OF THE STATE OF IDAHO**

IN THE MATTER OF MADISON GROUND  
WATER DISTRICT AND HENRY'S FORK  
GROUND WATER DISTRICT'S  
MITIGATION PLAN FOR THE SURFACE  
WATER COALITION

Docket No.: CM-MP-2023-001  
~~Docket No.: CM-DC-2010-001~~

**SURFACE WATER COALITION'S  
JOINT PROTEST**

IN THE MATTER OF THE DISTRIBUTION  
OF WATER TO VARIOUS WATER  
RIGHTS HELD BY AND FOR THE  
BENEFIT OF A&B IRRIGATION  
DISTRICT, AMERICAN FALLS  
RESERVOIR DISTRICT #2, BURLEY  
IRRIGATION DISTRICT, MILNER  
IRRIGATION DISTRICT, MINIDOKA  
IRRIGATION DISTRICT, NORTH SIDE  
CANAL COMPANY, AND TWIN FALLS  
CANAL COMPANY

COME NOW, A&B IRRIGATION DISTRICT, AMERICAN FALLS RESERVOIR  
DISTRICT #2, BURLEY IRRIGATION DISTRICT, MILNER IRRIGATION DISTRICT,  
MINIDOKA IRRIGATION DISTRICT, NORTH SIDE CANAL COMPANY and TWIN FALLS  
CANAL COMPANY (hereinafter referred to as the "Coalition" or "SWC"), by and through their

attorneys of record, Marten Law LLP and Fletcher Law Office, and hereby file this *Joint Protest* to the approval of the *Petition for Approval of Madison Ground Water District and Henry's Fork Ground Water District's Storage Water Mitigation Plan for the Surface Water Coalition* ("Mitigation Plan"), filed with the Idaho Department of Water Resources ("Department") by MADISON GROUND WATER DISTRICT AND HENRY'S FORK GROUND WATER DISTRICT ("Madison and Henry's Fork") on December 18<sup>th</sup>, 2023 pursuant to the provisions of Conjunctive Management Rule 43, IDWR Procedural Rule 250, and other applicable law.

The SWC is authorized to oppose the Mitigation Plan because the Plan attempts to mitigate injury to SWC's senior surface water rights caused by Madison's and Henry's Fork's members' junior priority ground water rights. The initial bases for SWC's *Protest* are as follows:

1. The proposed Mitigation Plan does not comply with the *2016 Stipulated Mitigation Plan* (March 9, 2016), as amended (February 7, 2017), and as approved by final orders of the Director (May 2, 2016 and May 9, 2017) (CM-MP-2016-001). *See Surface Water Coalition's and IGWA's Stipulated Mitigation Plan and Request for Order, Surface Water Coalition's and IGWA's Stipulated Amended Mitigation Plan and Request for Order, Final Order Approving Stipulated Mitigation Plan, Final Order Approving Amendment to Stipulated Mitigation.*

2. The Mitigation Plan does not identify, with particularity, the water rights of Madisons' and Henry's Forks' members proposed to benefit from the Mitigation Plan.

3. The Mitigation Plan does not identify, with particularity, any circumstances or limitations on the availability of the water supply proposed to be used for mitigation.

4. To the best of SWC's knowledge, Madison and Henry's Fork do not hold the right to use storage water in the Upper Snake River Reservoir system. Therefore, Madison and Henry's Fork do not have any available storage to provide to SWC for direct mitigation in any given year, including 2024.

5. Madison's and Henry's Fork's proposed activities, including delivering storage water and recharge, are not defined with any particularity, including location, water rights involved, and the estimated benefits that might accrue from such projects.

6. The Mitigation Plan does not identify that it will provide replacement water, at the time and place required by SWC's senior priority surface water rights, sufficient to offset the depletive effect of Madison's and Henry's Fork's ground water withdrawals on the Snake River at such time and place necessary to satisfy SWC's senior priority water rights.

7. The Mitigation Plan does not contain adequate "contingency provisions to assure protection of the senior-priority right in the event the mitigation water source becomes unavailable" and therefore violates CM Rule 43.03.c.

8. The Mitigation Plan does not identify how injury to SWC's right to reasonable carryover storage will be addressed.

9. In general, the Mitigation Plan is vague and ambiguous, does not provide for adequate mitigation, provides no certainty that the mitigation water will be delivered to prevent injury, does not provide a reliable source of replacement water, could result in the diversion and use of ground water at a rate beyond the reasonably anticipated average rate of future natural recharge, and otherwise fails to adequately mitigate for injury caused by Madison's and Henry's Fork's members' junior priority ground water rights.

10. For such other and further reasons as may be discovered.

DATED this 2<sup>nd</sup> day of February, 2024.
