

ATTACHMENT A

STIPULATION RE PERMIT 74-16187

This Stipulation is entered into by Kurt W. Bird and Janet E. Bird ("Bird"), the Idaho Water Resource Board ("IWRB"), and the Idaho Department of Fish and Game ("IDFG") (collectively, the "Parties"), to resolve litigation over Bird's application for a permit to appropriate the public waters of the State of Idaho, identification number 74-16187 ("Application"), and protests to the Application ("Protests") filed by IWRB and IDFG.

RECITALS

WHEREAS, the Application was filed with the Idaho Department of Water Resources ("IDWR") on or about October 12, 2018, and the Protests were filed on or about January 17, 2019; and

WHEREAS, IDWR held an administrative hearing on the Application and the Protests on August 28 and August 29, 2019; and

WHEREAS, the hearing officer issued a preliminary order approving the Application with certain conditions on January 9, 2020, and an amended preliminary order approving the Application with certain conditions on February 6, 2020; and

WHEREAS, the Director of IDWR issued a final order approving the Application with certain conditions on May 21, 2020; and

WHEREAS, IWRB and IDFG filed a petition for judicial review of the final order on June 22, 2020; and

WHEREAS, the judicial review proceeding was stayed at the Parties' request after briefs were submitted but before the hearing was held, while the Parties attempted to negotiate a settlement of the litigation; and

WHEREAS, the Parties have reached agreement regarding approval of the Application with certain conditions, dismissal of the judicial review proceeding, and certain related matters, and the Parties now desire to memorialize the terms of the agreement.

AGREEMENT

NOW, THEREFORE, the Parties stipulate and agree as follows:

I. The Application should be approved with the following elements and conditions:

Current Owner: Kurt W. Bird or Janet E. Bird
Priority Date: October 12, 2018
Source: Big Timber Creek tributary to Lemhi River
Beneficial Use: Irrigation

Season of Use: March 15 – July 31

Diversion Rate: 6.40 cfs

Point of Diversion: NWNW, Section 20, T15N, R26E (Home Ditch)

Place of Use: 320 acres

SWSE, SESE, Section 8, T15N, R26E

SW1/4, Section 9, T15N, R26E

NENE, NWNE, Section 17, T15N, R26E

Conditions of Approval:

1. Subject to all prior rights.
2. Proof of Application of water to beneficial use shall be submitted on or before the date established by the Director.
3. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of approval, this water right is within State Water Districts 170 and 74W.
4. Prior to the diversion and use of water under this right, the right holder shall install and maintain acceptable measurement devices at the authorized point(s) of diversion and in accordance with Department specifications or shall obtain an approved variance from the Department to employ an alternative method to determine and record the amount of water diverted.
5. Prior to diversion of water under this right, the right holder shall install and maintain a locking controlling works, subject to the approval of the Department, in manner that will provide suitable control of the diversion.
6. When notified by the Department or by a watermaster with regulatory authority over this right, the right holder shall report the amount of water diverted in connection with this right. The report shall be submitted in the manner and frequency specified by the Department or the watermaster.
7. This right does not grant any right-of-way or easement across the land of another.
8. This right is only available when flow at the Big Timber Gage 13304050, located at Latitude 44°41'19.65", Longitude 113°22'13.46", Lemhi County (BT Gage) is at least 18 cfs. Any flows present as a result of the Idaho Water Resource Board's

water transactions program will be included ("counted") in determining whether the 18 cfs flow requirement is satisfied.

9. The right holder shall cease diversion under this right if the flow of Big Timber Creek is less than 18 cfs at the BT Gage. Any flows present as a result of the Idaho Water Resource Board's water transactions program will be included ("counted") in determining whether the 18 cfs flow requirement is satisfied.
10. This right benefits from the subordination described in Paragraph 10(b)(6)(A)(ii) of water rights 75-13316 and 77-11941 and may only be diverted when the mean daily discharge at the Salmon River Shoup gage is greater than or equal to 1,280 cfs.
11. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
12. Rights 74-32, 74-34, 74-7165, 74-15926, 74-15927, 74-15928, 74-15929, 74-15930, 74-15931 and 74-16187 when combined shall not exceed a total diversion rate of 52.77 cfs.
13. This right fully satisfies any and all claims of right or authorization to divert "high flow" water, as that term is defined in the Basin 74 "General Provisions" decreed in the Snake River Basin Adjudication, for use within the place of use for this right. This limitation applies to all acres within the place of use for this right, including any acres that are also covered by other water rights.
14. Bird will allow IDFG to install and maintain fish screens on Bird's diversions, including execution of an access agreement for such purposes, and will not protest IDFG applications for fish propagation water rights required for operation of the fish screens. Bird will cooperate with IDFG to consolidate Bird's diversions where feasible.
15. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

- II. The Parties will jointly move the court presiding over the pending judicial review litigation for an order requesting that the case be remanded back to IDWR for consideration of the settlement set forth in this stipulation.
- III. If the court grants the joint motion to remand the case back to IDWR, the Parties will jointly move the Director of IDWR to:
 - a. Approve the Application with the elements and conditions set forth above in paragraph I;
 - b. Issue instructions to the watermasters for Water Districts 170 and 74W regarding administration of the elements and conditions of the Application.
- IV. After the Application has been approved and permit 74-16187 has been issued, Bird will file a transfer application with IDWR to remove from the place of use for permit 74-16187 the approximately 22.2 acres of lands covered by existing water rights. The IWRB and IDFG will not protest or oppose the transfer application.
- V. IWRB and IDFG will not oppose a future application by Bird to appropriate “high flow” water he currently diverts from Big Timber Creek under the SRBA High Flow General Provisions for Basin 74, provided that a copy of this stipulation is filed with the application, and that the application:
 - a. Proposes a purpose of use of “stream flow maintenance,” or a substantially similar purpose;
 - b. Proposes March 15 to November 15 as the season or period of use;
 - c. States that the proposed use of water is ancillary to existing uses authorized by water rights 74-32, 74-34, 74-1801, 74-7165, 74-15926, 74-15927, 74-15928, 74-15929, 74-15930, and 74-15931 (“Base Rights”);
 - d. States that the proposed use of the water is limited to the authorized places of use for the Base Rights;
 - e. Seeks a diversion rate no greater than that necessary to fill the current (July 2021) physical capacity of the diversion works and ditches that convey water to the authorized places of use for the Base Rights;

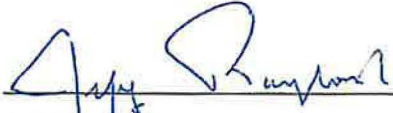

- f. States that the proposed use of water is in full satisfaction of, and supersedes, any existing or future claim by Bird of a right to divert “high flow” from Big Timber Creek under the Basin 74 High Flow General Provision decreed in the Snake River Basin Adjudication for use on the place of use of the Base Rights;
- g. States that water may be diverted under the right only when the flow is 18 cfs or greater from March 15 to July 31, and 10 cfs or greater from August 1 to November 15 as measured at the BT Gage, and that any flows present as a result of the Idaho Water Resource Board’s water transactions program will be included (“counted”) in determining whether the 18 cfs and 10 cfs flow requirements are satisfied; and
- h. States that water may not be diverted under this right for three (3) consecutive days in each of two (2) years during every five (5) year period (“bypass flow”). The five-year period will be “rolling” to provide adequate habitat for salmon and steelhead cohorts. In the event bypass flows are provided in two consecutive years, then there will not be a requirement to not divert in the following 3 years. The Idaho Department of Fish and Game and Bird will jointly determine the years in which this condition applies and the dates in those years during which diversions will not be allowed and will provide this information to the Water District 74W watermaster in joint written instructions. Weekly runoff forecasts will be monitored and used to select the dates for the bypass flow, which shall be timed to occur, as near as possible, to the peak of high flow between May 21st to July 6th. Notwithstanding the foregoing, any natural runoff occurrence that meets or exceeds 420 cfs for three consecutive days as measured at the McFarland Gage shall be counted towards satisfaction of the two in five -year condition. This condition may be adjusted at the time of licensing to conform to: any analogous condition required by a comprehensive settlement of “high flow” issues in the Lemhi Basin, if one has been reached; or any modifications to this condition to which the Idaho Department of Fish and Game and Bird have agreed.

- i. States that water diverted under this right will not receive the benefit of Wild and Scenic subordination.
 - j. This right will be subordinated to other Big Timber stream flow maintenance water rights, except for those held by David Udy and Jerry Foster.
- VI. If Bird files an application consistent with the requirements set forth above in paragraph V, IWRB and IDFG may file protests for the sole and exclusive purpose of monitoring the proceedings and ensuring that any permit or license issued pursuant to such an application conforms to the requirements of paragraph V. IWRB and IDFG will not oppose an application that conforms to the requirements of paragraph V, or seek any conditions in addition to those required by paragraph V. IWRB and IDFG retain their rights to protest and oppose any future application(s) by Bird to appropriate water from Big Timber Creek that do not conform to the requirements set forth above in paragraph V.
- VII. Bird will not oppose an application by the IWRB under chapter 15, Title 42, of the Idaho Code to appropriate a minimum stream flow for Big Timber Creek, provided that a copy of this stipulation is filed with the application, and that the application:
 - a. Proposes a diversion rate of 18 cfs from March 15 to July 31, and 10 cfs from August 1 to March 14, as measured at the BT Gage.
 - b. Is either filed later in time than Bird's application for a streamflow maintenance water right, or is expressly subordinated to any future application by Bird for a stream flow maintenance water right that satisfies the requirements set forth above in paragraph V; and
 - c. States that any flows present as a result of the Idaho Water Resource Board's water transactions program will be included ("counted") in determining whether the 18 cfs and 10 cfs flow requirements are satisfied.
- VIII. If the IWRB files an application consistent with the requirements set forth above in paragraph VII, Bird may file a protest for the sole and exclusive purpose of monitoring the proceedings and ensuring that any permit or license issued pursuant to such an application conforms to the requirements of paragraph VII.

Bird will not oppose an application that conforms to the requirements of paragraph VII, or seek any conditions in addition to those required by paragraph VII. Bird retains his right to protest and oppose any future application(s) for minimum stream flows on Big Timber Creek that do not conform to the requirements set forth above in paragraph VII.

- IX. The Parties have entered into this stipulation to settle their disagreements regarding the Application and the Protests, and to resolve the pending litigation. This stipulation represents a compromise between the Parties regarding their disagreements over the issues and subjects addressed herein, and sets forth the entire agreement between the Parties related to these matters. Except as specifically provided in this stipulation, nothing in this stipulation waives the rights, positions, or arguments of the Parties as to any issue of fact or law. This stipulation may not be used or held against any of the Parties other than to show the terms of their agreement on the issues and subjects expressly addressed and resolved herein.
- X. The parties agree that the terms and provisions of this Stipulation embody their mutual intent and that such terms and conditions are not to be construed more liberally in favor of, or more strictly against, any party.
- XI. The provisions of this Stipulation are not severable. If any provision of this Stipulation is found to be unlawful and of no effect and/or the Idaho Department of Water Resources fails to approve the stipulation, then the parties hereto shall resume negotiations to revise such unlawful provision.
- XII. This Stipulation shall be voidable by any party if the Idaho Department of Water Resources fails to approve the Stipulation as submitted.
- XIII. This Stipulation shall bind and inure to the benefit of the respective successors of the parties.
- XIV. This Stipulation may be executed in counterparts, each of which shall be an original, but all of which, taken together, shall constitute one and the same agreement.
- XV. Each of the undersigned represent that they are authority to execute this Stipulation.

XVI. This Stipulation shall become effective and binding on the Parties upon execution by all the signatories.
