

RECEIVED

Application for
Transfer No. 84441

JUN 01 2021

Department of Water Resources
Eastern Region June 1-2021

Attn: Department of water
Resources

I Steven Johnson petition for
reconsideration of a preliminary
order on application 84441 that
if it is granted that it would
be an injury to water rights 74-949
+ 74-15201.

All though water right 74-949 +
74-15201 is down stream off
the proposed point of diversion of
application of 84441, if that was
granted, I would not have water to
fullfill these water rights.

It come's back to my original
protest that I had on application
84441, even though my water rights
are junior to Bruce's water rights,
that the new point of diversion is
October 5, 2020 year, so that my water
should come before any water that
goes into Bruce's new point of diversion.

Steven Johnson
