CAMP and Senate Concurrent Resolution No. 136 the IWRB has been actively developing managed recharge capacity throughout the ESPA.

The following projects will assist the IWRB to meet the established goals for the Program, stabilize the ESPA, and provide a sustainable water supply to meet the growing needs of the area.

Memorandum

To: Idaho Water Resource Board

From: Wesley Hipke

Date: September 16, 2022

Re: Goyne Sump Recharge Site Development and Construction

REQUIRED ACTION: The Board will consider approval of a resolution to authorize expenditure of funds from the ARPA State Fiscal Recovery Fund for this project.

Goyne Sump Recharge Project Summary:

Total Cost: \$4.499 million Potential Recharge Capacity: 100 cfs

FEMA Funding: \$181,753 Method of Recharge: Recharge Well

MID In-kind: \$930,000 Depth to Water: ~80 feet

Project:

- Develop and improve Minidoka Irrigation District (MID) delivery system to current recharge sites, Goyne Sump injection well and King Spill pond.
- Summary of Proposed Work:
 - Increase capacity of existing Recharge Canal
 - Construction of new canal (crosses BLM land)
 - Improve delivery system (St. Anthony Canal
 - Potential modification of bridges
 - Clean existing canal to handle historic capacities

Request of the IWRB:

Authorize the expenditure of \$3,387,047 million dollars from ARPA funding to design and develop the recharge capacity of the Minidoka Irrigation District (MID) specifically the Goyne Sump injection well.

Background

The overall goal of the ESPA Managed Recharge Program (Program) is to assist in stabilizing and potential enhancing aquifer levels along with increasing spring flows and reach gains along the Snake River. To accomplish these goals the IWRB has been actively developing the managed recharge capacity throughout the ESPA. The MID diverts water out of Lake Walcott upstream of Minidoka Dam. Due to the location of the diversion works the IWRB's water rights would only be in priority when the Minidoka Dam hydropower water right is satisfied (2,700 cfs).

Historically during flood events the Goyne Sump drain well has been able to handle flows in excess of 100 cfs, however, during currently conditions MID does not have the capacity to deliver that volume of water.

MID / Goyne Sump Project:

The proposed improvements would allow MID to deliver 100 cfs to the Goyne Sump site. The project entails building a diversion channel from the B-1 canal to the B-2/1 canal, increasing capacity along 2.17 miles of the B-2/1 canal, improving pumps to move water through the system, along with additional infrastructure required to deliver water to the recharge sites (Figure 1). MID plans to begin excavation on the flood channel during the 2022/2023 maintenance cycle and continue through the winter months through 2025/2026.

Conducting managed recharge in this area provides long-term benefits to the ESPA. The Goyne Sump area would diversify recharge locations for the IWRB Recharge Program. Analysis utilizing the ESPA groundwater flow model (version 2.2) shows this area has a high 5-year retention rate (78%) and estimates 50% of the water recharge at this site would return to surface water after 10 years. This site provides a long-term increased in water supply especially during extended droughts (Figure 2).

ARPA Funding Expenditure Authorization

The American Rescue Plan Act (ARPA), Pub. L. 117-2 subtitle M (2021), appropriated \$219,800,000,000 to the Coronavirus State and Local Fiscal Recovery Fund (SLFRF) for making payments to the States to mitigate the fiscal effects stemming from the public health emergency with response to the Coronavirus disease. The SLFRF funds may be used include projects that would be eligible to receive financial assistance through the Clean Water State Revolving Fund (CWSRF), 40 CFR Part 35.3100—35.3170, and the Drinking Water State Revolving Fund (DWSRF), 40 CFR 35.3520. The CWSRF may be used for groundwater projects that protect and restore aquifers, including aquifer recharge projects. The DWSRF can fund aquifer recharge projects such as aquifer storage and recover wells and water reuse and recycling projects which can replace and offset potable water use and to develop new sources of water to increase drought resilience

In 2022 the Idaho Legislature passed House Bill 769 in which it expressed its intent to set aside approximately \$250,000,000 of ARPA funding to support projects managed by the IWRB, including for the continued identification, study, construction, or enlargement of managed aquifer recharge sites above Milner Dam. For Fiscal Year 2023, House Bill 769 appropriated \$100,000,000 from the ARPA State Fiscal Recovery Fund to support projects managed by the IWRB.

Resolution No. _____

RESOLUTION TO APPROVE FUNDS FROM THE ARPA STATE FISCAL RECOVERY FUND AND PROVIDE SIGNATORY AUTHORITY

WHEREAS, about one-third of Idaho's population resides on the Eastern Snake Plain and the Eastern Snake Plain Aquifer (ESPA) is the sole source of drinking water for both cities and most rural residents of the Eastern Snake Plain; and WHEREAS, due to numerous factors, including drought, the ESPA has been losing approximately 216,000 acre-feet annually from aquifer storage since the 1950's resulting in declining ground water levels in the aquifer and reduced spring flows to the Snake River; and WHEREAS, the State Water Plan includes a goal to accomplish managed recharge in the ESPA averaging 250,000 acre-feet annually; and WHEREAS, the 2016 Idaho Legislature passed and approved Senate Concurrent Resolution 136 directing the IWRB to develop the capacity to achieve 250,000 acre-feet of annual average managed recharge to the ESPA by December 31, 2024; and WHEREAS, implementation of managed recharge on the ESPA will meet the goals and objectives of stabilizing and improving aquifer levels for, among other things, protecting municipal and domestic drinking water supplies and addressing variability in climatic conditions, including drought; and WHEREAS, the American Rescue Plan Act (ARPA), Pub. L. 117-2 subtitle M (2021), appropriated \$219,800,000,000 to the Coronavirus State and Local Fiscal Recovery Fund (SLFRF) for making payments to the States to mitigate the fiscal effects stemming from the public health emergency with response to the Coronavirus disease; and WHEREAS, the SLFRF funds may be used to, among other things, make necessary investments in water, sewer, or broadband infrastructure. Pub L. 117-2 sec. 602(c)(1)(D), 42 U.S.C. § 802(c)(D); and WHEREAS, eligible uses of the SLFRF include projects that would be eligible to receive financial assistance through the Clean Water State Revolving Fund (CWSRF), 40 CFR Part 35.3100—35.3170, and the Drinking Water State Revolving Fund (DWSRF), 40 CFR 35.3520; and WHEREAS, the CWSRF may be used for groundwater projects that protect and restore aquifers, including aquifer recharge projects; and

WHEREAS, the DWSRF can fund aquifer recharge projects such as aquifer storage and recover

wells and water reuse and recycling projects which can replace and offset potable water use and to

develop new sources of water to increase drought resilience; and

Page 1

38 WHEREAS, in 2022 the Idaho Legislature passed House Bill 769 in which it expressed its intent to 39 set aside approximately \$250,000,000 of ARPA funding to support projects managed by the IWRB, 40 including for the continued identification, study, construction, or enlargement of managed aquifer 41 recharge sites above Milner Dam; and 42 43 WHEREAS, House Bill 769 appropriated \$100,000,000 for Fiscal Year 2023 to support projects 44 managed by the IWRB, including for the continued identification, study, construction, or enlargement of 45 managed aquifer recharge sites above Milner Dam; and 46 47 WHEREAS, Idaho Code § 42-1760 authorizes the IWRB to expend, loan, or grant moneys from the 48 water management account for water projects that conserve or increase water supply, improve drought 49 resiliency, address water sustainability, or support flood management, including the identification, study, 50 and construction of managed aquifer recharge sites above Milner dam; and 51 52 WHEREAS, the Minidoka Irrigation District (MID) submitted a proposal to IWRB on September 1, 2022 detailing a project to increase the MID managed recharge capacity by increasing delivery capacity to 53 54 the Goyne Sump area; and 55 WHEREAS, the Goyne Sump Recharge Project will contribute to the IWRB goal of achieving 56 57 250,000 acre-feet of annual average managed recharge to the ESPA by December 31, 2024 and will meet the goals and objectives of stabilizing and improving aquifer levels for, among other things, protecting 58 59 municipal and domestic drinking water supplies and addressing variability in climatic conditions, including 60 drought; and 61 62 WHEREAS, the proposed total cost of MID's infrastructure to improve recharge capacity at the 63 Goyne Sump site is \$4,499,000, FEMA funding is contributing \$181,753, MID is proposing \$930,000 of inkind and MID is requesting \$3,387,047 from the IWRB to develop the project. 64 65 66 NOW THEREFORE BE IT RESOLVED that the IWRB authorizes expenditures of \$3,387,047 from the 67 ARPA State Fiscal Recovery Fund for the development of the Goyne Sump Recharge Project. Further authorizations will be required upon determination of total development and construction costs; and 68 69 NOW THEREFORE BE IT FURTHER RESOLVED that the IWRB authorizes its chairman or designee, 70 71 to execute the necessary agreements or contracts for the purpose of this resolution. DATED this 16th day of September, 2022. JEFF RAYBOULD, Chairman Idaho Water Resource Board JO ANN COLE-HANSEN, Secretary

Resolution No. _____

Memorandum

To: Idaho Water Resource Board

From: Wesley Hipke

Date: September 16, 2022

Re: Hamer Road Recharge Site Design and Development

REQUIRED ACTION: The Board will consider approval of a resolution to authorize expenditure of funds from the ARPA State Fiscal Recovery Fund for this project.

Hamer Road Recharge Project Summary:

est. Total Cost: \$21 to \$25 million Potential Recharge Capacity: 200 cfs

Basin Size: 291 acres
Basin Depth: ~20 feet
Depth to Water: 30-60 feet

Project:

• Develop delivery system to a natural basin located on BLM land

- Summary of Proposed Work:
 - o Increase capacity of existing Recharge Canal
 - Construction of new canal (crosses BLM land)
 - Improve delivery system (St. Anthony Canal)
 - Potential modification of bridges
 - Refurbish existing canal to handle historic capacities

Request of the IWRB:

Authorize the expenditure of \$5 million dollars from ARPA funding to start the design and development of the project. Once costs are fully developed from the final design of the project a request will be made of the IWRB for full funding to construct the project.

Background

The overall goal of the ESPA Managed Recharge Program (Program) is to assist in stabilizing and potential enhancing aquifer levels along with increasing spring flows and reach gains along the Snake River. To accomplish these goals the IWRB has been actively developing the managed recharge capacity throughout the ESPA, however, the majority has been in the Lower Valley (below American Falls Reservoir). Since 2014, almost 2,300 cfs of recharge capacity has been added throughout the ESPA, however, only 250 cfs of the capacity was in the Upper Valley (above American Falls Reservoir). Numerous factors played into this variance such as water availability, large natural basin with close proximity to high-capacity delivery systems (irrigation canals), and favorable hydrogeological conditions (infiltration rate, dept to water, subsurface geology).

Staff have worked with local canal companies and irrigation districts in the Upper Valley to develop potential recharge projects. Starting in 2018 staff conducted internal investigations and studies to locate potential large managed recharge sites (150 cfs or more) in the Upper Valley. In November of 2020 Quadrant Consulting, Inc. was contracted to conduct a recharge project feasibility investigation on the Hamer Road site along with two addition areas distinguished by staff for potential large recharge sites.

Hamer Road Project:

The completion of the Quadrant Investigation in June 2022 for the Hamer Road Project provided three options to deliver water to a natural lava basin located on land controlled by the Bureau of Land Management (BLM) and improvement that would be required to deliver 200 cfs to the proposed site. Staff is recommending moving forward with Option 1 shown in Figure 1, which utilizes existing structures and had the lowest cost estimate for construction.

Conducting managed recharge in this area provides numerous long-term benefits to the ESPA. The groundwater flow model developed for the ESPA (version 2.2) was utilized to determine the potential impact conducting recharge at this site would have on the aquifer and surface water flows. Compared to other areas in the Upper Valley, water recharged in this area is predicted to flow out relatively slowly with 50% of the water still in the aquifer after four years. This long retention time provides long-term benefit especially during extended droughts. A significant portion of the water recharged is predicted to return to the Snake River (or Henry' Fork) above the city of Idaho Falls (Figure 2). However, a substantial volume of water returned to the river is predicted to be captured as storage in the reservoir system.

ARPA Funding Expenditure Authorization

The American Rescue Plan Act (ARPA), Pub. L. 117-2 subtitle M (2021), appropriated \$219,800,000,000 to the Coronavirus State and Local Fiscal Recovery Fund (SLFRF) for making payments to the States to mitigate the fiscal effects stemming from the public health emergency with response to the Coronavirus disease. The SLFRF funds may be used include projects that would be eligible to receive financial assistance through the Clean Water State Revolving Fund (CWSRF), 40 CFR Part 35.3100—35.3170, and the Drinking Water State Revolving Fund (DWSRF), 40 CFR 35.3520. The CWSRF may be used for groundwater projects that protect and restore aquifers, including aquifer recharge projects. The DWSRF can fund aquifer recharge projects such as aquifer storage and recover wells and water reuse and recycling projects which can replace and offset potable water use and to develop new sources of water to increase drought resilience. This project fall into both of these categories.

In 2022 the Idaho Legislature passed House Bill 769 in which it expressed its intent to set aside approximately \$250,000,000 of ARPA funding to support projects managed by the IWRB, including for the continued identification, study, construction, or enlargement of managed aquifer recharge sites above Milner Dam. For Fiscal Year 2023, House Bill 769 appropriated \$100,000,000 from the ARPA State Fiscal Recovery Fund to support projects managed by the IWRB.

Resolution No. _____

RESOLUTION TO APPROVE FUNDS FROM THE ARPA STATE FISCAL RECOVERY FUND AND PROVIDE SIGNATORY AUTHORITY

WHEREAS, about one-third of Idaho's population resides on the Eastern Snake Plain and the Eastern Snake Plain Aquifer (ESPA) is the sole source of drinking water for both cities and most rural residents of the Eastern Snake Plain; and WHEREAS, due to numerous factors, including drought, the ESPA has been losing approximately 216,000 acre-feet annually from aquifer storage since the 1950's resulting in declining ground water levels in the aquifer and reduced spring flows to the Snake River; and WHEREAS, the State Water Plan includes a goal to accomplish managed recharge in the ESPA averaging 250,000 acre-feet annually; and WHEREAS, the 2016 Idaho Legislature passed and approved Senate Concurrent Resolution 136 directing the IWRB to develop the capacity to achieve 250,000 acre-feet of annual average managed recharge to the ESPA by December 31, 2024; and WHEREAS, implementation of managed recharge on the ESPA will meet the goals and objectives of stabilizing and improving aquifer levels for, among other things, protecting municipal and domestic drinking water supplies and addressing variability in climatic conditions, including drought; and WHEREAS, the American Rescue Plan Act (ARPA), Pub. L. 117-2 subtitle M (2021), appropriated \$219,800,000,000 to the Coronavirus State and Local Fiscal Recovery Fund (SLFRF) for making payments to the States to mitigate the fiscal effects stemming from the public health emergency with response to the Coronavirus disease; and WHEREAS, the SLFRF funds may be used to, among other things, make necessary investments in water, sewer, or broadband infrastructure. Pub L. 117-2 sec. 602(c)(1)(D), 42 U.S.C. § 802(c)(D); and WHEREAS, eligible uses of the SLFRF include projects that would be eligible to receive financial assistance through the Clean Water State Revolving Fund (CWSRF), 40 CFR Part 35.3100—35.3170, and the Drinking Water State Revolving Fund (DWSRF), 40 CFR 35.3520; and WHEREAS, the CWSRF may be used for groundwater projects that protect and restore aquifers, including aquifer recharge projects; and

WHEREAS, the DWSRF can fund aquifer recharge projects such as aquifer storage and recover

wells and water reuse and recycling projects which can replace and offset potable water use and to

develop new sources of water to increase drought resilience; and

Page 1

38 WHEREAS, in 2022 the Idaho Legislature passed House Bill 769 in which it expressed its intent to 39 set aside approximately \$250,000,000 of ARPA funding to support projects managed by the IWRB, 40 including for the continued identification, study, construction, or enlargement of managed aquifer 41 recharge sites above Milner Dam; and 42 43 WHEREAS, House Bill 769 appropriated \$100,000,000 for Fiscal Year 2023 to support projects 44 managed by the IWRB, including for the continued identification, study, construction, or enlargement of 45 managed aquifer recharge sites above Milner Dam; and 46 47 WHEREAS, Idaho Code § 42-1760 authorizes the IWRB to expend, loan, or grant moneys from the 48 water management account for water projects that conserve or increase water supply, improve drought 49 resiliency, address water sustainability, or support flood management, including the identification, study, 50 and construction of managed aquifer recharge sites above Milner dam; and 51 52 WHEREAS, the IWRB retained Quadrant Consulting, Inc. to conduct a multi-phased investigation of three previously selected sites, Hamer Road, Mud Lake, and Hell's Half Acre Recharge in the Upper 53 54 Valley of the Eastern Snake Plain Aquifer, and was completed on May 26, 2022; and 55 WHEREAS, the Hamer Road Project will contribute to the IWRB goal of achieving 250,000 acre-56 feet of annual average managed recharge to the ESPA by December 31, 2024 and will meet the goals and 57 objectives of stabilizing and improving aquifer levels for, among other things, protecting municipal and 58 59 domestic drinking water supplies and addressing variability in climatic conditions, including drought; and 60 61 WHEREAS, the Upper Valley Eastern Snake Plain Aquifer Recharge Projects Investigation complete 62 by Quadrant Consulting, Inc, developed a high-level estimate on March 18, 2022 of probable design, 63 permitting, and construction cost of \$21,028,000 for the Hamer Road Project. 64 NOW THEREFORE BE IT RESOLVED that the IWRB authorizes expenditures of \$5,000,000 from the 65 66 ARPA State Fiscal Recovery Fund for the development of the Hamer Road Recharge Project. Further 67 authorizations will be required upon determination of total development and construction costs; and 68 69 NOW THEREFORE BE IT FURTHER RESOLVED that the IWRB authorizes its chairman or designee, 70 to execute the necessary agreements or contracts for the purpose of this resolution. 71 DATED this 16th day of September, 2022. Re: Aging Infrastructure Grant Awards

Action: Consider Resolution Authorizing Funding for Aging Infrastructure Grant

During its 2022 session, the Idaho legislature appropriated \$75,000,000 to the IWRB to "be used for expenditures, loans, or grants for water projects, including studies, to address water sustainability, rehabilitate or improve aging water infrastructure or support flood management." H.B. 769, §§ 6, 7. The legislature provided that "no more than one-third of these moneys shall be used for grants", and directed the IWRB to develop criteria, taking into account the public's input for the expenditures of money for grants, which shall be competitive, matching grants that prioritize projects based on the public benefits they provide.

On June 7 the IWRB adopted the aging infrastructure grant criteria which set out the application guidelines, application due date of August 5th and the budget for round one of \$12.5 million.

The IWRB received 31 grant applications requesting approximately \$41 million in funding. These applications were evaluated, scored and ranked by the staff evaluation team according to the criteria adopted by IWRB. The Finance Committee met and discussed the rankings and recommended the IWRB approve grant awards as specified in the attached resolution.

Re: Aging Infrastructure Projects- New Loan Requests

REQUESTED ACTIONS: Approve loan requests for Aging Infrastructure Projects

Background |

On June 7, 2022, The Idaho Water Resource Board (Board) approved criteria for a new Aging Infrastructure Grant (AIG) program. The first application period for the AIG program closed on August 5, 2022, with a number of applicants also requesting a Water Project Loan (WPL) from the Board to support project costs. A brief presentation of each loan request will be given by staff at the Board's upcoming meeting on September 15, 2022. The following table provides an overview of Aging Infrastructure project funding requests; a summary of each WPL request is attached.

Analisant	Dunin st	Total Project	AIG Funds	AIG Funds	WPL Funds
Applicant	Project	Costs	Requested	Recommended	Requested
Falls Irrigation District	Pump station rehabilitation	\$9,095,000.00	\$3,031,600.00	\$200,588.00	\$9,095,000.00
Enterprize Canal Company	Rehabilitation of conveyance systems	\$8,291,597.00	\$2,736,227.00	\$2,736,227.00	\$6,325,083.00
Barber Pool Hydro (Ada County)	Barber Dam bypass rehabilitation project	\$1,651,000.00	\$550,330.00	\$0.00	\$851,000.00
Bannock Feeder Canal	Bannock Feeder diversion replacement	\$885,110.00	\$250,000.00	\$250,000.00	\$585,000.00
Southeast Idaho Canal Company (FMID)	Headgate modernization and automation	\$232,874.00	\$58,200.00	\$58,200.00	\$58,073.25
Cloverdale Ridge Water Corporation	Repair/replacement of delivery system components	\$35,335.00	\$11,661.00	\$0.00	\$36,000.00
Chester Canal & Irrigation Company	Replacement of headgate structure	\$129,238.00	\$29,725.00	\$29,725.00	\$34,894.26
Boise Warms Springs Water District	Repair and replacement of geothermal system	\$3,097,000.00	\$1,032,000.00	\$0.00	\$2,810,000.00
King Hill Irrigation District	Replacement of canal system infrastructure	\$6,154,187.00	\$1,980,259.00	\$1,980,259.00	\$1,500,000.00
Boise Project Board of Control	Lining of New York Canal (Phase 10)	\$7,330,000.00	\$2,418,900.00	\$2,418,900.00	\$0.00
Big Lost River Irrigation District	Mackay Dam Repairs	\$9,082,856.00	\$2,000,000.00	\$2,000,000.00	\$0.00
Nampa-Meridian Irrigation District	Ridenbaugh Canal modernization/automation	\$9,637,000.00	\$3,180,000.00	\$1,820,048.00	\$0.00
North Side Pumping Company #2	Pump plant elimination & canal abandonment	\$4,138,388.00	\$951,800.00	\$951,800.00	\$0.00
Water District 63	Automation of flow monitoring	\$133,883.00	\$30,793.00	\$30,793.00	\$0.00
Dalton Gardens Irrigation District	System improvement study	\$69,000.00	\$23,460.00	\$23,460.00	\$0.00

IN THE MATTER OF THE FALLS IRRIGATION RESOLUTION TO AUTHORIZE LOAN FUNDING FOR REPLACEMENT OF CANAL SYSTEM DISTRICT LOAN REQUEST **INFRASTRUCTURE** WHEREAS, Falls Irrigation District (District) submitted a loan application to the Idaho Water Resource Board (IWRB) in the amount of \$9,095,000 to cover costs for the installation of new pipelines and replacement of canal system infrastructure (Project); and WHEREAS, the District delivers water for approximately 12,621 acres of irrigated lands in Power County, Idaho; and WHEREAS, the Districts system is currently operating on pumps that have passed their service life and are in need of replacement; and WHEREAS, the District requested Aging Infrastructure Grant (AIG) funds from the IWRB in the amount of \$3,061,300, and was ultimately awarded \$200,588; and WHEREAS, the District would like to utilize the AIG grant award towards its project, and reduce the total loan amount requested to \$8,894,500 WHEREAS, the District is a qualified applicant, and the proposed Project is eligible for a loan from the IWRB's Revolving Development Account; and WHEREAS, the proposed Project is in the public interest and is in compliance with the State Water Plan. NOW THEREFORE BE IT RESOLVED that the IWRB approves a loan not to exceed \$8,894,500 from the Revolving Development Account at 3.33% interest with a 20-year repayment term. NOW THEREFORE BE IT FURTHER RESOLVED that the IWRB authorizes its chairman or designee to enter into contracts with the District, to effectuate the loan. NOW THEREFORE BE IT FURTHER RESOLVED that this resolution and the approval of the loan are subject to the following condition:

Prior to the disbursement of any funds, the District shall provide the IWRB with acceptable

documentation demonstrating compliance with all applicable statutory requirements for the

incurrence of debt.

IN THE MATTER OF THE ENTERPRIZE CANAL COMPANY LOAN REQUEST

Resolution No. _____

RESOLUTION TO AUTHORIZE LOAN FUNDING FOR COSTS RELATED TO REHABILITATION OF CONVEYANCE SYSTEMS

Page 1

1	WHEREAS, Enterprise Canal Company (Company) submitted a loan application to the Idaho
2	Water Resource Board (IWRB) in the amount of \$6,325,083 to cover costs for a project to improve aged
3	infrastructure and construct an independent canal system (Project); and
5	WHEREAS, the Company was established in 1910 and delivers water for approximately 5,436
6 7	acres of irrigated lands in both Jefferson and Bonneville County, Idaho; and
8	WHEREAS, the Company's delivery system was washed out in the 1930's, forcing the Company
9	to rely on a neighboring canal company to deliver water; and
10	
11 12	WHEREAS, to Company's agreement for wheeling water is set to expire in 2024; and
13	WHEREAS, the total estimated cost for the Project is approximately \$8,291,600; and
14 15	WHEREAS, the Company requested and has been awarded Aging Infrastructure Grant (AIG)
16	funds from the IWRB in the amount of \$2,736,227; and
17	
18	WHEREAS, the Company would like to utilize the AIG grant award towards its project, and
19	reduce the total loan amount requested to \$3,588,856; and
20	
21 22	WHEREAS, the Company is a qualified applicant, and the proposed Project is eligible for a loan from the IWRB's Revolving Development Account; and
23	
24	WHEREAS, the proposed Project is in the public interest and is in compliance with the State
25	Water Plan.
26	
27	NOW THEREFORE BE IT RESOLVED that the IWRB approves a loan not to exceed \$3,588,856
28	from the Revolving Development Account at 3.33% interest with a 20-year repayment term.
29	
30	NOW THEREFORE BE IT FURTHER RESOLVED that the IWRB provides authority to the Chairman
31 32	of the IWRB, or his designee, to enter into contracts, to effectuate the loan, on behalf of the IWRB.
33	NOW THEREFORE BE IT FURTHER RESOLVED that this resolution and the approval of the loan are
34	subject to the following conditions:
35	
36 37	 The Company shall comply with all applicable rules and regulations that apply to the proposed Project.
51	ргорозей гтојесс.

39 40		loan to the IWRB, including but not limited to its water rights, shareholder assessment income, and the Project infrastructure.
41	3)	·
42		has been satisfied.

IN THE MATTER OF THE CLOVERDALE RIDGE WATER CORPORATION LOAN REQUEST

RESOLUTION TO AUTHORIZE INCREASE OF LOAN FUNDING

1	WHEREAS, Cloverdale Ridge Water Corporation (Corporation) submitted a loan application to
2	the Idaho Water Resource Board (IWRB) in the amount of \$56,615.00 to cover costs for a project to
3	reconfigure its irrigation water supply system (Project); and
4	
5	WHEREAS, the Corporation delivers water for approximately 320 acres of irrigated lands in Ada
6	County near Kuna, Idaho; and
7	
8	WHEREAS, the Corporation's delivery system was originally constructed in the 1970's, and
9	involves pumping ground water from a well into a holding pond for storage and then into convenience
10	lines for irrigation; and
11	
12	WHEREAS, to improve the efficiency of the system and reduce operational costs, the
13	Corporation will eliminate the diversion of water from a storage pond and pump directly from its well
14	into a fully pressurized system, making the necessary upgrades to its pipelines to accommodate the new
15	system; and
16	
17	WHEREAS, the total estimated cost for the Project were originally estimated to be
18	approximately \$57,615; and
19	
20	WHEREAS the Corporation will provide project funding in the amount of \$1000 and has been
21	approved for a \$13,000 energy savings incentive from Idaho Power Company: and
22	
23	WHEREAS improvements to the new system design were determined necessary, increasing the
24	total project costs to approximately \$92,615; and
25	
26	WHEREAS the Corporation is requesting an increase of \$36,000 to its existing loan with the
27	IWRB, for a new total loan amount of \$92,615.
28	
29	NOW THEREFORE BE IT RESOLVED that the IWRB approves a loan not to exceed \$92,615 from
30	the Revolving Development Account at 2.8% interest with a 15-year repayment term.
31	
32	NOW THEREFORE BE IT FURTHER RESOLVED that the IWRB provides authority to the Chairman
33	of the IWRB, or his designee, to enter into contracts, to effectuate the loan, on behalf of the IWRB.
34	
35	NOW THEREFORE BE IT FURTHER RESOLVED that this resolution and the approval of the loan are
36	subject to the following conditions:

39		proposed Project.	
10	2)	Prior to the disbursement of any funds, the	Corporation will provide acceptable security for
11		the loan to the IWRB, including but not limit	ted to its water rights, shareholder assessment
12		income, and the Project infrastructure.	-
13	3)	The Corporation shall maintain a reserve fu	nd equal to one annual loan payment until the
14		loan has been satisfied.	
15
