**Agenda Item No. 2, Water Right No. 37-07842 to Water Supply Bank**

On March 4, 2004, the Idaho Water Resource Board received a request from the North Snake Ground Water District (NSGWD) to place a portion of the Board's Water Right No. 37-07842 into the Idaho Water Supply Bank. The NSGWD asked that 400 cfs of the 800 cfs be made available for rent from the water bank for recharge purposes. The sources of the water are the Big and Little Wood Rivers.

Jim Tucker from Idaho Power Company submitted a letter describing how rental of this right out of the water bank could injure the power company's water rights at downstream.

A long discussion occurred covering the history of the permit, present circumstances prompting this action, and a reasonable rental rate. The Board then took action on a resolution.
