

I, Vaughn McKnight, water right holder 36-82E, protest the IGWA Amended 3rd plan to mitigate material injury held by by Rangen Inc. and other water right holders in district 36A.

1. I oppose any speculative language and permits should not be issued accordingly.
2. I get my water from Bilingsly Creek and as a senior user I oppose the taking of water from one senior water right holder to mitigate a loss of water of another senior user. I feel strongly that the junior users should be curtailed and that there should be a moratorium of further commercial well development until it can be proven that it will be sustainable.
