ACTING THROUGH THE DEPARTMENT OF

Docket No. P-OSC-2021-002

**ORDER PARTIALLY GRANTING
PETITION; ORDER TO SHOW
CAUSE**

(PADDOCK VALLEY ALLOTMENT)

BACKGROUND

On September 16, 2021, Soulen Livestock Co. and Soulen Grazing Association, LLC (collectively, “Petitioners”) filed with the Idaho Department of Water Resources (“Department”) a *Verified Petition for Order to Show Cause* (“Petition”).¹ Petitioners ask the Department to issue an order pursuant to Idaho Code § 42-224(1) “to show cause why the Water Rights [(see Petition Exhibit A, yellow columns)]” on the federal grazing allotment known as the Paddock Valley Allotment (“Allotment”) “have not been lost through forfeiture pursuant to Idaho Code § 42-222(2).” *Petition* at 1.²

Petitioners assert that the water rights listed in the yellow columns of Exhibit A (“BLM Water Rights”) are owned by the United States of America acting through the Department of Interior, Bureau of Land Management (“BLM”). *Id.* ¶ 1; *see Petition* Ex. A. Additionally, Petitioners assert that the points of diversion and places of use for the BLM Water Rights are located on the Allotment. *Petition* ¶ 3. Petitioners claim that no other water rights, other than the water rights owned by Soulen Livestock Co., share “the same place of use or point of diversion” as the BLM Water Rights. *Id.* ¶ 4.

Petitioners maintain that Soulen Grazing Association has, for at least the last five years, held a valid BLM grazing permit for livestock grazing on the Allotment. *Id.* ¶ 5; *see Petition* Ex. B. Petitioners assert that Soulen Grazing Association’s livestock have grazed on the Allotment “each year of the permit term.” *Petition* ¶ 6. Petitioners claim that Soulen Grazing Association’s members have “regularly visited the Allotment each grazing season of use and at other times outside the season of use each year for more than the past five years.” *Id.* ¶ 7. Petitioners allege that “[a]t no time over the past five years have Petitioners, their officers, employees, or agents

¹ When submitting the Petition, Petitioners failed to include copies of the exhibits referenced in the Petition. Petitioners submitted the supporting exhibits (Exhibit A and Exhibit B) to the Department on September 23, 2021.

² On the same day, Petitioners also filed a second verified petition, seeking an order to show cause why certain BLM water rights on the federal grazing allotment known as the Crane Creek Allotment have not been lost through forfeiture. *See Verified Petition for Order to Show Cause, In re Basin 67 Water Rts., In Name of U.S. Dep’t of Interior, Bureau of Land Mgmt.*, No. P-OSC-2021-001 (Idaho Dep’t of Water Res. Sep. 16, 2021), <https://idwr.idaho.gov/wp-content/uploads/sites/2/legal/P-OSC-2021-001/20210916-Verified-Petition-for-Order-to-Show-Cause.pdf> [hereinafter Crane Creek Petition].

witnessed, read about, or heard of the existence of livestock owned or controlled by the BLM” on the Allotment to use water under the BLM Water Rights. *Id.* ¶ 8, at 2. Petitioners allege that at no time since Soulen Grazing Association has been authorized to use the Allotment “has either Petitioner, their members or their agents or employees ever witnessed, read about, or heard of the BLM applying the [BLM] Water Rights to the beneficial use of watering livestock that the BLM owns or controls on the Allotment.” *Id.* ¶ 10. Petitioners assert that no agency relationship exists between Petitioners and the BLM “for the purpose of acquiring water rights for the BLM on the Allotment.” *Id.* ¶ 11. The Petition is verified by Harry C. Soulen, President of Soulen Livestock Co. and manager of Soulen Grazing Association, LLC. *Id.* at 3–4.

To comply with the statutory service requirements of Idaho Code § 42-224(4),³ the Department submitted a Freedom of Information Act (“FOIA”) request to the BLM on September 23, 2021, for a copy of all active grazing permits on the Paddock Valley Allotment and the adjoining Crane Creek Allotment. On October 8, 2021, in response to the Department’s FOIA request, the BLM sent copies of four grazing permits. One permit sent by the BLM matches Permit No. 1101236, issued March 4, 2016, that Petitioners filed as Exhibit B. On October 21, 2021, the BLM confirmed that they sent one permit in error and that it is not currently active. The remaining two permits, sent by the BLM, are active Crane Creek Allotment grazing permits held by the following: Jerome and Jill Grandi, and David Maddox.

APPLICABLE LAW

Idaho Code § 42-224 states in pertinent part:

(1) Within thirty (30) days of receipt by the director of the department of water resources of a petition or other information that a stockwater right has not been put to beneficial use for a term of five (5) years, the director must determine whether the petition or other information, or both, presents prima facie evidence that the stockwater right has been lost through forfeiture pursuant to section 42-222(2), Idaho Code.⁴ If the director determines the petition or other information, or both, is insufficient, he shall notify the petitioner of his determination, which shall include a reasoned statement in support of the determination, and otherwise disregard for the purposes of this subsection the other, insufficient, information.

(2) If the director determines the petition or other information, or both, contains prima facie evidence of forfeiture due to nonuse, the director must within thirty (30) days issue an order to the stockwater right owner to show cause before the director

³ Idaho Code § 42-224(4) was amended during the Second Regular Session of the Sixty-sixth Idaho Legislature, effective March 24, 2022. Both prior to and after the 2022 amendment, the service requirements outlined within Idaho Code § 42-224(4) are substantially the same regarding the persons who must be served a copy of an order to show cause issued by the Department.

⁴ Prior to the 2022 amendment of Idaho Code 42-224(1), the Director was not required by law to determine, within a period of 30 days, whether a stockwater right has been put to beneficial use for a term of five years. In this matter, the Department considers the start of the newly codified 30-day requirement to be March 24, 2022, the day the statutory amendment went into effect.

why the stockwater right has not been lost through forfeiture pursuant to section 42-222(2), Idaho Code.⁵ Any order to show cause must contain the director's findings of fact and a reasoned statement in support of the determination.

I.C. § 42-224(1)–(2) (current version as amended in 2022). Therefore, to issue an order to show cause as Petitioners have requested, the Director must conclude that the Petition makes a “prima facie showing” that the BLM has not put its BLM Water Rights to beneficial use for at least five years. “Prima facie” is defined by *Black’s Law Dictionary* as: “Sufficient to establish a fact or raise a presumption unless disproved or rebutted; based on what seems to be true on first examination, even though it may later be proved to be untrue <a prima facie showing>.” *Prima facie*, *Black’s Law Dictionary* (11th ed. 2019).

FINDINGS OF FACT

After careful review of the Petition (including Exhibit A and Exhibit B), the Department’s associated research memorandum,⁶ and Petitioners’ concurrently filed Crane Creek Petition, the Director issues the following findings:

1. Petitioners requested the Department issue an order to the BLM to show cause why the BLM’s Water Rights have not been lost through forfeiture pursuant to Idaho Code § 42-222(2). *See Petition* at 1. The following is a list of the water rights at issue: 65-19685, 65-19750, 65-19812, 65-19814, 65-19816, 65-19818, 65-19820, 65-19822, 65-19824, 65-19894, 65-19897, 65-20003, 65-20010, 65-20011, 65-20012, 65-20015, 65-20055, 65-20057, 65-20059, 65-20061, 65-20063, 65-20065, 65-20067, 65-20069, 65-20071, 65-20370, 65-20388, 65-20390, 65-20464, 65-20468, 65-20469, 65-20471, 65-20472, 65-20475, 65-20476, 65-20477, 65-20478, 65-20479, 65-20480, 65-20484, 65-20486, 65-20487, 65-20488, 65-20489, 65-20597, 67-12386, 67-12751, 67-12752, 67-12775, 67-12776, 67-12777, 67-12809, 67-12810, 67-12841, 67-12900, 67-12999, 67-13085, 67-13086, 67-13141, 67-13142, 67-13147, 67-13148. *See Petition* Ex. A; *Memorandum*.

2. Using the Department’s water rights database, the Department reviewed the places of use for the Water Rights. *See Memorandum* at 1.

3. Petitioners’ allegations in the Petition are specific to non-use within the Allotment and do not extend to use beyond the Allotment. *See Petition* at 1–2.

⁵ Prior to the 2022 amendment of Idaho Code 42-224(2), the Director was not required by law to issue an order to show cause within 30 days of his determination. *See generally supra* note 4.

⁶ For the Director to give a reasoned statement supporting a determination in favor of or opposing forfeiture pursuant to Idaho Code § 42-222(2), Department staff utilized the Department’s water right files and database to thoroughly review, analyze, and document the locations of the places of use for the water rights listed in Exhibit A of the Petition. *See* Mem. from Glen Gardiner & Craig Saxton, Water Allocations Analyst and Adjudication Section Manager, Idaho Dep’t of Water Res., to Shelley Keen, Water Allocation Bureau Chief, Idaho Dep’t of Water Res. 1 (Nov. 9, 2021) (attached to this Order as Attachment A) [hereinafter *Memorandum*].

4. Based on the Memorandum, the Director finds that the places of use for the following water rights, are entirely within the Allotment: 65-19685, 65-19812, 65-19814, 65-19818, 65-19820, 65-19822, 65-20003, 65-20010, 65-20011, 65-20012, 65-20015, 65-20055, 65-20057, 65-20059, 65-20061, 65-20063, 65-20065, 65-20067, 65-20069, 65-20071, 65-20390, 65-20464, 65-20468, 65-20475, 65-20476, 65-20477, 65-20479, 65-20480, 65-20487, 65-20488, 65-20489, 65-20597, 67-12386, 67-12751, 67-12775, 67-12809, 67-12810, 67-12841, 67-13085, 67-13086, 67-13141, 67-13142, 67-13147, and 67-13148. *See Memorandum* at 1.

5. Harry C. Soulen is an officer and member in Soulen Livestock Co. and Soulen Grazing Association, LLC. *Petition* at 3–4. The allegations in the Petition attribute observations of nonuse of water in the Allotment to the officers and members of Soulen Livestock Co. and Soulen Grazing Association, LLC. *Id.* at 1–2. Accordingly, the Director finds that Harry C. Soulen’s statements are based on personal knowledge.

6. As described in footnote 2 above, on September 16, 2021, Petitioners filed the Crane Creek Petition. The Crane Creek Petition is similar to the Petition, except it contains specific allegations related to the Crane Creek Allotment. Within the Crane Creek Petition, Harry C. Soulen, an officer and member in Soulen Livestock Co. and Soulen Grazing Association, LLC, alleges nonuse of water by the BLM. Petitioners’ allegations in the Crane Creek Petition are specific to non-use within the Crane Creek Allotment and do not extend to use beyond the Crane Creek Allotment. *See Crane Creek Petition* at 1–2.

7. The Crane Creek Petition attributes allegations of non-beneficial use of water, authorized by federal water rights within the Crane Creek Allotment, to the officers and members of Soulen Livestock Co. and Soulen Grazing Association, LLC. *Crane Creek Petition* ¶¶ 8–10. Accordingly, the Director finds that Harry C. Soulen’s statements in the Crane Creek Petition are based on personal knowledge.⁷

8. Based on the Memorandum, the Director finds that the place of use for water right 67-12752 is entirely within both the Allotment and the Paddock Valley Allotment. *Memorandum* at 3.

9. The Director finds that some of the water rights at issue have a place of use that extends beyond both the Allotment and the Crane Creek Allotment. The water rights with a place of use that extends beyond the boundaries of the Allotment and the Crane Creek Allotment are: 65-20469, 65-20471, 65-20472, 65-20484, 65-19750, 65-19816, 65-19824, 65-19894, 65-19897, 65-20370, 65-20388, 65-20478, 65-20486, 67-12776, 67-12777, 67-12900, and 67-12999. *See Memorandum* at 2–5.

10. The Director has not received written evidence that a principal/agent relationship existed, during the five-year period calculated pursuant to Idaho Code § 42-224(1), between the BLM

and any Paddock Valley Allotment or Crane Creek Allotment livestock grazing permit or lease holders for the purpose of maintaining the BLM Water Rights.

ANALYSIS

Forfeiture is disfavored in Idaho law. *Application of Boyer*, 73 Idaho 152, 159, 248 P.2d 540, 544 (1952) (“Forfeitures are abhorrent and all intendments are to be indulged against a forfeiture.”). To make a prima facie showing that the BLM has not beneficially used water authorized by its water rights for five years, for each water right at issue here, Petitioners must present sufficient evidence establishing forfeiture over the entire place of use—not just those portions of the place of use within the Allotment. The Department’s Memorandum, which includes an analysis of its associated due diligence investigation, clarifies that some of the places of use of the BLM Water Rights extend beyond the boundaries of the Allotment and the related Crane Creek Allotment. See *Memorandum* at 2–5. As noted in finding 3 and 6 above, Petitioners do not offer evidence of BLM’s non-use of water beyond the boundaries of the Allotment and the Crane Creek Allotment. Therefore, the Petition, even when combined jointly with the Crane Creek Petition, does not include sufficient evidence for the Director to issue an order to show cause to the extent that Petitioners have requested.

The Department must limit the scope of an order to show cause issued in this matter to those BLM Water Rights with a place of use that is located entirely within the property boundaries for which the Department has received supporting statements alleging non-use of water. Accordingly, for those BLM Water Rights that have a place of use that is located either entirely or partially outside of the Allotment and the Crane Creek Allotment (see finding 9 above), Petitioners have failed to make a “prima facie showing” in accordance with Idaho Code § 42-224 that the BLM has not beneficially used water authorized by its water rights for five years. However, Petitioners’ statements based on personal knowledge (see findings 5 and 7 above), when combined with the analysis within the Department’s Memorandum, amount to a “prima facie showing” in accordance with Idaho Code § 42-224 that the BLM has not beneficially used water authorized by its water rights that have a place of use entirely within the Allotment and the Crane Creek Allotment within the last five years.

CONCLUSION OF LAW

The Director concludes that the “prima facie showing” burden of proof, set forth in Idaho Code § 42-224, has been satisfied to the extent that he should partially grant Petitioners’ request and issue an order to the BLM to show cause before the Director why those BLM Water Rights that have a place of use entirely within the Allotment and the Crane Creek Allotment have not been lost through forfeiture pursuant to Idaho Code § 42-222(2).

Re: Review of Federal water rights within the Paddock Valley Allotment (#370) which were identified in Exhibit A of Soulen Livestock Co's Verified Petition for Order to Show Cause.

Comparison of Partial Decrees to IDWR Database Records and Shapefiles

On September 16, 2021, Soulen Livestock Company and Soulen Grazing Association, LLC ("Soulen") petitioned the Director of the Idaho Department of Water Resources ("IDWR") to issue a show cause order pursuant to Idaho Code § 42-224(1) for a list of water rights "located on a federal grazing allotment known as the Paddock Valley Allotment (#370)." Soulen's petition refers to the list of water rights as Exhibit A. For each of the water rights in Exhibit A, we compared information on the SRBA partial decree to information in IDWR's water rights database. Fields compared included Name and Address, Source, Quantity, Priority Date, Point of Diversion, Purpose and Period of Use, and Place of Use. We found no discrepancies, although the Names on the partial decrees are abbreviated to USDI BLM, IDAHO STATE OFFICE, whereas IDWR's database refers to the Names as UNITED STATES OF AMERICA ACTING THROUGH USDI BUREAU OF LAND MANAGEMENT, IDAHO STATE OFFICE.

IDWR stores digitized water right places of use ("POU") in its geographic information system ("GIS"). We verified the digitized POU for each of the water rights listed in Exhibit A matches the POU described in the water rights database. No discrepancies were found. To complete our analysis, we then used GIS to overlay the digitized POU for each water right in Exhibit A onto the digital boundaries of the Paddock Valley Allotment and neighboring grazing allotment¹:

Paddock Valley Allotment Analysis

Based on digital data, the POUs for the following water rights exist completely within the Paddock Valley Allotment:

65-19685, 65-19812, 65-19814, 65-19818, 65-19820, 65-19822, 65-20003, 65-20010, 65-20011, 65-20012, 65-20015, 65-20055, 65-20057, 65-20059, 65-20061, 65-20063, 65-20065, 65-20067, 65-20069, 65-20071, 65-20390, 65-20464, 65-20468, 65-20475, 65-20476, 65-20477, 65-20479, 65-20480, 65-20487, 65-20488, 65-20489, 65-20597, 67-12386, 67-12751, 67-12775, 67-12809, 67-12810, 67-12841, 67-13085, 67-13086, 67-13141, 67-13142, 67-13147, 67-13148.

¹ The digital shapes of the allotment boundaries were created by U.S. Department of the Interior, Bureau of Land Management with a publication date of 06-30-2017. The digital allotment boundaries can be downloaded from the website https://gis.blm.gov/arcgis/rest/services/range/BLM_Natl_Grazing_Allotment/MapServer

POUs for the following water rights exist partially within the Paddock Valley Allotment and partially outside the Paddock Valley Allotment:
