STIPULATION

This Stipulation is made and entered into among the parties to Snake River Basin Adjudication ("SRBA") subcase nos. 63-33732, 63-33733, 63-33734, 63-33737, 63-33738, and the parties to the appeals and cross-appeals currently pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017 (collectively, "Parties"). The Parties, by and through their counsel of record, hereby stipulate and agree as follows:

- 1. The purpose of this Stipulation is to facilitate and expedite resolution of all disputes among the Parties that have arisen in various judicial and administrative proceedings pertaining to issues of the "fill" and/or "refill" of the storage water rights for on-stream reservoirs in Idaho Department of Water Resources ("Department" or "IDWR") Administrative Basin 63, known as Arrowrock, Anderson Ranch and Lucky Peak Reservoirs ("Boise River Reservoirs"), including but not limited to: SRBA subcase nos. 00-91017, 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738; the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017; and the administrative and judicial proceedings underlying these same appeals and cross-appeals.
- 2. The parties to the appeals and cross-appeals currently pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017 stipulate and agree to jointly support passage of legislation during the 2019 Regular Legislative Session for the purpose of statutorily supporting

¹ The Director of the Idaho Department of Water Resources ("Director") and the Idaho Department of Water Resources ("Department" or "IDWR") are not "parties" to the SRBA, but are parties to the appeals and cross-appeals currently pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017. The Director is included, acting for the Department, as a bound signatory to this Stipulation because the Director is vested with the direction and control of the distribution of water from all natural water sources within a water district pursuant to Idaho Code § 42-602, and is a party to the referenced appeals and cross-appeals.

the "Enactment Remark" set forth in paragraph 3 below. The parties to the appeals and cross appeals currently pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017 agree to support consideration by the Idaho legislature of the proposed legislation in **Attachment A** attached hereto with only those changes to which all Parties have expressly consented in writing.²

3. If the proposed legislation referenced above in paragraph 2 <u>becomes</u> law on or before the adjournment of the 2019 Regular Legislative Session, and with only those changes to which all Parties have expressly consented in writing, the Parties stipulate and agree the remark in the "Priority Date" element of water right no. 63-33734A shall be as follows (the "Enactment Remark"):

This water right is subordinate to all water rights established pursuant to Idaho law for uses within the IDWR Administrative Basin 63, except water rights to store more than 1,000 acre feet of surface water permitted or licensed after April 15, 2019. This water right shall not be administered as subordinate to water rights permitted or licensed for managed ground water recharge after April 15, 2019 or any water rights for the storage or use of water for power purposes.

Alternatively, if the legislation in **Attachment A** <u>does not become</u> law on or before the adjournment of the 2019 Regular Legislative Session, the Parties stipulate and agree the remark in the "Priority Date" element of water right no. 63-33734A shall be as follows (the "Non-Enactment Remark"):

This water right is subordinate to all water rights established pursuant to Idaho law for uses within the IDWR Administrative Basin 63. This water right shall not be administered as subordinate to water rights permitted or licensed for managed ground water recharge after April 15, 2019 or any water rights for the storage or use of water for power purposes.

4. The Parties stipulate and agree that these alternative remarks are set forth in the

² As set forth in paragraphs 3, 4, 5, 6, and 7 of this Stipulation, the Parties have stipulated and agreed to two alternative remarks for the "Priority Date" element of water right no. 63-33734A. The Parties have further stipulated and agreed that the remark to be decreed depends on whether the proposed legislation set forth in **Attachment A** becomes law on or before the adjournment of the 2019 Regular Legislative Session, and with only those changes to which all Parties have expressly consented in writing. The two alternative forms of the partial decree for water right no. 63-33734A are included in **Attachment B** and **Attachment C**. The Parties have further stipulated and agreed that water right no. 63-33734B should be decreed in the form included in **Attachment D** regardless of whether the proposed legislation is approved.

"Enactment Remark" version and "Non-Enactment Remark" version of the two alternative partial decrees for water right no. 63-33734A, which are included in **Attachment B** and **Attachment C**.

- 5. The Parties stipulate and agree that they will support issuance of the "Enactment Remark" version of the partial decree for water right no. 63-33734A if the proposed legislation in **Attachment A** <u>becomes</u> law on or before the adjournment of the 2019 Regular Legislative Session, and with only those changes to which all Parties have expressly consented in writing. The Parties stipulate and agree that they will support issuance of the "Non-Enactment Remark" version of the partial decree for water right no. 63-33734A if the proposed legislation in **Attachment A** <u>does not become</u> law on or before the adjournment of the 2019 Regular Legislative Session.
- 6. The Parties stipulate and agree that they will support issuance of the proposed partial decree for water right no. 63-33734B included in **Attachment D**, and that the partial decree for water right no. 63-33734B is <u>not</u> dependent upon legislative action.
 - 7. The Parties further stipulate and agree to the following:
 - a. No more than seven (7) days after formal execution of this Stipulation by all Parties except the United States,³ the parties to the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017 will file with the Idaho Supreme Court joint motions of the form attached hereto in **Attachment E** that request re-scheduling oral argument of the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017 for the first oral argument setting available after November 30, 2019.
 - b. Within seven (7) days after adjournment of the 2019 Regular Legislative Session or the

³ The United States has informally expressed that it has no objection to the Stipulation, but may not formally execute the Stipulation without authorization from the U.S. Department of Justice.

legislation attached hereto as Attachment A becoming law, and with only those changes to which all Parties have expressly consented in writing, whichever occurs first, the State of Idaho will file in the SRBA "main case" no. 39576 the following motions, which all Parties stipulate and agree to support as a full and final resolution of SRBA water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-337384:

- i. a motion to decree water right no. 63-33734B and to decree as disallowed water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738 of the form set forth in Attachment D; and
- ii. a motion to alter or amend the partial decrees for water rights nos. 63-303, 63-3613, 63-3614, and 63-3618 of the form set forth in Attachment F, requesting that the partial decrees be modified to include in their "Quantity" elements the following combined volume limit condition, and in their "Other Provisions" elements the following "reset" condition:
 - a. Combined Volume Limit Condition: Water rights nos. 63-303, 63-3613, 63-3614, 63-3618, 63-33734A, and 63-33734B, are limited to the total combined annual diversion volume necessary to allocate a total of 1,044,011 acre-feet of storage water per year to the consumers or users of the storage water.
 - b. Reset Condition: The annual time period for accruing natural flow to the onstream reservoir storage water rights in IDWR Administrative Basin 63 will be determined by the Watermaster as supervised by the Director of the Department of Water Resources; provided, however, the annual time period will begin (1) after the day of allocation and when there is no natural flow

⁴ A copy of this Stipulation (including the Attachments) will be appended to the motions to be filed in the SRBA.

- available to water rights junior in priority to January 12, 1911, and (2) before natural flow has again become available to water rights junior in priority to January 12, 1911, or on November 1, whichever is earlier; and
- iii. a motion to decree water right no. 63-33734A, of the form set forth in either

 Attachment B or Attachment C, depending on whether the proposed legislation set forth in Attachment A <u>becomes</u> law on or before the adjournment of the 2019

 Regular Legislative Session, and with only those changes to which all Parties have expressly consented in writing:
 - a. if the proposed legislation set forth in **Attachment A** <u>becomes</u> law on or before the adjournment of the 2019 Regular Legislative Session, and with only such changes to which the Parties have expressly consented in writing, then the State will file and the Parties will support a motion to decree water right no. 63-33734A of the form set forth in **Attachment B**;
 - b. alternatively, if the proposed legislation set forth in **Attachment A** <u>does not</u>

 <u>become</u> law on or before the adjournment of the 2019 Regular Legislative

 Session, and with only such changes to which the Parties have expressly

 consented in writing, then the State will file and the Parties will support a

 motion to decree water right no. 63-33734A of the form set forth in
- 8. In supporting the issuance of the partial decree for water right no. 63-33734B as set forth in **Attachment D**, the Parties agree the annual volume defined in the quantity element of that partial decree does not constitute an admission by any Party or a finding by the Court of the number of acres entitled to receive storage water from the Boise River Reservoirs.

Attachment C.

- 9. The Parties stipulate and agree that they will not seek any changes in the proposed partial decrees included in **Attachments B**, **C**, or **D**, or the proposed legislation set forth in **Attachment A**, without having first obtained the express written consent of all the Parties to the change(s) sought.
- 10. The Parties stipulate and agree that they will not object to or appeal the SRBA Court's issuance of partial decrees for water right nos. 63-33734A and 63-33734B that are materially consistent with the motions filed pursuant to paragraph 7.b.i and 7.b.iii above, and any additional or subsequent express written agreement of the Parties.
- 11. The Parties stipulate and agree that they will not object to or appeal the decrees of disallowance of water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-337378 entered by the SRBA Court in accordance with the motion filed pursuant to paragraph 7.b.i above.
- 12. The Parties stipulate and agree that they will not object to or appeal the SRBA Court's amendment of the partial decrees for water rights nos. 63-303, 63-3613, 63-3614, and 63-3618 in accordance with the motion filed pursuant to paragraph 7.b.ii above. The Parties also stipulate and agree they will not seek any other amendments of the partial decrees for water rights nos. 63-303, 63-3613, 63-3614, and 63-3618 other than those described above in paragraph 7.b.ii without having first obtained the express written consent of all the Parties to the amendment(s) or change(s) sought.
- 13. If the SRBA Court issues partial decrees for water right nos. 63-33734A and 63-33734B on or before November 30, 2019 that are materially consistent with the motions filed by the State pursuant to paragraph 7.b.i and 7.b.iii above, the parties to the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017 will file with the Idaho Supreme Court, within seven (7) days of the issuance of the partial decrees for water right nos. 63-33734A and 63-33734B, joint motions of the form attached hereto in **Attachment G** that request immediate dismissal of the appeals and cross-appeals pending under Idaho Supreme Court docket

nos. 44677-2016, 44745-2017, and 44746-2017 with instructions to the Twin Falls County District Court to vacate its *Memorandum Decision and Order* (Sep. 1, 2016) and *Order Denying Rehearing* (Nov. 14, 2016), Case no. CV-WA-2015-21376 (Consolidated Ada County Case No. CV-2015-21391).

- 14. If the SRBA does <u>not</u> issue partial decrees for water right nos. 63-33734A and 63-33734B on or before November 30, 2019 that are materially consistent with the motions filed by the State pursuant to paragraph 7.b.i and 7.b.iii above, this Stipulation will become null and void and no longer binding, with all Parties retaining all of their rights, positions, and arguments with respect to the disputes referenced in paragraph 1 above; with the sole exception that if the SRBA does <u>not</u> issue partial decrees for water right nos. 63-33734A and 63-33734B on or before November 30, 2019 that are materially consistent with the motions filed by the State pursuant to paragraph 7.b.i and 7.b.iii above, the Parties stipulate and agree that oral argument of the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017 will occur during the first available setting after November 30, 2019 or such other date previously set by the Idaho Supreme Court, and that none of the Parties may seek suspension, stay, continuance, or dismissal of the appeals, cross-appeals, or oral argument thereon.
- 15. The Parties stipulate and agree that the Department will continue to account for the distribution of water to water rights in Water District 63 as described in the Director's *Amended Final Order* issued on October 20, 2015, in the Contested Case that was the subject of the judicial review proceedings in Case No. CV-WA-2015-21376 (Consolidated Ada County Case No.CV-WA-2015-21391). The Parties stipulate and agree that they will not challenge or object to the Department's use of the Water District 63 water right accounting system to distribute water to water rights in Water District 63 as described in, and consistent with, the Director's *Amended Final Order*. With the

exception of these limitations, the Parties stipulate and agree that SUEZ Water Idaho Inc. and the irrigation organizations bound by this Stipulation reserve their rights under Idaho law to otherwise challenge or object to the distribution of water to water rights in Water District 63.

- 16. The Parties stipulate and agree that upon issuance of the partial decrees for water right nos. 63-33734A and 63-33734B, the Department will update the Water District 63 water right accounting system to account for the distribution of water to water right nos. 63-33734A and 63-33734B consistent with their partial decrees. The Department will provide the Parties, the Water District 63 Advisory Committee, the Water District 63 Watermaster, and all water right holders in Water District 63 with notice of, and an opportunity to submit comments on, the proposed updates to the accounting system. Any aggrieved Parties may request a contested case on these matters, but such a contested case will be limited to preclude raising any issues raised or addressed in the Contested Case that was the subject of the judicial review proceedings in Case No. CV-WA-2015-21376 (Consolidated Ada County Case No.CV-WA-2015-21391).
- 17. For all future material modifications of the Water District 63 water right accounting system IDWR will provide notice and an opportunity to comment on the change(s). Any party aggrieved by the Director's action in making a material modification has the right to request a contested case in accordance with Idaho Code § 42-1701A and the provisions and standards set forth in chapter 52, title 67, Idaho Code.
- 18. The Parties stipulate and agree that the Department will update the Water District 63 water right accounting system to account for the distribution of water pursuant to conditions on water rights authorizing diversions when the Boise River below Lucky Peak Dam is "on flood release."
- 19. No provision of this Stipulation shall be construed to modify or require the United States to change the reservoir operating plan as defined in the November 20, 1953 Memorandum of

Agreement Between the Department of the Army and the Department of the Interior for Flood Control Operation of Boise River Reservoirs, Idaho (hereinafter "MOA") and the 1985 Memorandum of Understanding for Confirmation, Ratification, and Adoption of the Water Control Manual—Boise River Reservoirs, Boise, Idaho (hereinafter "Manual"). No provision of this Stipulation shall modify the rights or obligations of the United States or the Arrowrock, Anderson Ranch, and Lucky Peak spaceholders pursuant to the MOA and Manual, federal law or contracts between the United States and the spaceholders. No provision of this Stipulation shall be construed to bind the State of Idaho to the MOA or Manual or to require the Director or the Department to distribute water pursuant to the MOA or Manual.

- 20. Nothing in this Stipulation or its Attachments limits the Attorney General from developing or providing legal opinions as authorized by Idaho law.
- 21. Nothing in this Stipulation, including the stipulated entry of partial decrees or other evidence or pleading submitted or relied upon for approval of the Stipulation, or any offers or compromises made in the course of negotiating the Stipulation, shall be construed as admissions against interest or used as evidence to support or oppose any party's claims or objections in the SRBA, in any other water rights adjudication, or in any administrative proceedings before the Department, other than those for interpretation, enforcement or administration of the Stipulation or the partial decrees or for a purpose contemplated by Rule 408.
- 22. Each of the undersigned represent that they are authorized to execute this Stipulation on behalf of the entity they represent.
- 23. Nothing in this Stipulation shall be construed as creating liability against the United States, the State of Idaho or any of its agencies for any claims related to or arising from flood control operations.

- 24. This Stipulation may be executed in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same agreement.
- 25. This Stipulation shall become effective and binding on all Parties except the United States upon execution by all signatories except the United States. This Stipulation shall become effective and binding on the United States upon execution by the United States.

AN ACT

RELATING TO WATER; AMENDING CHAPTER 1, TITLE 42, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 42-115, IDAHO CODE, TO PROVIDE THAT THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES SHALL SUBORDINATE PERMITS AND LICENSES FOR CERTAIN PROJECTS ISSUED AFTER A SPECIFIED DATE TO THE CAPTURE AND RETENTION OF WATER IN EXISTING ON-STREAM STORAGE RESERVOIRS DURING AND FOLLOWING FLOOD CONTROL OPERATIONS UNTIL THE DATE OF ALLOCATION; AND DECLARING AN EMERGENCY.

Be It Enacted by the Legislature of the State of Idaho:

SECTION 1. That Chapter 1, Title 42, Idaho Code, be, and the same is hereby amended by the addition thereto of a <u>NEW SECTION</u>, to be known and designated as Section 42-115, Idaho Code, and to read as follows:

42-115. STORAGE. To ensure that new or proposed projects to store more than one thousand (1,000) acre feet of surface water do not interfere with the storage of water in existing on-stream storage reservoirs operated for storage and flood control purposes, the director of the department of water resources shall subordinate permits and licenses for projects to store more than one thousand (1,000) acre feet of surface water issued after the effective date of this section to the capture and retention of water in existing on-stream storage reservoirs during and following flood control operations until the date of allocation.

SECTION 2. An emergency existing therefor, which emergency is hereby declared to exist, this act shall be in full force and effect on and after its passage and approval.

Attorneys for the State of Idaho

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA)) MOTION TO DECREE) WATER RIGHT NO. 63-33734	4A
Case No. 39576)	

MOTION

The State of Idaho ("State"), by and through its attorneys of record, pursuant to Administrative Order 1, the Idaho Rules of Civil Procedure, and the "Stipulation" appended hereto as **Exhibit 1** ("Stipulation"), hereby moves this Court for an order issuing a partial decree for water right no. 63-33734A in the form attached hereto as **Exhibit 2**.

DISCUSSION

The parties to SRBA subcase nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738, and the parties to the appeals and cross-appeals currently pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017, have entered into a Stipulation for the purpose of facilitating and expediting resolution of disputes that have arisen in various judicial and administrative proceedings pertaining to issues of the "fill" and/or "refill" of the storage water rights for the on-stream reservoirs in IDWR Administrative Basin 63 (Boise River Basin), including but not limited to: the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017; the administrative and judicial proceedings underlying these same appeals and cross-appeals; and Snake River Basin Adjudication ("SRBA") subcase nos. 00-91017, 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738. *See* Exhibit 1.

The parties have agreed to seek issuance in the SRBA of partial decrees for water right nos. 63-33734A and water right no. 63-33734B of the forms proposed by this motion and the concurrently filed motion to decree water right no. 63-33734B.¹ The parties have also agreed to seek orders decreeing as disallowed water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738.

Under the Stipulation, the form of the proposed partial decree for water right no.

¹ Pursuant to the Stipulation, the State is also filing on this date: (1) a motion for an order issuing a partial decree for water right no. 63-33734B and decreeing as disallowed water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738; and (2) a motion to alter or amend the partial decrees for water right nos. 63-303, 63-3613, 63-3614, and 63-3618.

63-33734A to be submitted to this Court depended on whether certain legislation was enacted during the 2019 Regular Legislative Session. *See* Exhibit 1. That legislation has been enacted, and the State therefore moves this Court for an order issuing a partial decree for water right no. 63-33734A of the form appended hereto as Exhibit 2.

If this Court issues partial decrees for water right nos. 63-33734A and 63-33734B that are materially consistent with the forms of proposed partial decrees appended to the motions filed by the State pursuant to the Stipulation, the parties have agreed to jointly move the Idaho Supreme Court for dismissal of the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017, with instructions to this Court to vacate the orders that are the subject of the appeals and cross-appeals. If this Court does not issue partial decrees materially consistent with the partial decrees proposed by the State pursuant to the Stipulation, the parties have agreed the appeals and cross-appeals will proceed to oral argument on the first available date after November 30, 2019. *See* Exhibit 1.²

For this reason, time is of the essence and the State therefore requests expeditious consideration of this motion, so that it can be noticed, any potential objections resolved, and a partial decree issued, no later than November 30, 2019. *See* **Exhibit 1**. Because this motion is related to the concurrently-filed motions required by the Stipulation,³ all of

MOTION TO DECREE WATER RIGHT NO. 63-33734A - 3

² The Idaho Supreme Court has granted motions to suspend the appeals and reschedule oral argument on the appeals and cross-appeals for the first available setting after November 30, 2019.

³ See supra note 1.

the motions should be noticed and considered together. It is for this reason that the motions are being filed in the "main" SRBA case (case no. 39576) rather than in individual subcases only.

CONCLUSION

For the reasons discussed herein and in the Stipulation appended hereto under **Exhibit 1**, the State respectfully requests that this Court enter an order issuing a partial decree for water right no. 63-33734A of the form appended hereto as **Exhibit 2**.

Water rights nos. 63-33734A, 63-303, 63-3613, 63-3614, 63-3618, and 63-33734B, are limited to the total combined annual diversion volume necessary to allocate a total of $1,044,011\,\mathrm{acre-feet}$ of storage water per year to the consumers or users of the storage water.

PRIORITY DATE:

9/30/1965

This water right is subordinate to all water rights established pursuant to Idaho law for uses within the IDWR Administrative Basin 63, except water rights to store more than 1,000 acre feet of surface water permitted or licensed after April 15, 2019. This water right shall not be administered as subordinate to water rights permitted or licensed for managed ground water recharge after April 15, 2019 or any water rights for the storage or use of water for power purposes.

STREAMFLOW MAINTENANCE	01/01 12/31	3,672,732.00 AFY

Water accruing to this water right supplements water accrued under water right nos. 63-303, 63-3613, 63-3614, and 63-3618. Water physically stored in any Boise River Reservoir under this water right on the day of allocation will be allocated for storage end uses as provided in the contracts entered into between the United States and federal contractors referenced in paragraph 2 below as if it had accrued under water right nos. 63-303, 63-3613, 63-3614, and 63-3618.

PLACE OF USE:

Place of use is on those lands identified under water right nos. 63-303, 63-3613, 63-3614, and 63-3618.

Water accruing under this right may be stored in Lucky Peak, Arrowrock, or Anderson Ranch Reservoirs, so long as the water is tributary to that reservoir, when determined by the United States and the Water District 63 Watermaster as supervised by the Director of the Department of Water Resources that such storage will maximize the storage of water in the three reservoirs.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or

percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.

- 2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in Arrowrock, Anderson Ranch, and Lucky Peak Reservoirs shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors; provided, however, in the event flood control operations result in irrigation entities with contracts for space in Arrowrock, Anderson Ranch, and Lucky Peak Reservoirs, having less storage than they would otherwise, then the first 60,000 acrefeet of any shortfalls caused by flood control operations will come from uncontracted space in Lucky Peak Reservoir used for streamflow maintenance purposes. The Water District 63 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute stored water in accordance with the allocation instructions from the United States Bureau of Reclamation.
- 3. The storage rights in Lucky Peak Reservoir, which consist of water right nos. 63-3618, and 63-33734A, and 63-33734B, are subject to the flood evacuation provisions which supplement irrigation storage contracts held in Anderson Ranch and Arrowrock Reservoirs as defined by supplemental contracts with the Bureau of Reclamation. This acknowledgement relieves the right holder from seeking a temporary change in purpose of use to meet these obligations.
- 4. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as determined by the Court upon entry of a final unified decree as it may be amended. Section 42-1412(6). Idaho Code.
- The exercise and administration of this water right is subject to the terms and conditions of the Stipulation effective _XX/XX_, 2018, which is incorporated herein by reference.
- 6. The annual time period for accruing natural flow to the on-stream reservoir storage water rights in IDWR Administrative Basin 63 will be determined by the Watermaster as supervised by the Director of the Department of Water Resources; provided however, the annual time period will begin (1) day after the day of allocation and when there is no natural flow available to water rights junior in priority to January 12, 1911, and (2) before natural flow has again become available to water rights junior in priority to January 12, 1911, or on November 1, whichever is earlier.
- 7. Nothing in this water right shall change the legal effect of the condition on certain water rights expressly limiting those water rights to diverting water when the Boise River is on flood release below Lucky Peak.
- 8. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended.

Attorneys for the State of Idaho

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA)	MOTION TO DECREE
Case No. 39576)	WATER RIGHT NO. 63-33734A
)	

MOTION

The State of Idaho ("State"), by and through its attorneys of record, pursuant to Administrative Order 1, the Idaho Rules of Civil Procedure, and the "Stipulation" appended hereto as **Exhibit 1** ("Stipulation"), hereby moves this Court for an order issuing a partial decree for water right no. 63-33734A in the form attached hereto as **Exhibit 2**.

DISCUSSION

The parties to SRBA subcase nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738, and the parties to the appeals and cross-appeals currently pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017, have entered into a Stipulation for the purpose of facilitating and expediting resolution of disputes that have arisen in various judicial and administrative proceedings pertaining to issues of the "fill" and/or "refill" of the storage water rights for the on-stream reservoirs in IDWR Administrative Basin 63 (Boise River Basin), including but not limited to: the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017; the administrative and judicial proceedings underlying these same appeals and cross-appeals; and Snake River Basin Adjudication ("SRBA") subcase nos. 00-91017, 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738. See Exhibit 1.

The parties have agreed to seek issuance in the SRBA of partial decrees for water right nos. 63-33734A and water right no. 63-33734B of the forms proposed by this motion and the concurrently filed motion to decree water right no. 63-33734B. The parties have also agreed to seek orders decreeing as disallowed water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738.

Under the Stipulation, the form of the proposed partial decree for water right no.

-

¹ Pursuant to the Stipulation, the State is also filing on this date: (1) a motion for an order issuing a partial decree for water right no. 63-33734B and decreeing as disallowed water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738; and (2) a motion to alter or amend the partial decrees for water right nos. 63-303, 63-3613, 63-3614, and 63-3618.

63-33734A to be submitted to this Court depended on whether certain legislation was enacted during the 2019 Regular Legislative Session. *See* Exhibit 1. That legislation has *not* been enacted, and the State therefore moves this Court for an order issuing a partial decree for water right no. 63-33734A of the form appended hereto as Exhibit 2.

If this Court issues a partial decree for water right no. 63-33734A that is materially consistent with the proposed partial decree appended hereto as **Exhibit 2**, and also issues a partial decree for water right no. 63-33734B that is materially consistent with the form of proposed partial decree appended to the motion to decree water right no. 63-33734B, the parties have agreed to jointly move the Idaho Supreme Court for dismissal of the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017, with instructions to this Court to vacate the orders that are the subject of the appeals and cross-appeals. If this Court does not issue partial decrees materially consistent with the partial decrees proposed by the State pursuant to the Stipulation, the parties have agreed the appeals and cross-appeals will proceed to oral argument on the first available date after November 30, 2019. *See* **Exhibit 1**.²

For this reason, time is of the essence and the State therefore requests expeditious consideration of this motion, so that it can be noticed, any potential objections resolved, and a partial decree issued, no later than November 30, 2019. *See* Exhibit 1. Because

² The Idaho Supreme Court has granted motions to suspend the appeals and reschedule oral argument on the appeals and cross-appeals for the first available setting after November 30, 2019.

this motion is related to the concurrently-filed motions required by the Stipulation,³ all of the motions should be noticed and considered together. It is for this reason that the motions are being filed in the "main" SRBA case (case no. 39576) rather than in individual subcases only.

CONCLUSION

For the reasons discussed herein and in the Stipulation appended hereto under **Exhibit 1**, the State respectfully requests that this Court enter an order issuing a partial decree for water right no. 63-33734A of the form appended hereto as **Exhibit 2**.

Water accruing to this water right supplements water accrued under water right nos. 63-303, 63-3613, 63-3614, and 63-3618. Water physically stored in any Boise River Reservoir under this water right on the day of allocation will be allocated for storage end uses as provided in the contracts entered into between the United States and federal contractors referenced in paragraph 2 below as if it had accrued under water right nos. 63-303, 63-3613, 63-3614, and 63-3618.

PLACE OF USE:

Place of use is on those lands identified under water right nos. 63-303, 63-3613, 63-3614, and 63-3618.

Water accruing under this right may be stored in Lucky Peak, Arrowrock, or Anderson Ranch Reservoirs, so long as the water is tributary to that reservoir, when determined by the United States and the Water District 63 Watermaster as supervised by the Director of the Department of Water Resources that such storage will maximize the storage of water in the three reservoirs.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.

- 2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in Arrowrock, Anderson Ranch, or Lucky Peak Reservoirs shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors; provided, however, in the event flood control operations result in irrigation entities with contracts for space in Arrowrock, Anderson Ranch, or Lucky Peak Reservoirs, having less storage than they would otherwise, then the first 60,000 acre-feet of any shortfalls caused by flood control operations will come from uncontracted space in Lucky Peak Reservoir used for streamflow maintenance purposes. The Water District 63 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute stored water in accordance with the allocation instructions from the United States Bureau of Reclamation.
- 3. The storage rights in Lucky Peak Reservoir, which consist of water right nos. 63-3618, and 63-33734A, and 63-33734B, are subject to the flood evacuation provisions which supplement irrigation storage contracts held in Anderson Ranch and Arrowrock Reservoirs as defined by supplemental contracts with the Bureau of Reclamation. This acknowledgement relieves the right holder from seeking a temporary change in purpose of use to meet these obligations.
- 4. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as determined by the Court upon entry of a final unified decree as it may be amended. Section 42-1412(6), Idaho Code.
- The exercise and administration of this water right is subject to the terms and conditions of the Stipulation effective _XX/XX_, 2018, which is incorporated herein by reference.
- 6. The annual time period for accruing natural flow to the on-stream reservoir storage water rights in IDWR Administrative Basin 63 will be determined by the Watermaster as supervised by the Director of the Department of Water Resources; provided however, the annual time period will begin (1) day after the day of allocation and when there is no natural flow available to water rights junior in priority to January 12, 1911, and (2) before natural flow has again become available to water rights junior in priority to January 12, 1911, or on November 1, whichever is earlier.
- 7. Nothing in this water right shall change the legal effect of the condition on certain water rights expressly limiting those water rights to diverting water when the Boise River is on flood release below Lucky Peak.
- 8. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended.

) AND 63-33738
)

MOTION

The State of Idaho ("State"), by and through its attorneys of record, pursuant to Administrative Order 1, the Idaho Rules of Civil Procedure, and the "Stipulation" appended hereto as **Exhibit 1** ("Stipulation"), hereby moves this Court for: (1) an order rescinding this Court's order recommitting to the Special Master water right claim nos. 63-

33732, 63-33733, 63-33734, 63-33737, and 63-33738¹; (2) an order issuing a partial decree for water right no. 63-33734B in the form attached hereto as **Exhibit 2**; and (3) orders decreeing as disallowed water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738.

DISCUSSION

The parties to SRBA subcase nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738, and the parties to the appeals and cross-appeals currently pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017, have entered into a Stipulation for the purpose of facilitating and expediting resolution of disputes that have arisen in various judicial and administrative proceedings pertaining to issues of the "fill" and/or "refill" of the storage water rights for the on-stream reservoirs in IDWR Administrative Basin 63 (Boise River Basin), including but not limited to: the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017; the administrative and judicial proceedings underlying these same appeals and cross-appeals; and Snake River Basin Adjudication ("SRBA") subcase nos. 00-91017, 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738. *See* Exhibit 1.

The parties have agreed to seek issuance in the SRBA of partial decrees for water right nos. 63-33734A and water right no. 63-33734B of the forms proposed by this

MOTION TO DECREE WATER RIGHT No. 63-33734B and Disallow Water Right Claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738-2

¹ Memorandum Decision and Order on Challenge and Order of Recommitment to Special Master, Subcase Nos. 63-33732 (consolidated subcase no. 63-33737), 63-33733 (consolidated subcase no. 63-33738), and 63-33734 (Sep. 1, 2016).

motion and the concurrently filed motion to decree water right no. 63-33734A.² The parties have also agreed to seek orders decreeing as disallowed water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738. *See* Exhibit 1.

If this Court issues partial decrees for water right nos. 63-33734A and 63-33734B that are materially consistent with the forms of proposed partial decrees appended to the motions filed by the State pursuant to the Stipulation, the parties have agreed to jointly move the Idaho Supreme Court for dismissal of the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017, with instructions to this Court to vacate the orders that are the subject of the appeals and cross-appeals. If this Court does not issue partial decrees materially consistent with the partial decrees proposed by the State pursuant to the Stipulation, the parties have agreed the appeals and cross-appeals will proceed to oral argument on the first available date after November 30, 2019. *See* Exhibit 1.³

For this reason, time is of the essence and the State therefore requests expeditious consideration of this motion, so that it can be noticed, any potential objections resolved, and a partial decree issued, no later than November 30, 2019. *See* Exhibit 1. Because this motion is related to the concurrently-filed motions required by the Stipulation,⁴ all of

_

² Pursuant to the Stipulation, the State is also filing on this date: (1) a motion for an order issuing a partial decree for water right no. 63-33734A; and (2) a motion to alter or amend the partial decrees for water right nos. 63-303, 63-3613, 63-3614, and 63-3618.

³ The Idaho Supreme Court has granted motions to suspend the appeals and reschedule oral argument on the appeals and cross-appeals for the first available setting after November 30, 2019.

⁴ See supra note 2.

the motions should be noticed and considered together. It is for this reason that the motions are being filed in the "main" SRBA case (case no. 39576) rather than in individual subcases only.

CONCLUSION

For the reasons discussed herein and in the Stipulation appended hereto under **Exhibit 1**, the State respectfully requests that this Court enter orders: (1) rescinding this Court's order recommitting to the Special Master water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738; (2) issuing a partial decree for water right no. 63-33734B of the form appended hereto as **Exhibit 2**; and (3) decreeing as disallowed water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738.

TRIBUTARY: SNAKE RIVER

OUANTITY:

587,056.00 AFY

Water rights nos. 63-33734B, 63-303, 63-3613, 63-3614, 63-3618, and 63-33734A are limited to the total combined annual diversion volume necessary to allocate a total of 1,044,011 acre-feet of storage water per year to the consumers or users of the storage water.

This water right may be exercised only to replace water released for flood control purposes, as determined by the Water District 63 watermaster, supervised by the director of the Department of Water Resources. In determining the timing, duration, and magnitude of flood control releases for the purpose of administering this water right and distributing natural flow in accordance with state law, the watermaster as supervised by the Director will consider, but will not be bound by, the November 20, 1953, "Memorandum of Agreement Between the Department of the Army and the Department of the Interior for Flood Control Operation of Boise River Reservoirs, Idaho" (hereinafter "MOA") and the 1985 "Memorandum of Understanding for Confirmation, Ratification, and Adoption of the Water Control Manual-Boise River Reservoirs, Boise, Idaho" (hereinafter "Manual"). The watermaster as supervised by the Director may also consider, but will not be bound by, the United States' determinations of the purposes for which water is being released from Lucky Peak Dam. The watermaster as supervised by the Director may also consider any other information the Director deems relevant.

The watermaster's determinations, as supervised by the director, of the timing, duration, and magnitude of flood control releases shall not affect or bind the United States' determinations, authority, or discretion under federal law for purposes of operating its reservoirs for flood control purposes in accordance with the 1946 Flood Control Act, 60 Stat 641, as amended or supplemented, and the MOA and Manual as they may be revised pursuant to the forgoing law.

Water will not accrue towards the satisfaction of this water right until the United States of America, acting through the Bureau of Reclamation, has notified the Water District 63 watermaster of the calendar date on which it intends to store water pursuant to this water right. Following initial notification, the United States can provide notification directing the Water District 63 Watermaster to stop and start the accrual of water pursuant to this water right, until the water right has been satisfied. All notifications must be made in writing. Each notification must identify the specific calendar date on which administrative action should occur. The identified calendar date cannot predate the date of written notification.

Water accruing to this water right supplements water accrued under water right nos. 63-303, 63-3613,63-3614, 63-3618. Water physically stored in any Boise River Reservoir under this water right on the day of allocation will be allocated for storage end uses as provided in contracts entered into between the United States and federal contractors referenced in paragraph 2 below as if it had accrued under water right nos. 63-303, 63-3613,63-3614, and 63-3618.

PLACE OF USE:

Place of use is on those lands identified under water right nos. 63-303, 63-3613, and 63-3614, and 63-3618.

Water accruing under this right may be stored in Lucky Peak, Arrowrock, or Anderson Ranch Reservoirs, so long as the water is tributary to that reservoir, when determined by the United States and the Water District 63 Watermaster as supervised by the Director of the Department of Water Resources that such storage will maximize the storage of water in the three reservoirs.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

- 1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.
- 2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in Arrowrock, Anderson Ranch, and Lucky Peak Reservoirs shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors; provided, however, in the event flood control operations result in irrigation entities with contracts for space in Arrowrock, Anderson Ranch, and Lucky Peak Reservoirs, having less storage than they would otherwise, then the first 60,000 acrefeet of any shortfalls caused by flood control operations will come from uncontracted space in Lucky Peak Reservoir used for streamflow maintenance purposes. The Water District 63 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute stored water in accordance with the allocation instructions from the United States Bureau of Reclamation.
- 3. The storage rights in Lucky Peak Reservoir, which consist of water right nos. 63-3618, and 63-33734A, and 63-33734B, are subject to the flood evacuation provisions which supplement irrigation storage contracts held in Anderson Ranch and Arrowrock Reservoirs as defined by supplemental contracts with the Bureau of Reclamation. This acknowledgement relieves the right holder from seeking a temporary change in purpose of use to meet these obligations.
- 4. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as determined by the Court upon entry of the final unified decree as it may be amended. Section 42-1412(6), Idaho Code.
- 5. This water right is subordinate to the following water rights:
 - a. All surface water rights within IDWR Administrative Basin 63 with a priority date earlier than May 1, 2014, with a decreed or licensed diversion rate of less than 0.1 CFS:
 - b. All water rights listed on attachment A.
- The exercise and administration of this water right is subject to the terms and conditions of the Stipulation effective _XX/XX_, 2018, which is incorporated herein by reference.
- 7. The annual time period for accruing natural flow to the on-stream reservoir storage water rights in IDWR Administrative Basin 63 will be determined by the Watermaster as supervised by the Director of the Department of Water Resources; provided however, the annual time period will begin (1) day after the day of allocation and when there is no natural flow available to water rights junior in priority to January 12, 1911, and (2)

- before natural flow has again become available to water rights junior in priority to January 12, 1911, or on November 1, whichever is earlier.
- 8. Nothing in this water right shall change the legal effect of the condition on certain water rights expressly limiting those water rights to diverting water when the Boise River is on flood release below Lucky Peak.
- 9. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended.

JOINT MOTION TO SUSPEND APPEAL AND RESET ORAL ARGUMENT

STIPULATION ATTACHMENT E – MOTION TO RESET ORAL ARGUMENT

SOUTH BOISE WATER COMPANY; and THURMAN MILL DITCH COMPANY,

Respondents,

vs.

BOISE PROJECT BOARD OF CONTROL, and NEW YORK IRRIGATION DISTRICT,

Respondents,

vs.

THE IDAHO DEPARTMENT OF WATER RESOURCES and GARY SPACKMAN, in his capacity as the Director of the Idaho Department of Water Resources,

Appellants,

and

SUEZ WATER IDAHO, INC.,

Respondent.

The parties to the above-captioned appeal hereby jointly move this Court, pursuant to Rule 13.2 of the Idaho Appellate Rules, to suspend this appeal and reset oral argument to the first setting available after November 30, 2019. As discussed below, there is good cause for granting this relief because the parties have agreed to a settlement that if implemented in accordance with the terms of the parties' settlement stipulation would render this appeal moot, and the parties would jointly move for dismissal of this appeal. Otherwise the appeal would proceed to oral argument on the first date available after November 30, 2019.

Statement in Support of Motion to Suspend Appeal

STIPULATION ATTACHMENT E - MOTION TO RESET ORAL ARGUMENT

The parties to the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017 have entered into a stipulation for the purpose of facilitating and expediting resolution of disputes that have arisen in various judicial and administrative proceedings pertaining to issues of the "fill" and/or "refill" of the storage water rights for the on-stream reservoirs in IDWR Administrative Basin 63 (Boise River Basin), including but not limited to: the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017; the administrative and judicial proceedings underlying these same appeals and cross-appeals; and Snake River Basin Adjudication ("SRBA") subcase nos. 00-91017, 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738.

The parties have agreed to seek issuance in the SRBA of partial decrees and orders to implement the proposed settlement, and the form of one of the proposed partial decrees to be submitted to the SRBA Court depends on whether certain legislation is enacted during the 2019 Regular Legislative Session. If the SRBA district court issues partial decrees materially consistent with the proposed partial decrees the parties have agreed to submit to the SRBA district court, the parties have agreed to jointly move this Court for dismissal of the appeals and cross-appeals with instructions to the District Court to vacate the orders that are the subject of the appeals and cross-appeals. If the SRBA district court does not issue partial decrees materially consistent with the partial decrees to be submitted to the SRBA district court, the parties have agreed the appeals and cross-appeals will proceed to oral argument on the first date available after November 30, 2019.

The settlement contemplated by the parties' stipulation thus depends in part on whether

STIPULATION ATTACHMENT E – MOTION TO RESET ORAL ARGUMENT

on whether certain legislation is enacted during the 2019 Regular Legislative Session. The

parties therefore request that the appeals and cross-appeals be suspended and oral argument

rescheduled for the first available setting after November 2019. If the settlement is successfully

implemented in accordance with the terms of the parties' stipulation, the appeals and cross-

appeals would be rendered moot and the parties would jointly move for dismissal of the appeals

and cross-appeals. If the settlement is not successfully implemented in accordance with the terms

of the stipulation, the appeals and cross-appeals would proceed to oral argument on the first

available date after November 30, 2019.

For these reasons, the parties respectfully submit there is good cause to grant this motion,

and respectfully request that this Court suspend this appeal and reschedule oral argument for the

first setting available after November 30, 2019.

Respectfully submitted this day of June, 2018.

Attorneys for the State of Idaho

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

)	
)	MOTION TO ALTER OR AMEND
)	PARTIAL DECREES FOR WATER
)	RIGHT NOS. 63-303, 63-3613, 63-3614,
)	and 63-3618
)

MOTION

The State of Idaho ("State"), by and through its attorneys of record, pursuant to Administrative Order 1 and Rule 60(b)(6) of the Idaho Rules of Civil Procedure, and the "Stipulation" appended hereto as **Exhibit 1**, hereby moves this Court to alter or amend the partial decrees for water right nos. 63-303, 63-3613, 63-3614, and 63-3618 for the limited purpose of including two "remarks" that are necessary for efficient administration of the

water rights under a proposed settlement of ongoing disputes over the "fill" and/or "refill" of the storage water rights for on-stream reservoirs in Administrative Basin 63. Specifically, this motion requests that two remarks be added to the partial decrees for water right nos. 63-303, 63-3613, 63-3614, and 63-3618, as follows:

- a. In the "Quantity" element, the following combined volume limit remark:

 "Water rights nos. 63-303, 63-3613, 63-3614, 63-3618, 63-33734A, and 6333734B, are limited to the total combined annual diversion volume necessary
 to allocate a total of 1,044,011 acre-feet of storage water per year to the
 consumers or users of the storage water";
- b. In the "Other Provisions" element, the following remark addressing "reset":

 "The annual time period for accruing natural flow to the on-stream reservoir storage water rights in IDWR Administrative Basin 63 will be determined by the Watermaster as supervised by the Director of the Department of Water Resources; provided, however, the annual time period will begin (1) after the day of allocation and when there is no natural flow available to water rights junior in priority to January 12, 1911, and (2) before natural flow has again become available to water rights junior in priority to January 12, 1911, or on November 1, whichever is earlier."

DISCUSSION

Rule 60(b)(6) of the Idaho Rules of Civil Procedure authorizes this Court to alter or amend a partial decree for "any other reason that justifies relief." I.R.C.P. 60(b)(6). This provision is applicable to this motion because addition of the above-described remarks to the partial decrees for water right nos. 63-303, 63-3613, 63-3614, and 63-3618 is a

limited amendment and necessary for efficient administration of the water rights under the proposed settlement of the ongoing disputes over the "fill" and/or "refill" of the storage water rights for on-stream reservoirs in Administrative Basin 63.

As this Court is aware, disputes over the "fill" and/or "refill" of the storage water rights for on-stream reservoirs in Administrative Basin 63 arose in SRBA subcase no. 00-91017 and remain at issue in SRBA subcase nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738. Disputes over the "fill" and/or "refill" of the storage water rights for on-stream reservoirs in Administrative Basin 63 also arose in the administrative and judicial review proceedings that were the subject of Twin Falls County Case No. CV-WA-2015-21376 (Consolidated Ada County Case No. CV-WA-2015-21391). The same disputes have arisen in the subsequent appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017. *See* Exhibit 1.

These disputes present difficult and often contentious questions. The parties to the above-referenced SRBA proceedings and Idaho Supreme Court appeals and cross-appeals have been attempting for years to resolve these difficult matters through negotiations. In 2018 the parties entered into a Stipulation for the purpose of facilitating and expediting resolution of the above-referenced disputes pertaining to issues of the "fill" and/or "refill" of the storage water rights for the on-stream reservoirs in the Boise River Basin. *See* Exhibit 1.

Under the Stipulation, the parties agreed to seek issuance in the SRBA of partial decrees for water right nos. 63-33734A and water right no. 63-33734B of the forms

proposed by the concurrently filed motions to decree those water rights.¹ The parties also agreed to seek orders decreeing as disallowed water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738. The parties also agreed to seek orders adding the above-described remarks to the existing partial decrees for water right nos. 63-303, 63-3613, 63-3614, and 3618.

This motion is one of the motions required by the Stipulation. Full and final resolution of SRBA subcase nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738 requires issuance of partial decrees of the form proposed in the concurrently-filed motions to decree water right nos. 63-33734A and 63-33734B. The proposed forms of the partial decrees for water right nos. 63-33734A and 63-33734B include remarks in the "Purpose and Period of Use" element stating that "[w]ater accruing to this water right supplements water accrued under water right nos. 63-303, 63-3613, 63-3614, and 63-3618." The proposed partial decrees also include the combined volume limit and "reset" remarks set forth above. *See* Exhibit 1.

In light of these remarks in the proposed partial decrees, it is necessary for the efficient administration of water rights nos. 63-303, 63-3613, 63-3614, and 63-3618 that their partial decrees be amended for the limited purpose of including the same combined volume limit and "reset" remarks set forth in the proposed partial decrees for water right nos. 63-33734A and 63-33734B. If the proposed partial decrees for water right nos. 63-

_

¹ Pursuant to the Stipulation, the State is also filing on this date: (1) a motion for an order issuing a partial decree for water right no. 63-33734A; and (2) a motion for an order issuing a partial decree for water right no. 63-33734B and decreeing as disallowed water right claim nos. 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738.

33734A and 63-33734B are issued, but the existing partial decrees are not amended to include the same the same combined volume limit and "reset" remarks, there is a risk of future ambiguity, confusion, and dispute regarding the relationship between the two groups of water rights and how they are to be administered.

This would be contrary to the objective of promoting the efficient administration of water and water rights. Idaho Code §§ 42-111(2)(j), 42-1412(6). It would also defeat the purpose of the Stipulation to fully and finally resolve long-running disputes over the "fill" and/or "refill" of the storage water rights for on-stream reservoirs in Administrative Basin 63. Given these considerations, and the fact that all the other SRBA disputes over the "fill" and/or "refill" of the storage water rights for on-stream reservoirs have been resolved, the limited relief requested by this motion is authorized under Rule 60(b)(6).

CONCLUSION

For the reasons discussed herein, in the Stipulation appended hereto, and in the concurrently-filed motions to decree water right nos. water right nos. 63-33734A and 63-33734B, the State respectfully requests that this Court issue orders amending the partial decrees for water right nos. nos. 63-303, 63-3613, 63-3614, and 63-3618 for the limited purpose of including the combined volume limit and "reset" remarks set forth above.

This motion is related to the concurrently-filed motions to decree water right nos. water right nos. 63-33734A and 63-33734B, and should be noticed and considered in conjunction with those motions. The State therefore requests expeditious consideration of this motion, so that it can be noticed, any potential objections resolved, no later than November 30, 2019.

The parties to the above-captioned appeal hereby jointly move this Court, pursuant to Rule 32(b) and Rule 33 of the Idaho Appellate Rules, to dismiss this appeal with prejudice, with all parties to bear their own costs and fees, and with instructions to the District Court to vacate its *Memorandum Decision and Order* (Sep. 1, 2016) and *Order Denying Rehearing* (Nov. 14, 2016) entered in the case underlying this appeal, Twin County Case No. CV-WA-2015-21376 (Consolidated Ada County Case No. CV-WA-2015-21391). As discussed below, the parties' stipulated settlement of their disputes over the "fill" and/or "refill" of the storage water rights for on-stream reservoirs in Administrative Basin 63 requires, among other things, dismissal of this

STIPULATION ATTACHMENT G – MOTION TO DISMISS APPEALS

appeal and the related appeals and cross-appeals, and vacatur of the District Court's orders. The parties' "Stipulation" and its "Attachments" are appended hereto as **Exhibit 1.**

As discussed in the parties' June 2018 motion to suspend this appeal and reschedule oral argument for the first available date after November 30, 2019, the parties to the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017 entered into a Stipulation for the purpose of facilitating and expediting resolution of disputes that have arisen in various judicial and administrative proceedings pertaining to issues of the "fill" and/or "refill" of the storage water rights for the on-stream reservoirs in IDWR Administrative Basin 63 (Boise River Basin).

1 See Exhibit 1.

The parties agreed to seek issuance in the SRBA of partial decrees and orders to implement the proposed settlement, and to seek dismissal of these appeals and cross-appeals with instructions to the District Court to vacate the orders that are the subject of the appeals and cross-appeals if the proposed partial decrees and orders were issued. The SRBA district court has issued the partial decrees and order proposed by the Stipulation.

The parties to this appeal therefore jointly move this Court to dismiss this appeal with prejudice, with each party to bear its own costs and fees, and with instructions to the District Court to vacate its *Memorandum Decision and Order* (Sep. 1, 2016) and *Order Denying Rehearing* (Nov. 14, 2016,) entered in the case underlying this appeal, Twin County Case No.

¹ Including but not limited to the disputes arising in the appeals and cross-appeals pending under Idaho Supreme Court docket nos. 44677-2016, 44745-2017, and 44746-2017; the administrative and judicial proceedings underlying these same appeals and cross-appeals; and Snake River Basin Adjudication ("SRBA") subcase nos. 00-91017, 63-33732, 63-33733, 63-33734, 63-33737, and 63-33738.
