DEPARTMENT OF
WATER RESOURCES

NOTICE OF INTENT TO PARTICIPATE

FROM:

Don Ellis, Twin Lakes resident, water right holder, and former longtime Chairman of TLWD#95C.

I, Don Ellis, SUPPORT the removal of the Watermaster, Laurin Scarcello, for the following reasons:

In the summer and fall of 2015, as Chairman of WD#95C, I communicated many times with Laurin about the amount of water being released from Twin Lakes. I made many trips by car to observe the flow of Fish Creek which was the only contributor to the lake that fall. In addition to observing the flow into Twin Lakes from Fish Creek, I observed the outflow at the dam, at Gunning Road and Sturgeon Road. As summer was ending, I continued to observe, by boat, the lack of inflow from the other streams and creeks that flow into the two lakes. There wasn't any inflow from these other sources.

Laurin always listened to what I had to say, but never followed my suggestions. At one point I told him that he was not doing his job as Watermaster.

Attached document-

*Watermaster's Annual Report for 2015-2016
