Subject: Re: Idaho Department of Water Resources

Hi

Just checking to make sure my email came through.

Dear Doug Jones

I'm writing in regards to Gordon Sylte's Appointment as Flood Control District 17 commissioner. I was surprised, to learn he would be leading the Flood Control District for another 3 years. We feel that Gordon should not be reappointed as Flood Commissioner, there seems to be a conflict of interest still. We think the director should hold a hearing to review the facts. How can he be allowed another three years. How can you appoint a individual who knowingly let people and equipment trespass on our property, and threaten us? I wrote you back in November 1 2017 about this matter.. I asked you to have the FCD

backoff as they were on the property, and even talking to my renters and gave her there card. This continued despite my request, and we had to hire an attorney to write a cease letter to get Gordon Sylte's attention. We had a meeting with him, and was told fence was going up no matter, and we could chose the type. He also brought up threats of Eminent Domain, and attorneys! My sister Sheree Greenfield attended the Jan 4 2018, Flood Control Meeting to address our concerns about being pressured and bullied. She read an email from Mike Galente stating the Aquifer board would not purse this, which is contrary to what Gorden had told us. At the same meeting Sheree was told it was in the hands of the Kootenai County Commissioners. Our family has not heard nothing from the county. Are we being told the truth on this issues? It seems like it is time for another person to take the reins from Gordon Sylte. Please reconsider your appt of Gordon Sylte, there are to many conflicts of interests.

Sincereley,
