**Re: SWC-IGWA Stipulated Mitigation Plan and Request for Order  
Docket No. CM-MP-2016-001**

Dear Director Spackman:

I am writing with regard to the *Surface Water Coalition's and IGWA's Stipulated Mitigation Plan and Request for Order* ("Stipulation") and a proposed *Order Approving IGWA's Mitigation Plan* ("Order") attached thereto as Exhibit A previously filed on March 9, 2016. The SWC and IGWA jointly submit the attached revised proposed Order. It is the same as previously submitted, except for the following additional language added at the end of paragraph 2.b.:

"Following the SWC's determination of its irrigation needs, it will notify IGWA by September 15 each year of the balance of 50,000 acre-feet, if any, remaining for potential recharge or conversions. The assignment of the balance of the remaining storage water shall only occur upon consensus of the parties to the Agreement. Absent consensus, the storage balance shall remain available for SWC use. Such assignments do not replace or count towards the obligations of the parties otherwise identified in the Agreement."

Thank you for your consideration.

Respectfully,

RANDALL C. BUDGE
