Re: Petition to Amend Rule 50 filed by Clear Springs Foods, Inc.

Dear Water Users,

This letter is to notify you that at the public meeting held on May 29, 2014, regarding the negotiated rulemaking for the above-referenced matter, it was determined that the deadline to submit comments shall be June 24, 2014, twenty-one (21) days from the date of the last public meeting (June 3, 2014). Please be aware that if you have previously submitted comments to the Department, those comments are still a part of the administrative rulemaking record and will be taken under consideration by the Department. The resubmission of comments is not necessary. However, comments containing any additional information which was not previously addressed that you would like to have considered and become part of the record should be submitted by the deadline.

Also, please note that an error was discovered on the following map that was posted on the Department's website:

Irrigated Lands outside Area of Common Ground Water Supply in Lost River Area – May 2014.

The map has been replaced with a corrected version and can be found at the following link:
