**RE: Notice of Pending Curtailment of Ground Water Rights with Priority Dates Junior to December 25, 1979 — Surface Water Coalition Delivery Call**

Dear Water Right Holder,

You are receiving this letter because, according to the records of the Idaho Department of Water Resources (“Department”), you are the holder of one or more ground water rights subject to curtailment pursuant to the attached May 5, 2022 curtailment order issued by the Director of the Department in response to the water delivery call by members of the Surface Water Coalition (“SWC”). The SWC includes A&B Irrigation District, American Falls Reservoir District #2, Burley Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Canal Company. The SWC called for delivery of their water rights under the Department’s Rules for Conjunctive Management of Surface and Ground Water Resources (IDAPA 37.03.11) (“CM Rules”).

The SWC delivery call applies to ground water rights for irrigation, commercial, industrial, municipal, non-exempt domestic uses, and other consumptive uses. Non-consumptive uses and culinary in-house uses of water are not subject to curtailment under the order.

The curtailment order requires that, at 12:01 a.m. on or before May 20, 2022, ground water users holding water rights bearing priority dates junior to December 25, 1979, within the Eastern Snake Plain Aquifer area of common ground water supply (“ESPA ACGWS”), and listed in Attachment A to the order, must curtail/refrain from diversion and use of ground water pursuant to those water rights, unless notified by the Department that the order of curtailment has been modified or rescinded as to their water rights. The curtailment order also requires that watermasters who regulate ground water for water districts within the ESPA ACGWS, are directed to review the water rights listed in Attachment A to the order and begin contacting the water right holders in their respective districts to evaluate and determine how the water rights will be curtailed.

Because you are the holder of one or more ground water rights listed in Attachment A to the curtailment order, you must curtail/refrain from any diversion under the above referenced water right(s) in compliance with the order, unless and until you receive further direction from the Department or watermaster after the watermaster has consulted with the Department.

The curtailment order explains that holders of ground water rights affected by the order may participate in an approved mitigation plan, such as the plan filed by the Idaho Ground Water Appropriator's Inc. and SWC in Docket No. CM-MP-2016-001. Holders of ground water rights shall have fifteen days to join, solely for mitigation purposes, the ground water district situated nearest the lands to which the water rights are appurtenant. *See H.B. No. 737 (Act Relating to the Administration of Ground Water Rights Within the Eastern Snake River Plain, ch. 356, 2006, Idaho Sess. Laws 1089) and Idaho Code § 42-5259.* Holders of ground water rights affected by the curtailment order may also submit a proposed mitigation plan to the Director in accordance with CM Rule 43. *See IDAPA 37.03.11.043.* Upon receipt of a proposed mitigation plan, the Director will publish notice for two successive weeks, after which ten days will be allowed for the filing of protests. The Director will then hold a hearing as necessary to determine whether a proposed mitigation plan will mitigate injury to the SWC caused by the ground water rights at issue. If holders of ground water rights affected by this order do not participate in an approved mitigation plan by May 20, 2022, the Director will curtail the junior priority ground water use.

Information regarding the ongoing status of this curtailment may be found at: <https://idwr.idaho.gov/legal-actions/delivery-call-actions/SWC/>. If you have questions concerning this notice, please contact the Department's State Office in Boise at 208-287-4800, or the watermasters for the water districts within the ESPA ACGWS who regulate ground water.

Respectfully,

Gary Spackman, Director

Docket No. CM-DC-2010-001

**FINAL ORDER CURTAILING GROUND  
WATER RIGHTS JUNIOR TO  
DECEMBER 25, 1979**

The Director of the Idaho Department of Water Resources (“Department”) finds, concludes, and orders as follows:

**FINDINGS OF FACT**

1. On April 19, 2016, the Director issued his *Fourth Amended Final Order Regarding Methodology for Determining Material Injury to Reasonable In-Season Demand and Reasonable Carryover* (“Methodology Order”). The Methodology Order established nine steps for determining material injury to members of the Surface Water Coalition (“SWC”).<sup>1</sup>

2. On April 20, 2022, the Director issued the *Final Order Regarding April 2022 Forecast Supply (Methodology Steps 1-3)* (“As-Applied Order”), which applied steps 1, 2, and 3 of the Methodology Order. The Director predicted an in-season demand shortfall (“DS”) of 162,600 acre-feet. *As-Applied Order* at 3. The Director ordered that, by May 1, 2022, ground water users with consumptive water rights “bearing priority dates junior to December 25, 1979, within the Eastern Snake Plain Aquifer area of common ground water supply shall establish, to the satisfaction of the Director, that they can mitigate for their proportionate share of the predicted DS of 162,600 acre-feet in accordance with an approved mitigation plan.” *Id.* at 6. The Director also ordered that, if such a junior ground water user cannot establish they can mitigate for their proportionate share of the predicted DS “in accordance with an approved mitigation plan, the Director will issue an order curtailing the junior-priority ground water user.” *Id.*

3. There are currently seven approved mitigation plans in place responding to the SWC delivery call:

- (1) Docket No. CM-MP-2009-007 for the benefit of the Idaho Ground Water Appropriators, Inc. (“IGWA”) (delivery of stored water);

---

<sup>1</sup> The SWC is comprised of A&B Irrigation District, American Falls Reservoir District #2, Burley Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Canal Company.

- (2) Docket No. CM-MP-2009-006 for the benefit of IGWA (conversions, dry ups and recharge);
- (3) Docket No. CM-MP-2016-001 for the benefit of IGWA (the IGWA and SWC stipulated mitigation plan);
- (4) Docket No. CM-MP-2010-001 for the benefit of the Southwest Irrigation District and Goose Creek Irrigation District (collectively, “SWID”);
- (5) Docket No. CM-MP-2019-001 for the benefit of certain cities commonly referred to as the “Coalition of Cities”;
- (6) Docket No. CM-MP-2015-003 for the benefit of the A&B Irrigation District (“A&B”); and
- (7) Docket No. CM-MP-2007-001 for the benefit of certain entities commonly referred to as the “Water Mitigation Coalition.”

4. In the 2022 As-Applied Order, the Director found that due to the nature of the approved mitigation plans for IGWA, SWID, the Coalition of Cities and the Water Mitigation Coalition, these entities do not need to establish they can mitigate for their proportionate share of the predicted DS. *See As-Applied Order* at 5 n.4. However, the Director found that A&B must mitigate for its proportionate share of the predicted DS of 162,600 acre-feet and determined that A&B’s proportionate share is 2,542 acre-feet. *Id.*

5. In response to the 2022 As-Applied Order’s requirement for junior ground water right holders to establish how they will mitigate for their proportionate share of the predicted demand shortfall, A&B sent a letter to the Director stating “it is the District’s intent to continue to curtail the enlargement water rights (2,063) acres for the 2022 irrigation season.” Letter from Travis Thompson to Gary Spackman (April 28, 2022).

## **CONCLUSIONS OF LAW**

1. Idaho Code § 42-602 authorizes the Director to supervise water distribution within water districts:

The director of the department of water resources shall have direction and control of the distribution of water from all natural water sources within a water district to the canals, ditches, pumps and other facilities diverting therefrom. Distribution of water within water districts created pursuant to section 42-604, Idaho Code, shall be accomplished by watermasters as provided in this chapter and supervised by the director. The director of the department of water resources shall distribute water in water districts in accordance with the prior appropriation doctrine. The provisions of chapter 6, title 42, Idaho Code, shall apply only to distribution of water within a water district.

2. As explained above, by May 1, 2022, ground water users with consumptive water rights “junior to December 25, 1979, within the Eastern Snake Plain Aquifer area of common ground water supply” had to “establish, to the satisfaction of the Director, that they can mitigate for their

proportionate share of the predicted DS of 162,600 acre-feet in accordance with an approved mitigation plan.” *As-Applied Order* at 6. If a junior ground water user does not establish that they can mitigate for their proportionate share of the predicted DS “in accordance with an approved mitigation plan” the ground water user will be subject to this “order curtailing the junior-priority ground water user.” *Id.*

3. Due to the nature of the approved mitigation plans for IGWA, SWID, the Coalition of Cities and the Water Mitigation Coalition, these entities do not need to establish that they can mitigate for their proportionate share of the predicted DS. Junior ground water users entitled to the protection of IGWA, SWID, the Coalition of Cities and the Water Mitigation Coalition mitigation plans will not be subject to curtailment during the 2022 irrigation season.<sup>2</sup>

4. To ensure A&B’s enlargement water rights are curtailed for 2022, the Director should keep the enlargement water rights on the curtailment list. The Director will instruct the Watermaster to confirm A&B is not diverting ground water pursuant to its enlargement water rights.

5. Consistent with the *As-Applied Order* and Idaho Code § 42-602, the Director should order curtailment of junior-priority ground water users that have not established they can mitigate for their proportionate share of the predicted DS in accordance with an approved mitigation plan. Junior-priority ground water users subject to curtailment are listed in Attachment A to this order.

## ORDER

Based upon and consistent with the foregoing, IT IS HEREBY ORDERED that, at 12:01 a.m. on or before May 20, 2022, ground water users holding water rights bearing priority dates junior to December 25, 1979, within the ESPA ACGWS listed in Attachment A to this order shall curtail/refrain from diversion and use of ground water pursuant to those water rights unless notified by the Department that the order of curtailment has been modified or rescinded as to their water rights. This order shall apply to consumptive ground water rights, including but not limited to, agricultural, commercial, industrial, and municipal uses. This order excludes ground water rights used for *de minimis* domestic purposes where such domestic use is within the limits of the definition set forth in Idaho Code § 42-111 and ground water rights used for *de minimis* stock watering where such stock watering use is within the limits of the definitions set forth in Idaho Code § 42-1401A(11), pursuant to IDAPA 37.03.11.020.11.

IT IS FURTHER ORDERED that watermasters for the water districts within the ESPA ACGWS who regulate ground water are directed to review the water rights listed in Attachment A to this order and subject to curtailment and begin contacting the water right holders in their respective districts to evaluate and determine how the water rights will be curtailed.

IT IS FURTHER ORDERED that holders of ground water rights affected by this order may participate in an approved mitigation plan through a ground water district and shall have

fifteen days from the date of this Order to join, solely for mitigation purposes, the ground water district situated nearest the lands to which the water rights are appurtenant. See H.B. No. 737 (*Act Relating to the Administration of Ground Water Rights Within the Eastern Snake River Plain*, ch. 356, 2006, *Idaho Sess. Laws* 1089) and Idaho Code § 42-5259. Holders of ground water rights affected by this order may also submit a proposed mitigation plan to the Director in accordance with CM Rule 43. See IDAPA 37.03.11.043. However, the submission of a proposed mitigation plan is not justification for delaying or staying curtailment. Upon receipt of a proposed mitigation plan, the Director will publish notice of the proposed mitigation plan for two successive weeks, after which ten days will be allowed for the filing of protests. The Director will then hold a hearing as necessary to determine whether a proposed mitigation plan will mitigate injury to the SWC caused by the ground water rights at issue.

Dated this 5<sup>th</sup> day of May 2022.
