DEPARTMENT OF
WATER RESOURCES

Docket No. C-RWM-2016-001

I, Susan Goodrich, challenge the removal of Watermaster Laurin Scarcello of Water District 95C. I intend to testify. Although I am calling no witnesses of my own I intend to examine witnesses called by the Complainant and Watermaster as well as each of them if allowed.

Susan C Goodrich

I will supply copies of:

General Operation Plan at Twin Lakes page 1 ^{and 2} and Sept. 1976 letter to Rod Vissia

Colby Clark's email to Morgan Case on August 28, 2016 1:24 AM

Colby Clark's letter to Morgan Case dated August 30, 2016

Testimony I intend to read

Why I am objecting:

Communication is flawed

Lack of sufficient measuring devices to make decisions

Complaints show possible conflict of interest

No mediation was attempted - just complaints

Some statements are false

Futile call is confusing

General Operation Plan is missused as support

Bureau of Reclamation is no longer involved

Selection of next watermaster not clear

Interpretation of codes, laws and balance of resources was reasonable

Unjustified request for financial damages
