DEPARTMENT OF
WATER RESOURCES

To whom it may concern
my name is Rod Parker I farm in the
Howe Little Lost Basin and I am against
the proposal to Add the upper reach of the
Little Lost Basin to the ESPA.

* Reasons for not including are.

1. There haven't been enough studies on the
Basin to realize the % of the water that
leaks into the Espa.
2. The Basin that you are wanting to include
has 90% of formations are gravel not Basalt
which the Espa consists of.
3. The Springs and wells in this proposed
area does not vary. They are consistent year in and out.
4. When the area for ACGW was included in
the ESPA we the Little Lost Basin did not
have a Public meeting like your having now.

Idaho Code 42-233C

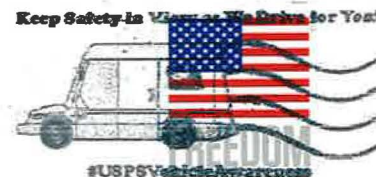

It was an act of our Legislature that did not
tell us what was coming down the pipe!
They did not represent us and let us know.

Rod Parker.
